Specifications

Performance

- Whitening results: Maximum whiteness in 45 min.

Highlights

Includes a Touch up treatment

For patients with severe tooth discolouration, a confident smile might not always come naturally. The innovative combination of Philips Zoom WhiteSpeed chairside whitening and Philips Zoom take-home treatment produces maximum results

Includes ACP Oral Care gel

Recommendation is to place a light coating of Relief ACP (amorphous calcium phosphate) Oral Care Gel on the lingual surfaces of teeth on both arches before whitening treatment and to apply ACP Immediately following an in-chair procedure directly onto the teeth or in custom trays for 10 to 30 minutes

Impressive results fast

Your patients can get up to eight shades whiter teeth in 45 minutes, excluding preparation time
