- Teat releases milk when baby actively drinks

Ideal first step to a drinking cup

- Soft touch trainer handles for little hands

Other benefits

- Designed to reduce colic and discomfort
- No-drip teat design prevents spills and lost milk
- Compatible across the Philips Avent range
- Natural Response Teats and Bottles are BPA free*

Other benefits

- Choose the right teat flow for your baby
- Be patient as your baby adjusts

Highlights

Ergonomic trainer handles

Trainer handles help your toddler to hold the cup and drink independently. These handles are shaped for little hands to grab easily and they are rubberised for a non-slip grip.

Natural Response Teat

The Natural Response Teat works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The teat has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

Natural latch on

The wide, soft and flexible teat is designed to mimic the shape and feel of a breast, helping the baby to latch on and feed comfortably.

Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

No-drip teat

The teat opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

Compatible across the range

Mix and match our breast pump, bottle and cup parts and create the product that works for you, when you need it.

BPA-free*

The Philips Avent Natural bottles and teats are made of BPA free* material.

Find the right teat flow

Every baby feeds differently and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalise your bottle. All of the Natural Response Teats are made of soft silicone.

Be patient as your baby adjusts

Our new Natural Response Baby Bottles are different from free-flow baby bottles. Just like breastfeeding, it could take a few tries to get it right. That's perfectly natural.
