- \* At 2 weeks of age, babies fed with a Philips Avent bottle showed less colic, and significantly less fussing at night compared to babies fed with another leading bottle.
- \* Nipple design proven to prevent nipple collapse and associated air ingestion and feeding interruptions.
- \* What colic is, and how it affects babies? Colic is caused in part by swallowing air while feeding, which creates discomfort in a baby's digestive system. Symptoms include crying and fussing.
