H412458MOTOCN

For challenging road and offroad conditions

Vibration resistant up to 20G

A motorcycle in action is facing severe vibration levels. To be ready for this challenge, Philips ExtraDuty is prepared to withstand vibration levels up to 20G.

High quality and ultra resistant headlamp

- Philips is the choice of major motorbike manufacturers.
- Safety and Style solutions are available for all your needs.

Improved resistance for less lamp replacement

- Better vibration resistance for less lamp replacement

Optimized design for better performance

- Philips moto lamps are made of high-quality quartz glass

Highlights

Highly durable

The replacement of a broken motorcycle lamp requires time and costs money. Therefore, Philips created the ExtraDuty, a lamp that lasts significantly longer in heavyduty conditions. Thanks to its unique design, it withstands vibration levels of up to 20G more. In the long run it will save money and time better spent on the road.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. So Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able

to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light. And more powerful light means an enhanced driving experience, however dark the road in front of you.

Manufacturers' choice

For over 100 years, Philips lamps have been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard in modern vehicles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Solutions for all needs

Riders' lighting needs are different depending on the time of day, road conditions and personal preferences. Philips motorcycle lighting offers a wide range to choose from. All can have optimal lights for their road ahead.

Specifications

Packaging Data

EAN1: 8711500879080

EAN3: 8711500879097

Packaging type: C1

Marketing specifications

Expected benefits: Long Life

Product highlight: Lasts up to 5X more

Product description

Range: ExtraDuty

Technology: Halogen

Application: High beam, Low beam

Type: H4

Base: P43t-38

Designation: H4-12458MOTO-CN

Electrical characteristics

Voltage: 12 V

Wattage: 35/35 W

Ordering information

Ordering code: 87908060

Order entry: 12458EDC1

Packed product information

Gross weight per piece: 32 g

Height: 7.6 cm

Length: 4.6 cm

Net weight per piece: 25 g

Width: 4.6 cm

MOQ (for professionals): 100

Pack Quantity: 1

Outerpack information

Gross weight per piece: 3.729 g

Height: 16 cm

Length: 48 cm

Net weight per piece: 2500 g

Width: 24.5 cm
