Maximum white light

Maximum whiteness, ultimate brightness

The new Philips WhiteVision halogen headlamp delivers an intense, white light with up to 4100K colour temperature, significantly whiter light for ultimate style, and 40% more vision* on the road for increased visibility and maximum safety.

Maximum visibility, premium look

- A premium driving experience with intense white Xenon effect
- Crisp beam with intense white light
- White Xenon effect for a high-end look
- Up to 60% more vision to maximise clarity

Maximum white light for greater contrast

- Greater contrast for improved visibility and safer driving

Original equipment, 100% road legal

- 100% road legal, 100% intense white light
- Best-in-class lifetime for extended driving pleasure
- Philips car lamps are highly resistant
- Philips is the choice of major car manufacturers

Highlights

100% road legal

WhiteVision is ECE certified and the first road-legal intense white light. It gives you the ultimate visibility without compromising safety by dazzling the car in front.

A premium driving experience

Outperforming any blue car bulbs on the market, Philips WhiteVision headlights are the right choice for drivers who want to drive with style without compromising on safety. With a high colour temperature and a stylish white cap, WhiteVision is the ultimate upgrade for your headlamps. The Philips-patented third generation coating technology is an evolutionary masterpiece making WhiteVision the first headlamp with a truly white light.

Best-in-class lifetime

Philips WhiteVision headlights (available in H1, H3, H4, H7, HB3) are designed to last. They offer you a long and reliable lifetime of 450 hours*. That's significantly higher than competitive offerings. This results in fewer replacements and more value for money. (*H4 and H7 tested at 13.2 V standard voltage)

Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that

have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Crisp white beam

With up to 3700 Kelvin and an intense white light, Philips WhiteVision headlights illuminate the road ahead with a crisp white beam that eliminates darkness instantly. The premium beam for a premium driving experience.

Greater contrast, safer drive

Maximum white light with a colour temperature of 3700 Kelvin means your headlights give better reflections from road markings and signs. Whiter light keeps you alert at night, so you can enjoy a more comfortable driving experience.

High quality, high resistance

UV-Quartz glass is stronger than hard glass and highly resistant to extreme temperatures and vibrations, which eliminates the risk of early failure. Philips UV-Quartz glass car lamps allow more pressure inside the lamp to produce a more powerful light and extended lifetime.

Up to 60% more vision

Light output improved by up to 60% enables you to be seen more clearly by other road users. It improves safety, giving you more time to react to potential hazards.

White Xenon effect

WhiteVision gives your car lights the premium look of high-end cars.

Specifications

Product description

Technology: Halogen
Type: H3
Range: WhiteVision
Application: Front fog light
Designation: H3 WhiteVision
Homologation ECE
Marking ECE: E1 21 W
Base: PK22s

Electrical characteristics

Voltage: 12 V
Wattage: 55 W

Light characteristics

Lumens: 1450 ±15% lm
Colour temperature: up to 3700 K

Lifetime

Life time: 400h

Ordering information

Order entry: 12336WHVB1
Ordering code: 77909030

Packaging Data

EAN3: 8711500779526
EAN1: 8711500779519
Packaging type: B1

Packed product information

Pack Quantity: 1
MOQ (for professionals): 10
Height: 12.9 cm
Width: 2.6 cm
Length: 9.5 cm
Gross weight per piece: 18 g
Net weight per piece: 7 g
