

Conventional Interior and Signalling

WhiteVision

Type of lamp: H6W

Pack of: 2

12 V, 6 W

12036WHVB2

# Safety has never been so attractive Intense white Xenon effect

WhiteVision lamps add an intense white Xenon look to your car signalling and interior lights for a premium driving experience at night. The increased brightness with significantly whiter light makes them the perfect combination of style and safety.

# Maximum visibility, premium look

- A premium driving experience with intense white Xenon effect
- Crisp beam with intense white light

# Maximum white light for greater contrast

- Best-in-class lifetime for extended driving pleasure
- White Xenon effect for a high-end look
- Greater contrast for improved visibility and safer driving
- Up to 60% more vision on the road to maximise clarity

# Up to 100% more vision on the road

- Philips car lamps are highly resistant
- Philips is the choice of major car manufacturers

# Highlights

#### **Crisp white beam**

With up to 3700 Kelvin and an intense white light, Philips WhiteVision headlights illuminate the road ahead with a crisp white beam that eliminates darkness instantly. The premium beam for a premium driving experience.

# White Xenon effect

WhiteVision gives your car lights the premium look of high-end cars.

#### 60% more light

A longer beam pattern with up to 60% more vision enables you to be seen by other road users more clearly. It improves safety, giving you more time to react to potential hazards on the road ahead.

# **Best-in-class lifetime**

Philips WhiteVision headlights (available in H1, H3, H4, H7, T4W and W5W) are designed to last. They offer you a long and reliable lifetime of 450 hours\*. That's significantly higher than competitive offerings. This results in fewer replacements and more value for money. (\*H4 and H7 tested at 13.2V standard voltage)

#### The car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

# A premium driving experience

Outperforming any blue car bulbs on the market, Philips WhiteVision lights are the right choice for drivers who want to drive with style without compromising on safety. With a colour temperature of Xenon headlamps and a stylish white cap, WhiteVision is the ultimate upgrade for your signalling and interior lighting. The Philips patented 3rd generation coating technology is an evolutionary masterpiece.

# Greater contrast, safer drive

Maximum white light in a position or stop application gives better contrast to distinguish your vehicle from others, so you can enjoy a more comfortable driving experience.

# High quality, high resistance

UV-Quartz glass is stronger than hard glass and highly resistant to extreme temperatures and vibrations, which eliminates the risk of early failure. Philips UV-Quartz glass car lamps allow more pressure inside the lamp to produce a more powerful light and extended lifetime.

# Specifications

#### **Product description**

Technology: Halogen Type: H6W Range: WhiteVision Homologation ECE Base: BAX9s Designation: H6W 12036 WHV 12 V 6 W BAX9s Voltage: 12 V Wattage: 6 W Application: Interior, Rear position/parking light, Reversing light
