Important safety information

Only use the product for its intended purpose. Read this important information carefully before you use the product and its batteries and accessories, and save it for future reference. Misuse can lead to hazards or serious injuries. Accessories supplied may vary for different products.

Warning

- Keep the supply unit dry (Fig. 1).
- This symbol means: Forbidden to clean under a running tap (Fig. 1).
- This shaver is waterproof (Fig. 2). It is suitable for use in the bath or shower and for cleaning under the tap. For safety reasons, the shaver can therefore only be used without cord.
- This symbol means: Suitable to be used in the shower (Fig. 2). It is allowed to use this appliance close to a bathtub, shower or other containers filled with water.
- Do not modify the supply unit.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- If you suffer from any serious skin conditions, consult a physician before using the SkinLED light.
- If you experience any negative side effects from the SkinLED light, consult a physician.
- The appliance is only intended to shave facial hair. It is not intended for shaving lower body parts or scalp hair.
- Do not look into the light for longer than 10 seconds while the switched-on appliance is closer than 2 cm to the eyes.
- Do not use a damaged appliance. Replace damaged parts with new Philips parts.
- Do not use the supply unit in or near wall sockets that contain an electric air freshener to prevent irreparable damage to the supply unit.
- Because of hygiene, only one person should use the appliance.
- Unplug the appliance before cleaning it with water.
- Only use cold or lukewarm water to clean the appliance.
- Never use compressed air, scouring pads, abrasive cleaning agents or aggressive liquids to clean the appliance.
- Water may drip from the socket at the bottom of the shaver when you rinse it. This is normal and not dangerous because all electronics are enclosed in a sealed power unit inside the shaver.
- Only use original Philips accessories or consumables. Only use detachable supply unit HQ8505.

- Charge, use and store the product at a temperature between 10 °C and 35 °C.
- Keep product and batteries away from fire and do not expose them to direct sunlight or high temperatures.
- If the product becomes abnormally hot or smelly, changes color or if charging takes longer than usual, stop using and charging the product and contact Philips.
- Do not place products and their batteries in microwave ovens or on induction cookers.
- Do not open, modify, pierce, damage or dismantle the product or battery to prevent batteries from heating up or releasing toxic or hazardous substances. Do not short-circuit, overcharge or reverse charge batteries.
- If batteries are damaged or leaking, avoid contact with the skin or eyes. If this occurs, immediately rinse well with water and seek medical care.

Electromagnetic fields (EMF)

This Philips appliance complies with all applicable standards and regulations regarding exposure to electromagnetic fields.

Support

For all product support such as frequently asked questions, please visit www.philips.com/support.

Recycling

- This symbol means that electrical products and batteries shall not be disposed of with normal household waste (Fig. 3).
- Follow your country's rules for the separate collection of electrical products and batteries.

Troubleshooting

This chapter summarizes the most common problems you could encounter with the appliance. If you are unable to solve the problem with the information below, visit www.philips.com/support for a list of frequently asked questions or contact the Consumer Care Center in your country.

Problem	Possible cause	Solution
The appliance does not work when I press the on/off button.	The appliance is still attached to the wall socket. For safety reasons, the appliance can only be used without cord.	Unplug the appliance and press the on/off button to switch on the appliance.
	The rechargeable battery is empty.	Recharge the battery.
	The travel lock is activated.	Press the on/off button for 3 seconds to deactivate the travel lock.
	The shaving unit is soiled or damaged to such an extent that the motor cannot run.	Clean the shaving heads thoroughly or replace them.
The appliance does not shave as well as it used to.	The shaving heads are damaged or worn.	Replace the shaving heads.
	Hairs or dirt obstruct the shaving heads.	Clean the shaving heads thoroughly.
Water is leaking from the bottom of the appliance.	During cleaning, water may collect between the inner body and the outer shell of the appliance.	This is normal and not dangerous because all electronics are enclosed in a sealed power unit inside the appliance.
The SKINLED light is not activated when I press the on/off button.	You pressed the on/off button for 2-4 seconds. This switches on the appliance without the SKINLED light.	Switch off the appliance and switch it back on by pressing the on/off button for less than 2 seconds.
	Hairs or dirt obstruct the inside of the shaving unit.	Clean the shaving unit.

Removal of built-in rechargeable battery

The built-in rechargeable battery must only be removed by a qualified professional when the appliance is discarded. Before removing the battery, make sure that the appliance is disconnected from the wall socket and that the battery is completely empty.

Take any necessary safety precautions when you handle tools to open the appliance and when you dispose of the rechargeable battery.

When you handle batteries, make sure that your hands, the product and the batteries are dry.

To avoid accidental short-circuiting of batteries after removal, do not let battery terminals come into contact with metal objects (e.g. coins, hairpins, rings). Do not wrap batteries in aluminum foil. Tape battery terminals or put batteries in a plastic bag before you discard them.

Check if there are screws in the back or front of the appliance. If so, remove them. Remove the back and/or front panel of the appliance with a screwdriver. If necessary, also remove additional screws and/or parts until you see the printed circuit board with the rechargeable battery. Remove the rechargeable battery.
