## Precise fit and easy installation

### Smooth and reliable installation

The aluminum back-mounting brackets offer a lightweight, highly corrosion-resistant, versatile solution for mounting any Philips LED driving-light bars\*. The brackets are supplied in pairs with A2 stainless-steel hardware included.

#### **Optimal fit**

- Easy to install

#### **Reliable Philips automotive quality**

- Durable material for long-lasting performance

## Highlights

### Back mounting brackets

The UD1001M back-mounting brackets offer a lightweight, versatile solution for fitting Philips LED driving-light bars\* to your vehicle. The brackets can be bolted into pre-existing holes in the vehicle's bodywork and then attached to the rail on the back of the light bar. This avoids further drilling and allows you to raise/lower the lamps by <2cm.

### Corrosion free

The UD1001M back-mounting kit is made from 6mm folded aluminum that is black-powder-coated for high corrosion resistance. The brackets are supplied in pairs with A2 stainless-steel hardware.

## Specifications

### Ordering information

**GOC:** 01858834

**Order entry:** UD1001MX1

### Packaging Data

**EAN1:** 8719018018588

**EAN3:** 8719018018595

### Packed product information

**Box dimensions-L(mm):** 350
