Cleaner teeth. Gently does it.

Remove up to 10 x more plaque than a manual brush

Feel the difference of a gentle clean with our Pressure Sensor while removing up to 10 x more plaque than a manual toothbrush

Proven to improve oral health

- Increased surface contact for eliminating plaque

Innovative technology

- A gentle nudge to go nice and easy
- Patients get the most from their brush heads
- Connects smart brush handle and smart brush heads
- Philips Sonicare's advanced sonic technology

Optimise your brushing

- Clean and gum care mode

Designed around your patient

- A great way to get used to your new toothbrush
- Encouragement to brush thoroughly

Highlights

Removes up to 10 x more plaque*

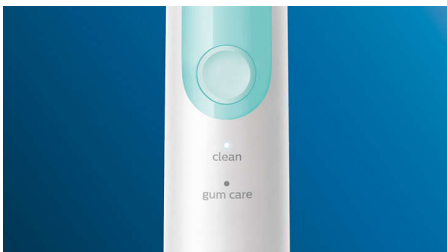

The C3 Premium Plaque Control brush head delivers our deepest clean. With soft flexible sides, the bristles contour to the shape of each tooth's surface to provide 4 x more surface contact** and remove up to 10 x more plaque from hard-to-reach areas*.

Too much pressure?

Patients may not notice if they are brushing too hard, but their toothbrush will. If patients start taking it out on their gums, the toothbrush will make a pulsing sound as a reminder to ease off on the pressure.

Clean and gum care mode

Whether you want to focus on removing plaque or on getting your gums healthy and keeping them that way, this brush has a mode for you: clean mode delivers superior cleaning,

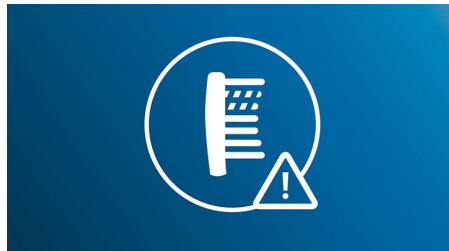

while Gum Care mode adds an extra minute of reduced-power brushing, so you can gently massage your gums.

BrushSync technology

A microchip-enabled technology that detects and synchronises the smart brush head with the smart handle. The smart handle and smart brush head pair is a powerful combination that enables Smart replacement reminders.

Smart replacement reminders

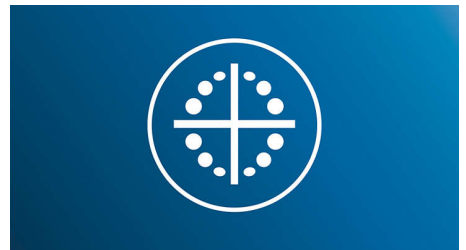

All brush heads wear out over time. But we've got that covered too: our smart brush-recognition technology tracks how long patients have been using their brush head for and how hard they've been brushing. When it's time to replace it, a light on the handle lets them know. That way, they can be sure that their brush head is consistently doing a stellar job.

Easy-start programme

Starting something new can take getting used to. That's why our easy-start programme gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

Helpful timers

Our QuadPacer lets patients know when they've spent just the right amount of time cleaning each part of their mouth, while our Smartimer tells them when they've brushed for the recommended two minutes.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.

Specifications

Power

Voltage: 110–220 V

Technical specifications

Operating time (full to empty): Up to 2 weeks

Battery: Rechargeable

Battery type: Lithium ION

Design and finishing

Colour: White mint

Service

Warranty: 2-year limited warranty

Ease of use

Handle compatibility: Easy click-on brush heads
