

# PHILIPS

car headlight bulb

X-tremeVision

Type of lamp: H4

Pack of: 2

12 V, 60/55 W

More light

12342XV+S2

## Take performance to the X-treme

Up to 130% brighter light

Philips X-tremeVision car bulbs are among the brightest you can buy. They outshine most other car lamps with up to 130% more brightness and a superior beam length. So you see further, react faster and drive safer.

### High light output, high performance

- See further and react faster with up to 130% more brightness
- One of the brightest bulbs: ultimate light performance
- The safest road-legal headlights

### Increased brightness

- Significantly whiter light to improve comfort and safety
- Great contrast for a comfortable drive
- Exceptional beam quality and performance

### Best-in-class lifetime

- Performance means more light and longer lifetime
- A lifetime of safety so you can see and be seen

# Highlights

## Significantly whiter light

The bright white light (3.500 K) is significantly whiter than standard headlamps. The Philips patented gradient coating technology™ produces a more powerful light. So you can enjoy one of the brightest lighting performances and a highly comfortable night driving experience.

## A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision is optimised for a long and reliable lifetime. So you can see and be seen for longer than with any other high-performance lamp.

## Exceptional beam quality

With a combination of more light and increased colour temperature, Philips X-tremeVision qualifies as one of the best performance beams in the halogen segment.

## Extra light, extra lifetime

Philips X-tremeVision headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours\*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (\*H4 and H7 tested at 13.2V standard voltage)

## Great contrast drives comfort

The increased colour temperature in Philips X-tremeVision headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

## See further, react faster

Perfect illumination is especially important in the distance – usually between 75-100 metres in front of your vehicle. Philips X-

tremeVision boosts your visibility with up to 130% more brightness. This helps you recognise obstacles and any potential dangers earlier than with most other halogen headlight lamps.

## One of the brightest bulbs

With its optimised high-precision filament geometry, up to 13 bar high-pressure gas filling, high-precision coating and high-quality UV-Quartz glass, Philips X-tremeVision headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

## The safest legal car lights

Philips X-tremeVision is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. The lights are fully ECE certified.

# Specifications

## Product description

Technology: Halogen

Type: H4

Range: X-tremeVision

Application: High beam, Low beam

Homologation ECE

Base: P43t-38

Designation: H4 X-tremeVision

## Electrical characteristics

Voltage: 12 V

Wattage: 60/55 W

## Ordering information

Order entry: 12342XV+S2

Ordering code: 22109428

## Packaging Data

Packaging type: S2

EAN1: 8711500221094

EAN3: 8711500221100

## Packed product information

Pack Quantity: 2

MOQ (for professionals): 10

Height: 13.3 cm

Length: 11.0 cm

Width: 5.3 cm

Net weight per piece: 21.5 g

## Marketing specifications

Expected benefits: More light

Product highlight: Up to 130% more brightness

## Lifetime

Life time: 450 hrs

## Light characteristics

Colour temperature: 3500K K

Lumens: 1650 ±15%/1000 ±15% lm
