

Philips DayLightGuide  
LED Daytime running lights

### Daylight Guide

12 V  
15 W

12825WLEDX1

## Exclusive design signature, maximum visibility

to drive with safety and style

The new generation of high-power Luxeon LED daytime running lights improve your safety and style on the road, increasing your visibility day and night.

#### 24h visibility

- Dimmable: stays on night & day
- High power new generation LED
- Wide angle to be seen better

#### Exclusive design signature

- Homologated lightguide technology

#### Original Equipment Quality

- Water and gravel-impact resistant
- High-quality aluminium housing

#### Easy installation for all cars

- Hybrid and electric car compatible
- Smart clip-on system

# PHILIPS

# Highlights

## Clip-on system

Simple installation with smart clip-on system. Install the brackets in any cavity and simply click the modules into place. The modules will lock tightly and are free from theft.

## Dimmable

Our Daylight solution stays on day and night. During the day, LED Daylight makes cars more visible and more rapidly detectable by the drivers of other vehicles or pedestrians moving in the opposite direction, which, as a whole, increases road safety. The system automatically dims at night.

## Aluminum housing

The robust high-quality aluminium housing prevents corrosion and is weatherproof: water, salt, sand and dust stand no chance. The result is long life and no maintenance work.

## Gravel-impact resistant

The high-quality aluminum housing and lens are water and gravel-impact resistant. After mounting the system does not require any maintenance.

## High power new generation LED

High power new generation LED

## Homologated lightguide

The lightguide technology delivers a distinct lighting signature. Contrary to the dot appearance of earlier solutions, the light that is guided through the 2 beams is uniform and extends to a wider angle. As any other Philips solution the beam complies with all homologation standards.

## Hybrid & electric compatible

The Philips Daytime Running Light range is compatible with hybrid and electric car technology.

# Specifications

## Marketing specifications

- Expected benefits: More light

## Product description

- Homologation ECE
- Range: DayLightGuide
- Technology: LED
- Type: DayLightGuide
- Voltage [V]: 12

## Technical specifications

- Application: Day light
- Homologation: ECE R87
- Consumption (DRL): 2 x 7.7 W
- Consumption (Position light): 2 x 2.4 W

## Maximum visibility

- Beam angle: 150 % wider than standard
- Color temperature: 6000K
- LED lifetime: 5000 hours

- Intensity (DRL): 550 cd/m<sup>2</sup>
- Intensity (position light): 80 cd/m<sup>2</sup>

## Robustness

- Premium finishing: High quality aluminum housing
- Gravel-impact resistant: Automotive test PSA B21 7090
- DRL set resistant to: water, salt, dust & sand

## Easy to install

- Clip-on system
- Start & stop compatible: with ACC control

## Ordering information

- Order entry: 12825WLEDX1
- Ordering code: 38638733

## Packaging Data

- EAN1: 8727900386387
- EAN3: 8727900386394
