- Fatigue index and driver alert

Impartial evidence any time

- Original equipment quality
- Instant replay with proof-stamped evidence

Highlights

Automatic recording

Automatic recording

As soon as you power on your vehicle, the driving recorder starts operating automatically.

Collision detection

Collision detection

In case of a collision, an emergency recording is automatically saved to secure the evidence and prevent overwriting.

Fatigue index

Fatigue index

The fatigue index shows the evolution of a driver's fatigue and will produce a visual and audial warning message when the driver should have a rest.

Full HD

Capture vivid details with 1080p Full HD definition

Proof stamp

Instant replay to clarify responsibility on the spot, with proof-stamped evidence, to support and speed up the insurance claim process

Emergency EasyCapture

Emergency EasyCaptur

Philips EasyCapture ensures quick and easy emergency recording with easy-to-access buttons. Capture and save everything that happens on the road when you need it, with one easy-to-find button on the device, and one on the cigarette lighter adapter.

Night visibility

Capture sharpest details, day and night. With optimised night view.

OE quality

Philips brought its worldwide automotive expertise to provide the best in-car performance and long-lasting quality. CE/ FCC certified high vibration and temperature resistance ensures safe installation and use. Provides sturdy mounting with easy fitting and adjustment.

View angle

Wide angle 156°

Capture more of the scene with a proven 156° degree super wide angle
