

Your personal road safety guardian

with collision detection & fatigue alert

Enjoy a guarded drive, Philips automotive driving recorder will protect you in case the unexpected happens. Rely on smart automatic functions, and excellent video performance to provide you with crystal clear evidence when you need it.

Hassle free & reliable with emergency support

- · Automatic recording when you start your vehicle
- Collision detection and automatic emergency recording
- Fatigue index and driver alert

Crystal clear images in all driving conditions

· Vivid details with 1080p Full HD definition

Impartial evidence anytime

· Instant replay with proof stamped evidence

Designed and tested for automotive conditions

- Designed to work under tough driving conditions
- CCC/CE/FCC certified for safe installation and use

Highlights

Automatic recording

Automatic recording

As soon as you power on your vehicle, the driving recorder starts operating automatically.

Collision detection

Collision detection

In case of a collision, an emergency recording is automatically saved to secure the evidence and prevent overwriting

Fatigue index

Fatigue index

The fatigue index shows the evolution of a driver's fatigue, and will indicate a visual and acoustic warning message when the driver should be taking a rest.

Full HD

Full HD

Capture vivid details with 1080p Full HD definition

Proof stamp

Instant replay to clarify responsibility on the spot, with proof stamped evidence, to support & speed up insurance claim process

Heat and vibration resistance

Philips automotive driving recorder is equipped with high quality components, to ensure resistance against vibrations and extreme temperature conditions.

CCC/CE/FCC certified

Philips Automotive Driving Recorder is compliant with international certifications and tested against electromagnetic interference like GPS or cell phone.

Specifications

Product description

Designation: ADR610

Technology: Automotive Driving Recorder Languages: English, Chinese, Japanese Interface: Mini USB 2.0, HDMI, Speaker Operating Temperature: 0 ~ 65 °C Storage Temperature: -20 ~ 70 °C

File Format: .MOV, H.264 video compression Fixed Lens: FOV 100° (Diagonal) wide angle

Internal Memory: 64Mb SPI Flash

Random Access Memory: 64Mx16bit (1Gbits)

DDR2 SDRAM

Display: 2" LCD

Recording Time: 200min @16GB in full HD

G-sensor Auto exposure Auto white balance Improved night visibility: No

LCD Auto Off

Seamless loop recording Automatic recording Aperture Range: F/#2.0 Collision detection Date and time stamp

Image Sensor: 3.1 Mega-pixels CMOS

Video resolution: Full HD(1920x1080p) @30fps Emergency file protection

Recording media (ext. Memory): Micro SD

card (up to 32GB)

Packaging Data

EAN1: 6947939174027 EAN3: 6947939174034

Accessories included

Accessories: 12V cable, mounting bracket

Power cable length: 4 m Power: 12 V car adapter

Weight and dimensions

Product dimensions (L x W x H): 72.8x 53.3x

31.34 mm

Product weight: 60 g

Box weight (incl. product): 280 g

Marketing specifications

Expected benefits: Your road safety guardian Product highlight: with fatigue alert
