Whiter teeth & improved oral health

- Up to 10x more plaque removal in hard-to-reach spots*
- Hard on plaque, gentle on your gums
- Advanced Sonicare technology for a powerful yet gentle clean

Highlights

Removes up to 10x more plaque*

Thanks to its flexible design, Premium Gum Care removes up to 10x more plaque than a manual toothbrush. It moves to enhance our unique Philips Sonicare cleaning technology so that however you brush, you get an exceptional clean you can see and feel.

Gentle on your gums

With the Philips Sonicare Premium Gum Care brush head, even the deepest clean is gentle. Soft rubber sides flex to let Premium Gum Care adapt to the shape of your teeth and gums, absorbing any excess brushing pressure and enhancing our sonic cleaning power. Bristles can then adjust to the shape of your teeth and gums so you get up to 2x more surface contact than a regular brush head** for deeper cleaning even in hard-to-reach areas.

Premium brushing experience

Our DiamondClean 9000 comes with a standout ombré design for a premium, ergonomic brushing experience that suits your

style. Slim, compact travel case in a complementary color goes anywhere life takes you.

Advanced Sonicare technology

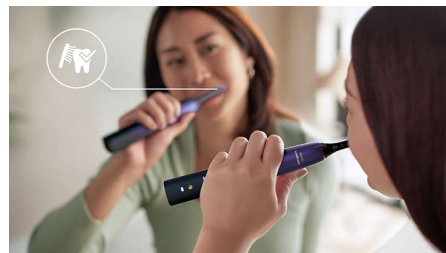

Powerful sonic vibrations move 62,000 times every minute to drive plaque-fighting bubbles between your teeth and along your gum line. Removes up to 10x more plaque than a manual toothbrush.

4 modes / 3 intensities

Choose from 4 brushing modes: Clean for exceptional everyday cleaning, White+ to brighten your smile, Gum Health for a gentle yet effective clean, and Deep Clean+ for an invigorating deep clean. Three intensity settings from Low to High let you boost performance or care for sensitive gums.

Built-in pressure sensor

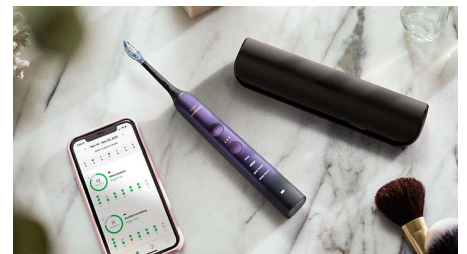

You might not notice if you're brushing too hard, but your DiamondClean 9000 will. If you need to ease up, the toothbrush will make a pulsing sound. It's a heads up to let your brush head do the work.

BrushSync automatic pairing

Smart brush heads ensure you're using the right mode and intensity for the best possible clean. When you are using the G3 Premium Gum Care brush head, your DiamondClean 9000's BrushSync technology will automatically sync your brush head with the Gum Health mode to help whiten your teeth.

Sonicare app

The DiamondClean 9000 gives you the guidance you need to improve and maintain healthy brushing habits in between dentist checkups. Built-in smart sensors let you know when you're using too much pressure, and by connecting your brushing experience to the Sonicare app, a personalized Progress Report helps you stay on track, to see how much you've improved over time.

Specifications

Connectivity

Bluetooth® wireless technology: Connected brushing app

Power

Voltage: 110–220 V

Technical specifications

Battery: Rechargeable

Operating time (full to empty): 14 days***
