

PHILIPS

Cordless, slim,
professional lamp

EcoPro30

300 lm Boost / 150 lm Eco

Versatile hands-free use

Battery lasts up to 8 hours

Robust work light

LUMRC220X1

Quality light to get the job done

Cordless, slim, professional lamp

The rechargeable Philips EcoPro30 hand light is ideal for quick inspection jobs and longer repair work. It eliminates all shadow with its 120°-wide light beam, while a 360° rotating hook and strong magnet allow hands-free working.

Dual-mode natural white LED light

- Light up your whole work area
- Choose 150 lm in 'Eco' mode or an intense 300 lm in 'Boost'
- Work comfortably and fatigue-free

Robust work light

- Designed to withstand tough workshop conditions

Rechargeable long-life battery

- Work continuously all-day long

Versatile hands-free use

- Work better with hands-free lighting

Weight with cable: 247 g
Weight without cable: 235 g

Product description

Range: EcoPro
Hands-free options: Hook, Magnets
Headband: No
Hook: 360 degrees retractable hook
Impact protection rating (IK): IK07
Ingress protection rating (IP): IP54
Magnet
Materials and finishing: ABS plus rubber coating
Operating Temperature: 0°C to 40°C
Orientable light: 360° pivoting base
Resistant to: grease, oil, workshop solvents
Technology: LED
UV leak detector: No

Highlights

Wide beam angle: up to 120°

The Philips EcoPro30 provides a wide 120° beam angle, perfect for lighting up the whole area in front of you.

Bright dual-mode light

The main beam on the Philips EcoPro30 has two output levels. For everyday use and extended battery life, the Eco mode provides you with a bright 150 lumen output. On Boost mode, you get an intense 300 lumen, but shorter battery life. This flexibility allows you to choose the right light for the job at hand.

6000K natural white LED light

Philips EcoPro30 produces a 6000 K natural white light that improves visual comfort and reduces eye strain for fatigue-free working.

Up to 8 hours of battery life

The Philips EcoPro30 cordless LED lamp is designed to be ready for action. Powered by a high-energy Li-ion battery, the Philips EcoPro30 is fully recharged within 5 hours, ensuring maximum usage of the LED light. Work for up to 8 hours in Eco mode or 4 hours in Boost mode. The one-turn opening cap makes it even easier to recharge your Philips EcoPro30.

Easy-to-use inspection lamp

Hands-free lighting helps you work more productively. Our Philips EcoPro30 comes with a powerful magnet on the bottom as well as a 360° rotatable hook, leaving both of your hands free to get the job done.

Built to last

When you're busy working, it's easy to drop and damage your equipment. That's why it's important that the tools you use are built to last. The Philips EcoPro30 is water- and dust-resistant (IP54 rating). It's also IK07 rated to withstand impacts and drops from a height of up to 1.5 metres.
