

#### Mobile projector

- 120" in True FULL HD 1080p
- Xtreme sound and portability
- Android TV experience
- Bluetooth boombox function

PPX720/INT

## Xtreme Brightness, Xtreme Sound & Portability

Based on Android TV, the PicoPix MaxTV projects images up to 120" in True Full HD. Thanks to multiple image corrections, automatic brightness, a battery lasting up to 4h, and a boombox function, you'll wonder how you ever lived without it!

### Benefits

#### Xtreme sound, brightness and portability

- Xtreme portability
- Cinematic Experience in 1080p
- Mind-blowing sound

#### Bespoke image correction

- Smart Autofocus
- TI DLP technology / REC709
- Automatic Brightness

- Supercharged Image

#### Android TV experience

- Android TV Experience
- ChromeCast Built-in

#### Connected and Protected

- Fully connected

**PHILIPS**

## Features

### Smart Autofocus

One-click auto-focus eliminates the hassle and burden of a manual set-up. The high-resolution camera and AI driven autofocus, will always ensure you get the clearest image, automatically.

### Xtreme portability

An ultra compact PicoPix Max TV projector packed with everything you need. Make the most of a 4-hour battery in projection mode or 10 hours in Bluetooth Speaker mode. The Powerbank function will also charge all your devices via the USB-C or USB-A port.

### TI DLP technology / REC709

Texas Instruments DLP technology, used in 9 out of 10 cinemas worldwide, delivers vivid pictures, deep contrast, and a bright image in any conditions. You can expect an unrivalled visual experience with vibrant colors that deliver 100% of the REC709 signal.

### Android TV Experience

Your Philips Android TV Projector gives you the content you want when you want it. You can customise the home screen to display your favourite apps, making it effortless to start streaming the movies and shows you love or pick up where you left off. Our OSD has a new intuitive UI design, which makes it a breeze to navigate and find your way around. Powered by the fastest AMLOGIC CPU, it provides a smooth, best in class Android TV experience.

### Automatic Brightness

With the Auto Brightness feature, you won't even need to adjust the projector if the room becomes brighter or darker! The light sensor analyses the room light in real time and automatically tunes the brightness of the PicoPix Max TV.

### ChromeCast Built-in

Chromecast built-in is a technology that allows you to stream your favorite entertainment and apps from your phone, tablet, or laptop right to your TV or speakers. Your phone acts as a simple, powerful remote. Just open the mobile apps you already know and love to quickly access your TV shows and playlists. No new log-ins or downloads required. You can use your phone to search, browse, queue and control the projector from anywhere in the home, and keep using it without disrupting what's playing or draining your battery.

### Supercharged Image

Place the projector wherever you wish! Auto keystone and 4 corner correction help to eliminate crooked and distorted images for a perfectly proportioned picture even if the device is not straight in front of the wall. It also gives users an optimal image from virtually any angle and eliminates many of the hassles of an optimal set-up. Big space, small wall? No worries! The digital zoom can maximize the image size even if your projector is far away from the wall. Thanks to the 1.2 throw ratio, small spaces get a bigger picture. Max TV requires as little as 3.2m to project stunning 120" picture

### Cinematic Experience in 1080p

Native 1080p Full HD resolution from such a compact product means you no longer have to choose between a portable projector and high resolution. With the PicoPix MaxTV, you can watch all your favorite movies, TV shows or play games on a massive 120" with best-in-class resolution and HDR10. The completely re-designed cooling system and 4 LED channels deliver incredible brightness that's 15% superior to Max, dramatically improving the contrast and avoiding washed out images.

## PicoPix MaxTV

### Mind-blowing sound

Immerse yourself with ultra powerful sound, surround and bass boost. The sound is professionally tuned by a golden ear for a well balanced and perfect music or cinema playback. You can also use it as an external Bluetooth speaker via the dedicated Bluetooth button. Additionally, you get an astounding audiovisual experience and incredible sound quality right out of the box thanks to the built-in DSP.

### Fully connected

Connect all your favorite devices via HDMI (like smartphone, tablet, laptop, gaming console) or USB-C Video and play all your videos, pictures and audio files from USB thanks to the built-in multimedia player. The Wi-fi MIMO Dual Band technology reduces buffering and is ideal for online gaming or watching Full HD movies.

## Specifications

[field not found 'disclaimer\_text']
