# **PHILIPS**

Motorcycle headlights

**CityVision Moto** 

Type of lamp: H4

Pack of: 1

12 V, 60/55 W

12342CTVBW

# Feel safe, ride safe

# Up to 40% more vision

For better safety and visibility in city traffic, Philips has designed CityVision Moto with a distinctive, attention-grabbing orange effect in the headlight. CityVision Moto bulbs also produce up to 40% more vision.

# State-of-the-art technology

- Adhering to the high quality standards of ECE homologation
- Philips moto lamps are made of high-quality quartz glass
- Philips is the choice of major motorcycle manufacturers.

### Be seen in traffic

- Distinctive orange effect in the headlight
- Designed for city riders
- Up to 40% more vision on the road

#### **Vibration resistance**

• Vibration resistance up to 10G

### 12342CTVBW

# Highlights

#### **Distinctive orange effect**

Philips CityVision Moto headlights have been specifically developed for city riders. Thanks to their distinctive orange effect, Philips motorcycle bulbs grab the attention of drivers and guarantee earlier recognition of the rider.

#### **Designed for city use**

Philips CityVision Moto headlights are specifically designed to improve the rider's safety in a city environment. The attentiongrabbing orange effect and the 40% increase in light output allow a safer riding experience in traffic and play an active role in accident reduction.

### Vibration resistant

Philips CityVision Moto lamps are designed with state-of-the-art technology to resist vibrations up to 10G and last longer. Those motorcycle bulbs are mounted with an extremely resistant double coil filament to withstand a wide range of vibrations including physical shocks.

#### **ECE** homologation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in after-sales market. Our products are manufactured from high-quality materials and tested to the highest specifications to maximise the safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements.

#### **Greater light-beam projection**

Offering up to 40% more vision on the road, Philips CityVision Moto headlights actively participate in increasing rider safety. Thanks to better visibility on the road, Philips motorcycle lights allow for better obstacle recognition and accident prevention.

#### High-quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2650° C and glass 800° C) are able to withstand severe thermal shock. With the capability for increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

#### Manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.
