Highlights

Sharp white light

Philips WhiteVision ultra headlights revolutionise the look of your car with a sharp white light. The right choice for a bright and stylish driving experience!

Cool white effect

Philips WhiteVision ultra is designed for drivers who are looking for an upgrade with the style and appearance of LED lighting but drive a vehicle with halogen technology. Thanks to the new and advanced coating formula on the glass, WhiteVision Ultra bulbs are our whitest road-legal lights, providing a stunning look in the headlight's reflector.

Stunning road-legal headlights

WhiteVision ultra upgrade headlight bulbs are ECE certified for bright white light on the road. Drivers enjoy a vibrant look and a street-legal bulb compliant with relevant regulations. It gives you great visibility without compromising safety by dazzling the car in front.

Comfort light for visibility

The new WhiteVision ultra coating formula, along with its cool white light, significantly improves visibility at night and enhances driver comfort by reducing eye fatigue. When design meets functionality, you enjoy a great look and enhanced driving comfort.

Up to 60% more vision[1]

A longer beam pattern, with up to 60% more vision[1] compared to the legal minimum standard, enables you to not only see other road users more clearly, but also to be better seen by them. It improves safety and gives you more time to react to potential hazards on the road ahead.

Engineered for stylish vision

Better and brighter lights allow for increased performance on the road. With their optimised high-precision filament geometry, high-pressure gas filling, high-precision coating and high-quality UV-Quartz glass, Philips WhiteVision ultra headlights set a new standard for road-legal white light. Engineered for great style and visibility, these headlights provide a more relaxed and fun driving experience.

Change in pairs

It is simply more efficient to change both headlights in pairs, rather than only replace the failed one. New, modern bulbs have increased light output and increased performance, offering a safer driving experience. Overall, the benefits and advantages of replacing in pairs are numerous: less hassle, cost savings, avoiding headlight failure, a brighter and more balanced beam, but above all, safety.

Highest quality car lighting

Technologically advanced Philips lighting is renowned in the automotive industry and has been for over 100 years. The Philips Original Equipment Quality products are designed and developed following strict quality control processes (including applicable ISO norms), leading to consistently high production standards. WhiteVision ultra is compatible with car models from major brands such as Audi, BMW, Ford, GM, Toyota and Volkswagen. See the product selector guide for more information.

Specifications

Marketing specifications

Expected benefits: Style
Product highlight: Sharp white look

Product description

Application: High beam, Low beam, Front fog
Base: P14, 5s
Designation: 12258WVUB1
ECE certification
Range: WhiteVision ultra
Technology: Halogen
Type: H1

Lifetime

Life time: 250 hrs

Light characteristics

Lumens: 1550 ±15% lm
Colour temperature: up to 3700 K

Electrical characteristics

Wattage: 55 W
Voltage: 12 V

Ordering information

Order entry: 12258WVUB1
Ordering code: 00523630

Packaging Data

Packaging type: B1
EAN1: 8719018005236
EAN3: 8719018005243

Packed product information

Gross weight per piece: 34.4 g
Length: 9.5 cm
Width: 5.3 cm
Height: 13.3 cm
Pack Quantity: 1
MOQ (for professionals): 10

Outer pack information

Length: 25.5 cm
Width: 19 cm
Height: 13 cm
Gross weight per piece: 0.47 kg
