

Philips X-tremeVision  
car headlight bulb

**Type of lamp: H1**

Pack of: 2  
12 V, 55 W  
More light

**12258XV+E2**

## Take performance to the X-treme

Up to 130% brighter light

Philips X-tremeVision car bulbs are among the brightest you can buy. They outshine most other car lamps with up to 130% more brightness and a superior beam length. So you see further, react faster and drive safer.

**High amount of light, high performance**

- See further and react faster with up to 130% more brightness
- One of the brightest bulbs: ultimate light performance
- The safest, road-legal headlights

**Increased brightness**

- Significantly whiter light to improve comfort and safety
- Great contrast for a comfortable drive
- Exceptional beam quality and performance

**Best-in-class lifetime**

- Performance means more light and longer lifetime
- A lifetime of safety so you can see and be seen

# PHILIPS

# Highlights

## Significantly whiter light

The bright white light (3.500 K) is significantly whiter than standard headlamps. The Philips patented gradient coating technology<sup>TM</sup> produces a more powerful light. So you can enjoy one of the brightest lighting performances and a highly comfortable night driving experience.

## A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision is optimized for a long and reliable lifetime. So you can see and be seen for longer than with any other high performance lamp.

## Exceptional beam quality

With a combination of more light and increased color temperature, Philips X-tremeVision qualifies as one of the best performance beams in the halogen segment.

## Extra light, extra lifetime

Philips X-tremeVision headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours\*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (\*H4 and H7 tested at 13.2V standard voltage)

## Great contrast drives comfort

The increased color temperature in Philips X-tremeVision headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

## See further, react faster

Perfect illumination is especially important in the distance - usually between 75-100 meters in front of your vehicle. With Philips X-

tremeVision car bulbs you can see up to 45 meters further, giving you 2 seconds more reaction time. Philips X-tremeVision boosts your visibility with up to 130% more light on the road. This helps you recognize obstacles and any potential dangers earlier than with any other halogen headlamp.

## One of the brightest bulbs

With its optimized high-precision filament geometry, up to 13 bar high pressure gas filling, high precision coating and high quality UV-Quarz glass, Philips X-tremeVision headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

## The safest legal car lights

Philips X-tremeVision is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. They are fully ECE certified.

# Specifications

## Product description

- Technology: Halogen
- Type: H1
- Range: X-tremeVision
- Application: High beam, Low beam
- Homologation ECE
- Base: P14.5s
- Designation: H1 X-tremeVision

## Electrical characteristics

- Voltage: 12 V
- Wattage: 55 W

## Ordering information

- Order entry: 12258XV+E2
- Ordering code: 35635928

## Packaging Data

- EAN1: 8727900356359
- EAN3: 8727900356366
- Packaging type: E2

## Packed product information

- Pack Quantity: 2

- MOQ (for professionals): 10
- Height: 13.3 cm
- Length: 11 cm
- Width: 5.3 cm
- Net weight per piece: 6.0 g

## Outerpack information

- Gross weight per piece: 0.44 kg
- Height: 13 cm
- Height: 12.0 cm
- Length: 28.6 cm
- Width: 14.1 cm
- Gross weight per piece: 445 g

## Marketing specifications

- Expected benefits: More light
- Product highlight: Up to 130% more brightness

## Lifetime

- Life time: 350h

## Light characteristics

- Color temperature: 3500 K
- Lumens: 1550  $\pm$ 15% lm

Issue date 2019-11-12

Version: 1.0.1
