ACCMUDOX1

Easy-to-use charging station

Docking station for charging multiple devices

The Philips LED work light Accessory Multi-Dock Station is a cordless accessory for the Xperion range of work lamps. Placed on a table, it can cordlessly charge two devices at a time or simply act as a storage point.

Smart, versatile design

- Combine Dock Station with "Find My Device"
- Cordless charging for multiple Xperion devices
- LED charging indicator

Highlights

Cordless charger

Store and charge your LED Xperion work lights¹ at the same time with the Philips Multi-Dock Station. Place it on a table where it's needed most. Either way, it will leave your power sockets free for other devices.

LED charging indicator

The Philips Multi-Dock Station is equipped with an LED indicator that shows its charging status. The indicator blinks during the charging process and turns green when fully charged.

Combine accessories

Designed with you in mind, the Philips Multi-Dock Station includes a dedicated space for the "Find My Device" accessory remote control, which is a handy tool for locating misplaced work lamps.
