• DiamondVision Moto lights up your motorcycle

Specifications

Marketing specifications

- · Expected benefits: White light
- Product highlight: Ultimate 5000K white light

Product description

- · Application: High beam, Low beam
- · Base: P32d
- Designation: HS1 DV
- Range: DiamondVision moto
- Technology: Halogen
- Type: HS1

Lifetime

• Life time: 400h

Light characteristics

- Lumens: 390 ± 8% / 250 ± 8% Im
- Color temperature: up to 5000 K K

Electrical characteristics

- Wattage: 35/35W W
- Voltage: 12 V

Ordering information

- Order entry: 12636DVB1
- Ordering code: 78148230

Packaging Data

- Packaging type: B1
- EAN1: 8711500781482
- EAN3: 8711500781499

Packed product information

- Gross weight per piece: 76.5 g
- Length: 9.5 cm
- Width: 5 cm
- Height: 12.9 cm
- Net weight per piece: 21.5 g
- Pack Quantity / MOQ: 1

Outerpack information

- Length: 25.9 cm
- Width: 20.1 cm
- Height: 14.6 cm
- Net weight per piece: 215 g • Gross weight per piece: 0.765 g

Highlights

UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass ideal for all driving conditions and ensures their longevity at the

5000K for style upgrade

Based on the special complete blue coating design, DiamondVision Moto is offering ultimate white light of 5000K, bringing style to your headlights

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability to withhold increased pressure inside the lamp, UV-quartz glass is able to produce more powerful lighting. ^Application varies per bulb type.

Resistance against humidity
Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : such as, if a drop of cold water touches the hot bulb, which can happen when you drive through water with a broken headlight unit. ^Application varies per bulb type

Manufacturers' choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standards on modern automobiles. Today, one in two cars in Europe and one in three worldwide, is equipped with Philips lighting.
