Stand out from the crowd

Durable and vibrant LED signaling

For a stylish drive, upgrade to Philips Ultinon Pro3100 LED festoons for interior and license plate bulbs. The cool bright light illuminates the inside of your car while being kind to your eyes or your license plate with stylish effect.

Bright LED lights

- Bright and stylish interior and license-plate lighting

Good light distribution

- Optimized for enhanced visibility

Long lasting performance

- Durable, long-lasting LED lighting

Simple plug-and-play replacement

- Easy to install and compatible with most vehicles

Highlights

Bright and stylish light

Select our bright white Philips Ultinon Pro3100 LED lamps for superior visibility and style in your car, and on your license plate. These bright, stylish lights will transform your driving experience. Whether you're searching for a dropped phone, your passengers want to read, or you're trying to work out the best route to your destination, you can now enjoy bright interior light that's kind to your eyes. And these high-performance bulbs will also give you an eye-catching license plate. Your vehicle says a lot about you, so make a style statement with Philips LED exterior signaling lights.

Good light distribution

Whether it's for reading light, glove compartment, license plate or trunk lighting, the Philips Ultinon Pro3100 LED gives you uniform light distribution. Its wide angle ensures that the light is projected where you need it.

Long-lasting LED lighting

You want bright and stylish lights, but you don't want to keep replacing failed lamps. That's a major weakness of conventional signal lights – the more powerful the light, the shorter its lifespan. At the same light intensity, LEDs last much longer. Philips Ultinon Pro3100 LED lights are extremely durable with their lifetime of 3,000 hours, up to 3 times the lifespan of conventional 38mm C5W signaling festoon bulbs (Philips C5W 12V). Replacing your conventional 38mm C5W festoons with Philips Ultinon Pro3100 LED lights will avoid multiple replacements in future to save you money and time.

Ready, steady, installed!

Enjoy the plug-and-play experience: the Philips Ultinon Pro3100 comes with standard caps so replacement is easy and quick.
