

**Philips Series 2000  
Air Purifier**

Reduces allergens, gases, odor  
Captures 99.97% of particles  
Real-time air quality feedback  
Ideal for medium to large room

**AC2885/40**

## Intelligent purification

See your air quality with AeraSense

With professional-grade sensing performance, the Philips Air Purifier Series 2000 monitors and purifies the air by removing up to 99.9% of viruses and aerosols from the air\* while you sleep, quietly with night sense auto-mode.

### Superior purification

- Removes up to 99.9% of viruses and aerosols from the air\*
- Reduces allergens, gases, odors

### Intelligent purification

- 3 smart presettings for different airborne pollutants
- 5 manual settings, including quiet sleep setting
- Automatically monitors, reacts & purifies the air
- Visualized air quality feedback

### Long-lasting performance

- Auto shut-off
- Ideal for medium to large rooms

# PHILIPS

## Air Purifier

Reduces allergens, gases, odor Captures 99.97% of particles, Real-time air quality feedback, Ideal for medium to large room

# Highlights

### 99.9% virus filtration\*

Removes aerosols including those containing respiratory virus, from the air which passes through the filter. It also sanitizes the air by removing 99.9% of aerosols from the air that may contain viruses.\*

### Superior purification

With cutting edge sensing and purification technology, the Philips Air Purifier Series 2000 is proven to reduce allergens, odors, VOCs and even certain bacteria. The pre-filter and True HEPA filter remove particles. The Active Carbon filter reduces gases and odors.

### AeraSense technology

**AeraSense**

Benchmarked against a professional-grade sensor, Philips AeraSense technology is highly

effective in sensing even the slightest change in indoor air conditions. It continuously monitors the air and automatically adjusts the fan speed when it detects a change in particles.

### Visualized air quality

In real-time, AeraSense shows you the air quality data via a numerical display and a color ring on the dashboard of the air purifier. The numerical display from 1-12 is an index of the indoor air quality, where 1 is good and 12 is polluted air. The color ring provides an additional visual cue, ranging from blue (good allergen & particle level) to red (bad allergen & particle level).

### 3 auto modes

The Philips Air Purifier Series 2000 has 3 automatic purification settings: a General mode, an extra-sensitive Allergen mode, and an extra-powerful bacteria and virus mode. You can choose your preferred mode to personalize and optimize your purification.

### 5 manual settings

In addition to the 3 auto modes, the purifier also has 5 manual modes. Choose one of five different speed settings: from the extra-quiet

'Sleep' mode to the extra-powerful 'Turbo Speed' mode. Pick one that is ideal for your required purification.

### Ideal for living room

The Philips Air Purifier Series 2000 has been designed for medium to large rooms, such as a living room. It is recommended for rooms up to 277sq ft.

### Auto shut-off

To protect your air quality, the purifier warns you in advance when the filters are wearing out and then shuts down the appliance automatically in the event of an exhausted filter

# Specifications

**Country of origin**

- Made in: China

**Features**

- VitaShield IPS
- PM2.5 sensor
- AeraSense technology
- Air Quality feedback: Numerical
- Modes: 3 auto modes
- Aerodynamic design: 3 inlet
- Fan speed: 5 settings
- Healthy air lock & Alert
- Timer: 12 hour(s)
- Motor: DC

**Technical specifications**

- Voltage: 110 V
- Power: 56 W
- Cord length: 1.8 m
- Frequency: 50-60 Hz

**Weight and dimensions**

- Dimension of packaging (LxWxH): 359\*240\*558 mm
- Dimension of product (LxWxH): 412\*294\*612
- Weight of product: 7.7 kg
- Weight incl. packaging: 9.3 kg

**Design and finishing**

- Color of control panel: Black 7 C
- Material of main body: ABS
- Color(s): White
- Control panel type: Button
- Material of deco ring: PMMA

**Replacement**

- Particle filter: 883442240540
- AC filter: 883442040540

**Sustainability**

- Packaging: > 90% recycled materials
- User manual: 100% recycled paper

**Performance**

- Room size: 277 sq. ft. / 15.7 m<sup>2</sup>
- CADR (Dust): 198 m<sup>3</sup>/h
- CADR (Smoke): 179 m<sup>3</sup>/h
- CADR (Pollen): 211 m<sup>3</sup>/h
- 0.3µm particle removal: 99,97 %
- Ultra fine particle removal: 20 nm
- Recommended HEPA life time: 12 months
- Sound Power: 32-64 dB(A)
- Recommended AC life time: 6 months
- Sound Pressure: 20.5-52 dB
