PHILIPS

Home projector

Ultra Short Throw, 80" screen True Full HD Experience, Pair 2 Bluetooth earphones, Ultra Compact

Highlights

Optimise your space

Enjoy a true cinematic experience at home. Thanks to the ultra-short throw technology, this True Full HD projector provides a massive 80" screen size when placed just 12 inches away from the wall or projection surface. Set Screeneo U4 on the tabletop, TV shelf or bedroom wardrobe to enjoy your favourite TV shows, sports and games more than ever before! Set it just inches away to watch, or move it back for an even larger image.

True Full HD, HDR 10

Watch movies and more in True Full HD 1080p high-definition sharpness, full of the fine detail that can be lost at lower resolutions. The picture remains lifelike and text is crystal-clear when displayed at up to 80" or more. Texas Instrument DLP cinema technology brings vivid pictures, deep contrast and a bright image in any conditions. Worried about the lamp? No worries! The powerful LED light source displays rich, vivid colours and will last up to 30,000 hours. Additionally, the power consumption is far lower than a regular lamp-based projector.

Customised Image

Our tuning reaches 108% Rec.709 HDTV standard colour coverage, ensuring an incredible image performance that delivers sharp and crisp visuals. Engineered with AMlogic T972 CPU pictures, the HDR10 colours remain lifelike with outstanding full high-definition sharpness for text. Auto keystone, auto focus and 4 corner correction also help to eliminate crooked and distorted images for a perfectly proportioned picture, even if the device is not straight in front of the wall. The TOF system gives users an optimal image from virtually any angle and eliminates many of the hassles of an optimal setup.

Compact and brilliant design

Simplicity, modernity and compact design are inspired to luxuriously and seamlessly blend into your home. Full dark matte blending aluminium and ABS.

Connect, watch and play

Use the 2 x HDMI 2.0 and a USB A to connect all of your devices. Get your gaming consoles,

SCN350/INT

Apple TV or Satellite receivers connected to the HDMI ports just like a TV. Thanks to the USB A power port, you don't even need an extra adapter for your Amazon Fire stick: just plug it in to the HDMI and USB port for convenience.

DSP

Digital Signal Processing enhances all sound frequencies, helping you to fully immerse yourself in your favourite TV content.

Dual Bluetooth

Dual Bluetooth audio functionality allows you to listen to your media audio on two different Bluetooth devices at once (speakers or earphones). As such, not only can you use two pairs of headphones at the same time, but you can independently control the volume of each set! Additionally, you can watch movies without disturbing anyone and control your own volume if you are watching with someone else. In your bedroom or want better sound? Simply connect the Screeneo U4 to 2 pairs of speakers for an enhanced sound experience.
