

# PHILIPS

car headlight bulb

X-tremeVision

Type of lamp: H1

Pack of: 2

12 V, 55 W

More light

12258XV+S2

## Take performance to the extreme

Up to 130% brighter light

Philips X-tremeVision car bulbs are among the brightest you can buy. They outshine most other car lamps with up to 130% more brightness and a superior beam length. So you see further, react faster and drive safer.

### High light output, high performance

- See further and react faster with up to 130% more brightness
- One of the brightest bulbs: ultimate light performance
- The safest road-legal headlights

### Increased brightness

- Brighter light to improve comfort and safety
- Great contrast for a comfortable drive
- Exceptional beam quality and performance

### Best-in-class lifetime

- Performance means more light and longer lifetime
- A lifetime of safety so you can see and be seen

# Highlights

## Significantly whiter light

The bright white light is whiter than standard headlights. The Philips patented Gradient Coating technology produces a more powerful light, so you can enjoy one of the brightest lighting performances and a highly comfortable night driving experience.

## A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision is optimised for a long and reliable lifetime. So you can see and be seen for longer than with any other high-performance lamp.

## Exceptional beam quality

With a combination of more light and increased colour temperature, Philips X-tremeVision qualifies as one of the best performance beams in the halogen segment.

## Extra light, extra lifetime

Philips X-tremeVision headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours\*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (\*H4 and H7 tested at 13.2V standard voltage)

## Great contrast drives comfort

The increased colour temperature in Philips X-tremeVision headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

## See further, react faster

Philips X-tremeVision boosts your visibility with up to 130% more brightness. This helps you recognise obstacles and any potential dangers earlier than with most other halogen headlight lamps.

## One of the brightest bulbs

With its optimised high-precision filament geometry, up to 13 bar high-pressure gas filling, high-precision coating and high-quality UV-Quartz glass, Philips X-tremeVision headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

## The safest legal car lights

Philips X-tremeVision is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. The lights are fully ECE certified.

# Specifications

## Product description

Technology: Halogen  
Type: H1  
Range: X-tremeVision  
Application: High beam, Low beam  
Homologation ECE  
Base: P14.5s  
Designation: H1 X-tremeVision

## Electrical characteristics

Voltage: 12 V  
Wattage: 55 W

## Ordering information

Order entry: 12258XV+S2  
Ordering code: 37166628

## Packaging Data

Packaging type: S2  
EAN1: 8727900371666  
EAN3: 8727900371673

## Packed product information

Pack Quantity: 2  
MOQ (for professionals): 10  
Height: 13.3 cm  
Length: 11 cm  
Width: 5.3 cm  
Net weight per piece: 6.0 g

## Outer pack information

Gross weight per piece: 0.44 kg  
Height: 13 cm  
Height: 12.0 cm

Length: 28.6 cm  
Width: 14.1 cm  
Gross weight per piece: 445 g

## Marketing specifications

Expected benefits: More light  
Product highlight: Up to 130% more brightness

## Lifetime

Life time: Up to 350 h

## Light characteristics

Colour temperature: Up to 3500 K  
Lumens: 1550 ±15% lm
