See better, work better

Compact LED worker's companion

Equipped with a robust aluminum housing, the Philips Penlight Premium Color+ provides bright, high quality light. The Color+ function shows objects in their true colors. Resistant to shocks, chemicals and water, this lamp is built to last!

See what others can't

- Color+ function reveals objects in true colors (CRI 95)

Highly robust

- Shock-, chemical- and water-resistant (IK07/IP54)
- Maximum durability with aluminum body

Be seen, stay safe

- Unique warning mode with bright red flashing light

Hands-free lighting

- Smart designed 80° swivel clip with magnet & ergonomic body

Highlights

Reveal colors accurately

The higher the Color Rendering Index (CRI*), the easier it is to do a quick and precise inspection on your car body. You can inspect your paint, polish, clean or prep zone as if you were working outdoors on a bright sunny day. Lamps with a low CRI value cause some colors to appear unnatural. Light sources with a CRI of 90 or above will let you easily and quickly spot the color difference such as paint scratch.

Robust and tough

Designed to withstand the toughest working environments with IK07 shock resistance. Because Philips knows even the most careful workers sometimes drop their tools. Water-resistant to IP54 standards and with a surface that resists chemicals and workshop solvents, the Philips Penlight Premium Color+ is a handy pocket tool that is built to last.

Maximum durability

Build for incredible durability with an aluminum body, the Philips Penlight Premium Color+ is ready for just about any task or situation. This inspection lamp is impact- and scratch-resistant for safe, reliable use indoors and outdoors.

Unique warning mode

Philips Penlight Premium Color+ offers a unique high frequency warning mode (75 flashes/min). The bright red flashing function means your Penlight Premium Color+ can warn other road users of danger.

Hands-free for work

With the 80° swivel clip, it's easy to hang the Philips Penlight Premium Color+ on your belt for a handy everyday carry. The 2 magnets leave both your hands free for work.

Specifications

Electrical characteristics

Battery capacity: 1200 mAh

Battery charging time: 1.8 hrs

Battery run time: Up to 4 hours

Battery type: Lithium Iron phosphate

Charging cable type: Type C USB cable

Power source: Rechargeable battery

Voltage: 100–240 V V

Wattage: 5 W

Plug type: EU plug (not included for UK)

Light characteristics

Beam angle: 70 degree degree

Beam angle (pointer): 20 degree

Color temperature: 5700 K K

LED lifetime: Up to 10000 hrs

Light output: 200 lm (Boost)/120 lm (Eco) lumen

Light output (pointer): 180 lm

Ordering information

Order entry: LPL81X1

Ordering code: 01391094
