Highlights

ARC and CEC

Control your HDMI connected devices with only 1 remote control thanks to CEC. ARC allows you to connect the projector to your AV receiver via HDMI for a truly immersive sound

Customize the perfect image

Place the product where ever you want! The auto keystone and auto rotation corrections combined with the focus technology allow you to fine-tune images to your needs and place your projector at any distance.

Fully Connected (HDMI, USB, US

Connect all your favorite devices via HDMI or USB-C Video. The USB port will let you power

any smart stick like Amazon Fire TV or Roku for a truly portable experience.

Project images up to 80"

Project images and videos up to 80" (200cm) from less than 2 meters from the wall.

Super Compact

Compact, powerful, and Apple ready: take it everywhere, project anywhere. This is your perfect travel companion.

Advanced LED Light Source

The powerful LED light source displays rich, vivid colors and will last up to 30,000 hours. You won't need to replace it since it lasts 20 years with an average usage of 4 hours per day!

Additionally, the power consumption is far lower than a regular lamp based projector, which means you benefit from a bigger screen and fully immersive experience, all through an eco friendly device!

Tripod mount

Built-in tripod mount to project straight in front of you or project on the ceiling for a comfortable view from your bed!

built-in 5 hours battery for c

Get entertainment on the go with the built-in battery providing up to 5h of projection.
