

Professional TV accessory

- External USB clock

22AV1860A/12

## USB clock for Professional TVs

This accessory is created specifically for Professional TVs. It provides an efficient solution for permanent time display in guest rooms and can be conveniently attached to the TV via USB. There is no additional power source needed.

### Benefits

#### Designed around your guest

- The display time is automatically linked to the TV time
- Easy clock visibility in a hotel room

- Adjustable brightness for different environments

### Features

#### Automatic time sync

This clock is always accurate without a need to set the time separately. Via the USB connection the display automatically syncs with the accurate time that the TV receives via the broadcast signal.

#### Easy clock visibility

The clear and high quality clock display combines easy visibility from throughout the hotel room with pleasant luminosity to avoid disturbance during the night.

#### Adjustable brightness levels

The luminosity of the clock display can be configured to different levels and be switched off completely.
