PHILIPS

car headlight bulb

CrystalVision

Type of lamp: H4

Pack of: 2+2

12 V,60/55 W

P43t-38

12342CVSM

Drive with style

Style and visibility with a super white light

The Crystal Vision range 4.300K is the one that offers a super white light, high efficiency and design for differentiate and customize tuning solutions with quality and high performance, with better visibility and comfort for your car.

Original equipement quality
- Philips is the choice of major car manufacturers

Very high quality and ultra resistant car lamp
- Philips car lamps are made of high-quality quartz glass
- Philips car lamps are highly resistant against humidity
- Philips car lamps are highly UV resistant

Original Equipment manufacturer
- Change both your headlamps at once for more safety

White light for better visibility and comfort
- 2 signaling W5W are offered with CrystalVision
- Wide range of 12V lamps to meet all functions
- Installed without electric adjustments.
- Optimal performance for better visibility and comfort

Highlights

2 signaling W5W offered
Give your car a full stylish blue look thanks to the 2 blue W5W offered

Car manufactuer choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting

Change by pairs

Highly recommended to change them by pairs for symetric light performance

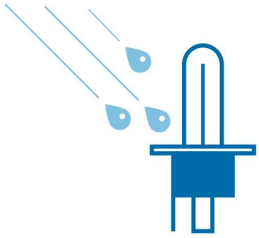

Designed for multiple usage
Which 12V lamp for which function ? Philips Automotive offering includes all car specific functions : high beam, Low beal, front fog , front indicator, side indicator, rear indicator, stop light, reversing light, rear fog light, license plate lights, rear position/parking light, interior lights

Easy to install
Easy to install, because it is not required any modification to the car's electrical system.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650º C and glass 800º C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

Optimal performance
Optimal performance in light emission with the same consumption of conventional bulbs for better visibility and driving comfort.

Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : if a drop of cold water touches the hot bulb, which can happen when you drive through water with a broken headlight unit.

UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass perfect for all driving conditions and ensures their longevity

Specifications

Packaging Data
EAN1: 8711500489814
EAN3: 8711500489821
Packaging type: SM

Product description
Technology: Halogen
Application: High beam, Low beam
Range: CrystalVision
Type: H4
Homologation ECE
Designation: KIT-12342CV-DI
Base: P43t-38
Marking ECE: E1 2C3

Electrical characteristics
Wattage: 60/55 W
Voltage: 12 V

Marketing specifications
Expected benefits: Style
Product highlight: Drive with style

Light characteristics
Color temperature: 4100 K
Lumens: 1100 ± 15% lm

Ordering information
Order entry: 12342CVSM
Ordering code: 48981428

Outerpack information
Gross weight per piece: 605 g
Height: 12 cm
Length: 28.6 cm
Net weight per piece: 0 g
Width: 14.1 cm

Packed product information
Gross weight per piece: 103.9 g
Height: 13.3 cm
Length: 11 cm
Net weight per piece: 0 g
Width: 5.3 cm
Pack Quantity / MOQ: 4

Lifetime
Life time: B3/Tc = 300/500 h
