Take performance to the X-treme

Up to 130% brighter light

Philips X-tremeVision car bulbs are among the brightest you can buy. They outshine most other car lamps with up to 130% more brightness and a superior beam length. So you see further, react faster and drive safer.

High amount of light, high performance

- One of the brightest bulbs: ultimate light performance
- The safest, road-legal headlights
- See further and react faster with up to 130% more brightness

Increased brightness

- Exceptional beam quality and performance
- Great contrast for a comfortable drive
- Significantly whiter light to improve comfort and safety

Best-in-class lifetime

- A lifetime of safety so you can see and be seen
- Performance means more light and longer lifetime

Highlights

Significantly whiter light

The bright white light (up to 3.500 K) is significantly whiter than standard headlamps. The Philips patented gradient coating technology™ produces a more powerful light. So you can enjoy one of the brightest lighting performances and a highly comfortable

A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision is optimized for a long and reliable lifetime. So you can see and be seen for longer than with any other high performance lamp.

Exceptional beam quality

With a combination of more light and increased color temperature, Philips X-tremeVision qualifies as one of the best performance beams in the halogen segment.

Extra light, extra lifetime

Philips X-tremeVision headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (*H4 and H7 tested at 13.2V standard voltage)

Great contrast drives comfort

The increased color temperature in Philips X-tremeVision headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

See further, react faster

Perfect illumination is especially important in the distance – usually between 75-100 metres in front of your vehicle. Philips X-tremeVision boosts your visibility with up to 130% more brightness. This helps you recognise obstacles and any potential danger

One of the brightest bulbs

With its optimized high-precision filament geometry, up to 13 bar high pressure gas filling, high precision coating and high quality UV-Quarz glass, Philips X-tremeVision headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

The safest legal car lights

Philips X-tremeVision is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. They are fully ECE certified.

Specifications

Product description

Technology: Halogen

Type: H1

Range: X-tremeVision

Application: High beam, Low beam

Designation: H1 X-tremeVision

Homologation ECE

Base: P14.5s

Electrical characteristics

Voltage: 12 V

Wattage: 55 W

Ordering information

Order entry: 12258XV+B1

Ordering code: 37164230

Packaging Data

Packaging type: B1

EAN1: 8727900371642

EAN3: 8727900371659

Packed product information

Pack Quantity: 1

MOQ (for professionals): 10

Height: 12.9 cm

Width: 2.6 cm

Length: 9.5 cm

Outerpack information

Gross weight per piece: 0.44 kg

Height: 13 cm
