High visibility for maximum safety

LED daytime running lights to be seen better

The high-power Luxeon LEDs daytime running lights improve your safety on the road, increasing your visibility without compromising on lifetime and energy consumption.

Fit most car model

- Hybrid, electric and start & stop compatible

Original Equipment Quality

- Water and gravel-impact resistant
- High quality aluminum housing

Simple-click installation

- Simple wiring system
- Smart clip-on system

Highlights

Start & stop compatible

With the intelligent electronics of the control box, the modules are compatibles with the latest types of vehicles: hybrid, electric and start & stop cars are all supported. Please refer to the application guide section for an overview of all make and models.

Gravel-impact resistant

The high-quality aluminum housing and lens are water and gravel-impact resistant. After mounting the system does not require any maintenance.

Aluminum housing

The robust high quality aluminium housing prevents corrosion and is weatherproof: water, salt, sand and dust stand no chance. The result is long life and no maintenance work.

Simple wiring system

The simple wiring system will enable you to install your daylight easily.

Clip-on system

Simple installation with smart clip-on system. Install the brackets in any cavity and simply click the modules into place. The modules will lock tightly and are free from theft.

Specifications

Technical specifications
