# **PHILIPS**

24V headlight bulb

### MasterDuty

Type of lamp: H3

Pack of: 1

24V, 70W

### More light

#### 13336MDC1

## Built to last

### Maximum vibration resistance

The Philips MasterDuty headlight bulbs are designed for maximum vibration resistance and excellent lifetime. They provide more light. Philips MasterDuty is the right choice for drivers seeking toughness that lasts.

#### Durable lights with vibration resistance

- Durable lights with increased resistance to vibration
- Among the safest road-legal headlights

#### **Good visibility**

• See further and react faster with more light

#### Enhanced lifetime

• A lifetime of safety so you can see and be seen

#### Philips automotive quality

• Philips is the choice of major car manufacturers

## Highlights

#### Maximum vibration resistance

Philips MasterDuty features increased mount and base stiffness for ultimate protection against mechanical shock as well as a robust double coil filament designed to withstand severe vibration while remaining stable. Philips MasterDuty provides drivers with an increased lifetime up to 500 hours.

#### **Good visibility**

Perfect illumination is especially important in the distance – usually between 75-100 metres in front of your vehicle. Philips MasterDuty boosts your visibility with more light on the road. This helps you recognise obstacles and any potential dangers earlier than with most other halogen headlight lamps.

#### **Enhanced lifetime**

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips MasterDuty is optimised for a long and reliable lifetime. You can see and be seen for longer than with any other high-performance lamp.

#### Safe road-legal headlights

Philips MasterDuty is among the safest, easiest and most efficient way to upgrade your truck or bus headlights within legal parameters. The lights are fully ECE certified.

#### Highest quality car lighting

Technologically advanced Philips lighting is renowned in the automotive industry, and has been for over 100 years. The Philips Original Equipment Quality products are designed and developed following strict quality control processes (including applicable ISO norms), leading to consistently high production standards. Philips MasterDuty is compatible with truck and bus models of major brands.
