Original Equipment Quality

Original Equipment Quality

The Standard lamp is used by major manufacturers and you can find it in many new vehicles. It ensures efficiency, quality and excellent value for money.

Original equipment manufacturer

- Philips is the choice of major motorbike manufacturers.

Very high quality and ultra resistant car lamp

- Change both your headlamps at once for more safety
- Respecting high quality standards of the ECE homologation
- Philips moto lamps are made of high-quality quartz glass
- Safety and Style solutions are available for all your needs.

Highlights

Change in pairs

Highly recommended to change them in pairs for symmetric light performance

Manufacturers' choice

For over 100 years, Philips lamps have been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard in modern vehicles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

ECE homologation

Philips automotive products and services are considered best-in-class in the Original Equipment Manufacturer market and the aftermarket. Manufactured from high quality products and tested to the highest specifications, our products are designed to maximize the safety and comfort of our customers' driving experience. Our entire product range is thoroughly tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements. Put simply, this is quality you can trust.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. So Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light. And more powerful light means an enhanced driving experience, however dark the road in front of you.

Solutions for all needs

Riders' lighting needs are different depending on the time of day, road conditions and personal preferences. Philips motorcycle lighting offers a wide range to choose from. All can have optimal lights for their road ahead.

Specifications

Packaging Data

EAN1: 8711500246899

EAN3: 8711500246905

Packaging type: C1

Marketing specifications

Expected benefits: More light

Product highlight: Original Equipment Quality

Product description

Range: Vision

Technology: Halogen

Application: High beam, Low beam

Type: HB3

Base: P20d

Designation: HB3-9005-C1

Electrical characteristics

Voltage: 12 V

Wattage: 65 W

Ordering information

Ordering code: 24689960

Order entry: 9005PRC1

Packed product information

Gross weight per piece: 26.3 g

Height: 7.6 cm

Length: 4.55 cm

Net weight per piece: 19.7 g

Width: 4.55 cm

MOQ (for professionals): 100

Pack Quantity: 1

Outerpack information

Gross weight per piece: 3.200 g

Height: 16.7 cm

Length: 47.8 cm

Net weight per piece: 1970 g

Width: 24.1 cm
