# Highlights

### 30% more light on the road

Our lighting solutions produce a powerful and precise beam of light with maximum output. The Vision bulbs produce a longer beam for greater safety and comfort. We consistently produce the best, most efficient lighting solutions because we know that our high-quality lighting may one day save a life.

### Better visibility

Light is a fundamental part of the driving experience and light is the first and only part of the safety circle that actually helps to prevent accidents. Philips promotes active safety protection to prevent accidents by increasing overall visibility and road illumination.

### Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

### Replace in pairs

It is highly recommended that you replace your headlight bulbs in pairs for symmetric light performance.
