

# **Enjoy lasting brightness**

### Brighter, elegant signals

For a stylish drive, upgrade to Philips Ultinon Pro6000 LED-RED [~P21/5W] stop and tail lights. Their intense red colour looks great and increases visibility so you can signal safely and stylishly.

#### High-end, stylish signalling

• Upgrade your lights, upgrade your style

#### Simple plug-and-play replacement

- Electrical compatibility with most cars
- Easy to install and compatible with most car models

#### **Superior visibility**

- Instant safety information for other drivers
- Signal your intent with brighter exterior lighting
- Ergonomic design with three-LED array

#### **Performance made to last**

• Enhanced lifetime of up to 5,000 hours

### Highlights

#### **Powerful brightness**

Signalling the intended movement of your vehicle is vital to your safety. To avoid collisions, other people need to know what you're doing. And when poor weather reduces visibility, the need for bright and vibrant signalling becomes even greater. Philips Ultinon Pro6000 LED signalling lights provide you with bright and intense red lighting for stop and tail signals. Your car says a lot about you, so make a style statement with Philips LED signalling lights.

#### **Instant-on technology**

Compared with incandescent lights, Philips
Ultinon Pro6000 LEDs light up instantly to ensure
that other drivers can react faster, keeping you
safer.

#### **Uniform light distribution**

For your stop and tail signals, Philips Ultinon Pro6000 LED gives you uniform light distribution. Its wide angle ensures that the light is projected where you need it.

#### **Elegant LED light**

While the main goal of exterior lighting is to help you see and be seen, there's no reason why you shouldn't look good at the same time. If you're wanting to upgrade your style without buying a newer car, replacing your exterior lighting with Philips Ultinon Pro6000 LED signals is a smart way to spend your money.

#### Lifetime of up to 5,000 hours

You want bright, stylish car lights but you don't want to keep replacing failed lamps. That's a major weakness of conventional bulbs - the more powerful the light, the shorter its lifespan. Even at a higher light intensity, LEDs last much longer. Philips Ultinon Pro6000 LED lights are built to last. Due to features such as high-end LED technology and advanced heatmanagement systems, they last for up to 5,000 hours of operation.

#### Ready, steady, installed!

Enjoy the plug-and-play experience: Philips Ultinon Pro6000 comes with standard caps and is polarity-free, so replacement is quick and easy.

#### **Electrical compatibility**

LED retrofit and conventional bulbs differ from one another in terms of wattage, composition and power consumption. Replacing your conventional bulbs with other LEDs may prove problematic. Philips Ultinon Pro6000 bulbs are electrically compatible with most cars. Additional adapters are available as accessories for troubleshooting, if needed. We sell a complete solution.

## Specifications

#### **Marketing specifications**

Product highlight: Automotive Grade LED,
Powerful brightness, Uniform light distribution
Expected benefits: Brighter, elegant signals

#### **Product description**

Application: Stop/Tail

Base: BAY15d

Designation: P21/5W LED red 11499 RU60 12 V

x 2

ECE certification: NO
Range: Ultinon Pro6000 SI

Technology: LED
Type: LED-RED [~P21/5W]

Voltage: 12 V

#### Lifetime

Life time: 5000 hrs

#### **Light characteristics**

Lumens: 75/15 Color temperature: Red

#### **Ordering information**

Order entry: 11499RU60X2 Ordering code: 1538930

#### **Packaging Data**

EAN1: 8719018015389 EAN3: 8719018015396 Packaging type: X2

#### **Packed product information**

Gross weight per piece: 36 g

Length: 14.2 cm Width: 12.1 cm Height: 10.3 cm

Net weight per piece: 13 g Pack Quantity: 2 pcs

MOQ (for professionals): 10 packs

#### **Outerpack information**

Length: 9.5 cm Width: 1.5 cm Height: 13.5 cm

Net weight per piece: 360 g Gross weight per piece: 0.51 kg
