White light for style

Up to 3700K white light

Philips BlueVision moto halogen signaling lamp enhances the style of your motorcycle with up to 3700K white light.

Stylish white light to be seen

- BlueVision Moto up to 3700K white light to style up the bike

High quality and ultra-resistant headlamp

- Philips moto lamps are made of high-quality quartz glass
- Philips is the choice of major motorbike manufacturers.
- Safety and Style solutions are available for all your needs.

Highlights

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. So Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light. And more powerful light means an enhanced driving experience, however dark the road in front of you.

Manufacturers' choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Solutions for all needs

Riders' lighting needs are different depending on the time of day, road conditions and personal preferences. Philips motorcycle lighting offers a wide range to choose from. All can have optimal lights for their road ahead.

up to 3500 K white light

With the blue coating, BlueVision Moto is offering white headlight of up to 3700K to be seen.
