- Easy cleaning thanks to fully removable brew group
- Dishwasher safe parts for your convenience
- Automatic descaling for your convenience

PHILIPS

Fully automatic espresso machines
2 beverages Classic Milk Frother, Matte black, Touch display

EP1220/00

Highlights

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups*, while enjoying clear and purified water.

Classic milk frother

The Classic Milk Frother dispenses steam, allowing you to easily prepare silky smooth milk froth for your cappuccino. What's more? With only two parts, the Classic Milk Frother is also easy to clean.

Intuitive touch display

The irresistible taste and aroma of coffee from fresh beans is just one touch away. Our intuitive touch display allows you to easily select your favorite coffee.

My Coffee Choice

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

100% ceramic grinders

Bring out the full flavor of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures they last for at least 20.000 cups.

Removable brew group

The brew group is the heart of every fully automatic coffee machine, and should be cleaned regularly. The removable brew group allows you to clean it thoroughly just by rinsing it under the tap.

Automatic descaling alarm

It's easy to clean and maintain your coffee machine with the automatic program which notifies when you have to descale it. You can adjust the frequency of this procedure to match the water hardness at home.

Specifications

Country of origin

- Designed in: Italy
- Made in: Romania

Customization

- Grinder Settings: 12
- Pre Brew Aroma control
- Temperature settings: 3
