- Quadpacer interval timer encourages thorough brushing

Offers a customised brushing experience

- Three intensity settings for a gentle experience

Recommended by dental professionals worldwide

- Proven to improve gum health in 3 ways
- Safe on orthodontics, dental work and veneers

Highlights

Improves gum health in 3 ways

Clinically proven to improve gum health in three ways: reduces redness, swelling and bleeding (sites)

Helps whiten teeth

This Philips Sonicare electric toothbrush helps to remove and reduce stains on your teeth for a brighter smile.

Removes up to 7 x more plaque

Removes up to 7 times more plaque from hard-to-reach places than a manual toothbrush.

Three intensity settings

With three customisable intensity settings (low, medium and high) you can select the right power level to ensure that brushing along the gumline is comfortable. After 1.5 seconds of brushing, you will have to push the button twice to switch modes — once to pause and again to switch.

The only true sonic technology

The Philips Sonicare electric toothbrush's unique dynamic action gently and effectively reaches deep between teeth and along the gum line.

Quadpacer

Features a Quadpacer interval timer to help encourage thorough brushing of the entire mouth. The toothbrush beeps every 30 seconds, signifying that it's time to move to another area of the mouth.

Safe and gentle

The gentle motion of this Philips Sonicare power toothbrush is safe for dental work, including orthodontics, implants and veneers, so you can brush without worrying.

Smartimer

This Philips Sonicare power toothbrush features a special Smartimer to help you meet the dentist-recommended brushing time of two minutes

DiamondClean brush head

DiamondClean toothbrush heads, Philips Sonicare's best whitening brush head, have diamond shaped bristles to effectively yet gently remove surface stains and scrape away plaque. Removes stain build up from coffee, tea, red wine, cigarettes and tobacco in just 1 week.
