Original Equipment Quality

Original Equipment Quality

The Standard lamp is used by all manufacturers and you can find it in most brand new cars. Ensures efficiency, quality and excellent value for money.

Very high quality and ultra resistant car lamp

- Philips is the choice of major car manufacturers
- Change both your headlamps simultaneously for more safety

Original Equipment manufacturer

- Award winning car lamp manufacturer
- Philips car lamps are highly resistant against humidity*
- Philips car lamps are highly UV resistant
- Philips car lamps are made of high-quality quartz glass
- Respecting high quality standards of the ECE homologation

Highlights

Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°C, glass 800°C) can resist thermal shocks: such as, if a drop of cold water touches the hot bulb, when you drive through water with a broken headlight unit.

Rewarded Car lamps

Our lamps are often rewarded by automotive experts

UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass ideal for all driving conditions and ensures their longevity at the same time.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2650°C and glass 800°C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Change in pairs

Highly recommended to change them by pairs for symmetric light performance

ECE homologation

Philips automotive products and services are considered best-in-class in the Original Equipment Manufacturer market and the aftermarket. Manufactured from high quality products and tested to the highest specifications, our products are designed to maximize the safety and comfort of our customers' driving experience. Our entire product range is thoroughly tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements. Put simply, this is quality you can trust.

Specifications

Packaging Data

EAN1: 8711500475848
EAN3: 8727900371000
Packaging type: C1

Product description

Technology: Halogen
Application: High beam, Low beam
Base: PGJ19-5
Designation: H9-12361-C1
Range: Standard
Type: H9
Homologation ECE
Marking ECE: E1 25C

Marketing specifications

Expected benefits: Long lasting
Product highlight: Original Equipment Quality

Ordering information

Order entry: 12361C1
Ordering code: 47584830

Outerpack information

Gross weight per piece: 359 g
Height: 4.7 cm
Length: 19.8 cm
Net weight per piece: 220 g
Width: 18.7 cm

Packed product information

Gross weight per piece: 28.9 g
Height: 3.8 cm
Length: 4.5 cm
Net weight per piece: 22 g
Width: 9 cm
Pack Quantity / MOQ: 1

Electrical characteristics

Voltage: 12 V
Wattage: 65 W
