- Share digital content from iOS, Android, Windows devices

PHILIPS

Home projector

Variable screen size Up to 200", Wi-Fi and android connectivity, Dolby Digital 2.1 sound system

Highlights

Android operating system

The embedded Android operating system enables this smart device to install preferred Apps and to stream media content easily.

Bluetooth audio function

To ensure an unforgettable evening with friends, Screeneo can also become a music station that broadcasts your favourite playlist directly from your smartphone or tablet via Bluetooth.

Connect all your devices

The Philips Screeneo U3 has a comprehensive array of connections (HDMI, VGA, audio and

headphone port, USB, etc.) enabling it to be hooked up to any type of device, including DVD and Blu-ray players, games consoles and multimedia content servers.

FlowMotion functionality

The FlowMotion system provides images of exceptional quality, even in rapid action scenes: ideal for watching all your content and ensuring that you have the best possible image.

LuminAce and NaturaColor

Thanks to its LuminAce engine, the Philips Screeneo U3 provides sharp, well contrasted images with ever more natural colours (NaturaColor technology) as well as a deep black level. It is equipped with an innovative generation UHP lamp developed by Philips with a life of 10,000 hours, guaranteeing brightness of 2800 lumens.

HDP3550/EU

Wi-Fi / DLNA home network

Thanks to the Wi-Fi / DLNA functions, browse web content and stream videos, music and pictures.

Wireless screen mirroring

Thanks to the wireless screen mirroring function you can share your digital content on a huge screen from iOS, Android and Windows devices.

Variable screen size 50-200"

Variable screen size from 50" to 200" with just 10-42 cm / 3,94"-16,5 " distance to the wall
