High quality upgrade headlight

- Superior quality with enhanced visibility

Original equipment manufacturer

- Always change both headlights at once for more safety

Increases reaction time for obstacles on road

- We are the choice of major car manufacturers.

Highlights

Enhanced visibility

Our lighting solutions produce a powerful and precise beam of light with maximum output. Offering high performance and excellent value, VisionPlus is the right choice for today's demanding drivers.

Original Equipment quality

For over 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern cars. Today, one in three cars worldwide is equipped with a Philips light source.

Replace in pairs

Headlight bulbs put out less light as they age. That means that old bulb is giving you less nighttime visibility that you would have with

2 new bulbs. Putting in a new pair gives you all the light you should be getting for maximum driving safety for you and your family.

Up to 60% more vision

Light is a fundamental part of the driving experience and light is the first and only part of the safety circle that actually helps to prevent accidents. Thanks to an earlier recognition of obstacles and traffic signs, VisionPlus allows you to react quicker. Philips VisionPlus is the performance choice for safety conscious drivers.
