Feel safe, drive safe

up to 60% more light compared to a standard halogen

Philips VisionPlus headlight bulbs produce 60% more light, which allows drivers to see farther for greater safety and comfort. Offering high performance and excellent value, VisionPlus is the right choice for today's demanding drivers

Original Equipment manufacturer

- Change both your headlamps at once for more safety

Very high quality upgrade headlight

- Greater driving comfort and safety
- Philips is the choice of major car manufacturers

Superior quality with enhanced visibility

- VisionPlus projects a 80+ ft longer beam than standard bulbs

Highlights

60% More light on the road

Philips Vision Plus will allow your car to project 80+ ft more light than a standard halogen bulb. Our lighting solutions produce a powerful and precise beam of light with maximum output. Philips VisionPlus is the performance choice for safety conscious drivers.

High quality and visibility

VisionPlus provides you with a better reactivity thanks to an earlier recognition of obstacles and traffic signs. Brake lighting is also visible earlier, thanks to a more powerful light output. Drivers can reduce their braking distance by up to 3 meters at 100 km/h. Light is a fundamental part of the driving

experience and light is the first and only part of the safety circle that actually helps prevent accidents.

Replace in pairs

It is highly recommended to replace your headlight bulbs in pairs for symmetric light performance.

Car manufacturer choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Specifications

Packaging Data

EAN1: 8711500407788

EAN3: 8711500407795

Packaging type: S2

Product description

Technology: Halogen

Application: High beam, Low beam, fog beam

Range: VisionPlus

Type: H1

Homologation ECE

Designation: H1-12258VP-KI

Base: P14,5s

Marking ECE: E1 21P

Electrical characteristics

Wattage: 55 W

Voltage: 12 V

Marketing specifications

Expected benefits: More light

Product highlight: 60% More light

Light characteristics

Lumens: 1780 lm
