Restyle with light

Add a touch of colour

ColorVision adds a touch of colour to your car optics in blue, green, yellow or purple. These innovative coloured car bulbs are certified road-legal, so you can customise your ride while still projecting safe white light.

Colour customisation for your car

- Colour your lights blue, green, yellow or purple
- Designed for reflector optics for colour customisation
- Available in most popular automotive lamp types: H4 and H7
- A new coating technology turns light into a touch of colour

Designed to see

- React faster with more light
- Coloured car lamps that are certified road legal
- Light up the road with up to 60% more white light

Original Equipment manufacturer

- Philips is the choice of major car manufacturers
- Philips car lamps are made of high-quality quartz glass
- Philips car lamps are highly resistant to humidity
- Philips car lamps are highly UV resistant

Highlights

Available in H4 and H7

Colour your lights

Philips ColorVision allows to add a personalised touch of colour to your car optics. Choose from blue, green, yellow or purple and customise your ride.

Road-legal coloured car lamps

ColorVision lamps comply with all ECE regulations and come with a certification card to prove they are road legal. Keep it with you in your car at all times.

Designed for reflector optics

Philips ColorVision creates coloured effects by reflecting light into the lamp optics. Switch on your headlamps and light up with a touch of colour.

React faster with more light

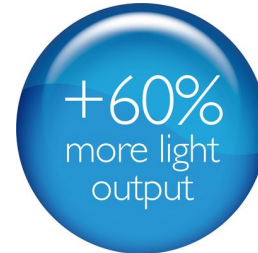

Increased visibility is proven to help you react faster while driving. With up to 60% more vision, ColorVision increases your visibility by 25 metres compared to standard lamps. Anticipate any obstacles that might come your way more easily.

A new coating technology

Thanks to a special coating on the lamps, Philips ColorVision adds a touch of colour which is in line with European regulations. So you can customise your ride while still projecting safe white light

Up to 60% more white light

Thanks to its technology, Philips ColorVision lights up the road with up to 60% more white light than any other standard lamp. So you see the road ahead more clearly, while your optics add a touch of colour.

Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting

High-quality quartz glass

UV-quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650°C and glass 800°C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

Specifications

Product description

Technology: Halogen
Type: H7
Range: ColorVision
Application: High beam, Low beam
Designation: H7 ColorVision
Homologation ECE
Marking ECE: E1 22Z
Base: PX26d

Electrical characteristics

Voltage: 12 V
Wattage: 55 W

Light characteristics

Lumens: 1500 +/-10% lm
Colour temperature: 3350 K

Lifetime

Life time: Up to 400 h

Ordering information

Order entry: 12972CVPBS2
Ordering code: 36810928

Packaging Data

EAN3: 8727900368130
EAN1: 8727900368109
Packaging type: S2

Packed product information

Pack Quantity: 2
MOQ (for professionals): 10
Height: 12.8 cm
Width: 4.7 cm
Length: 11 cm

Outer pack information
