- Full HD TV with Pixel Precise HD for details in action
- Brilliant LED images with incredible contrast

PHILIPS

Smart LED TV
127 cm (50") Ultra wide screen, Easy 3D

Highlights

Cinema 21:9 ultra wide screen

Most TVs have an aspect ratio of 16:9 (or 1.78:1) and a resolution of 1080p Full HD. Hollywood blockbusters, though, are usually filmed in 2.39:1 aspect ratio. With Philips new Cinema 21:9 TVs perfectly match the original movie format used by directors with a 21:9 (2.39:1) aspect ratio. So no matter which movie, you can now watch it in its original aspect ratio and without the black bars.

Multi-view

The Ultra wide screen of the Cinema 21:9 is the ideal screen to enjoy a world of connectivity in a comfortable way. With Multi-view, while watching soccer on the left side of the screen, you can simultaneously browse the internet on the right side or chat on Twitter. With Philips Net TV, top online content and services are available at the touch of a button: Video on demand, catch up TV, Twitter and many more! A Net TV window can be opened next to TV, or TV combined with another video device. The small screen can easily be swapped with your main activity to keep you in control.

Optimal viewing on 21:9 screen

On the Cinema 21:9, you can watch any type of content just the way you want. While watching your favorite TV program, the Unique Smart formatting technology can automatically adapt any content to the 21:9 screen or you can choose to watch it in its

original format. At the push of a button, the choice is yours!

Ambilight Spectra 2

Add a new dimension to your viewing experience with Ambilight Spectra 2. This patented Philips technology enlarges the screen by projecting a glow of light from 2 sides of the back of the TV screen onto the surrounding wall. Ambilight automatically adjusts the color and brightness of the light to match the TV picture. Thanks to the wall-adaptive function, the color of the light is perfect, regardless of your wall color.

Easy 3D

Easy 3D ensures you get long hours of comfort while watching 3D thanks to the flicker free, low ghosting performance. The compatible 3D glasses are light weight and do not require batteries. Enjoy 3D easily at home today!

Full HD LED TV

The most advanced LED lighting technology in this Full HD LED TV combines an eye-catching

50PFL7956T/12

minimalistic design with stunning image quality as well as the lowest power consumption in its category. On top of that, LED lighting technology does not contain any hazardous materials. Thus, with LED backlight you can enjoy low power consumption, high brightness, incredible contrast, sharpness and vibrant colors.

Smart TV

Smart TV for an easier & wireless TV experience in 4 areas. Net TV lets you enjoy a wealth of online apps on your TV: rent movies, watch cat-up TV and enjoy social media. Stay in Control: change channels or enter text using your Smartphone or tablet. Use SimplyShare to enjoy photos, music and video from your computer, phone & tablet on your TV. Watch your favorite Program whenever you want: our program guide helps you with Smart USB recording.

2 in 1 Stand

This TV comes with a revolutionary table top stand that can also be used to wall-mount your television. There is no need to buy additional wall-mount brackets, it comes conveniently with the TV in the box. The patented design allows for no less than 4 mounting positions: Tabletop swivel stand, Wallmount with swivel, ultra flat wallmount and Vesa compatible wallmount fixation. Mounting is easy with 2 fixation points on the wall and smart leveling to get the TV perfectly horizontal with the touch of your hand!
