# OLED Screen Care

OLED Display is state of the art technology and combined with our Picture Quality Engine it has won an outstanding number of awards. To ensure that your TV always offers the best possible performance, it will sometimes perform a display clean-up process while in standby.

If you never put your TV in standby, you will regularly be notified by on screen messages that the display needs to execute this clean-up process. Please always follow those instructions. Repeatedly postponing this process may result in image retention, which may void your warranty.

Your TV should be left in standby in order to execute the cleaning process in the background.

We also recommend that you avoid continuously displaying static images or static parts in moving images (like news ticker bar, soccer scores, game HUDs...).

## TV Display refreshing

To protect the screen, OLED TV need refreshing process over time.

There are 2 types of refreshing process:

- Normal refreshing: This will take place automatically and it takes a few minutes with TV in standby mode.
- Deep refreshing: This will take a few minutes and need to be triggered by consumer.

To allow OLED TV to perform refreshing properly, please adhere to the following:

- For normal refreshing process to take place automatically, always use remote control to switch off TV and keep the TV power plugged.
- When normal refreshing message is shown on TV screen, follow the onscreen recommended instructions.
- For deep refreshing process, it can be activated manually via **Settings > General settings > Advanced > OLED screen settings > Clear residual image**. A reminder message can also be shown on TV to request user to perform deep refreshing, please follow instructions and keep TV power plugged to allow the whole process complete. It will take a few minutes. The deep refreshing process shall only be done when residual image is seen on screen even after 8 hours standby. Manually performing **Clear residual image** too often may reduce OLED display life time. However, it is important to allow the refresh cycles, when requested by the TV.
- Do not touch or apply pressure on TV screen during the refreshing process.
- Always use remote control to switch off TV and keep

the TV power plugged on when refreshing is triggered.

\* **Note:** In order to enjoy the best picture quality this process is essential. If the unit demonstrably did not have the chance to complete a refreshing process on a regular basis, we cannot accept any returns, repairs, exchanges or warranty claims on behalf of image residual phenomenon within and/or out of the warranty period. This is also the case when the TV is used predominantly for gaming with static content on the screen, the TV is only used for watching news channels (with static news ticker bars) or other similar use cases that implication-wise bear an increased risk for sustaining burn-in effects. This is not in scope of the warranty.

## Special Care for OLED TV

Organic LED (OLED) may experience on-screen image retention (due to the characteristics of the material), when an image is continuously displayed for a long period of time or the same image is repeatedly displayed. So it is strongly recommended to follow the instructions to take care of OLED TV:

- Do not display any still image continuously or display the same image for more than 10 minutes.
- Recommend to use **ECO, HDR Home Cinema or Dolby Vision Dark** as picture style in normal home viewing condition.
- Recommend to use **OLED Contrast** setting 50 or below in picture settings when playing Game or watching TV programs with logos or clocks on any parts of the screen.
- Switch off On Screen Display (e.g. the home menus) of TV application program when not used.
- Switch off On Screen Display from connected external video devices (e.g. DVD player). For details, refer to the instruction manuals for the connected devices.
- Avoid displaying video with bright colors (including white), text, clocks or logos on any parts of the screen for a long time.
- Use **Wide screen** or **Fill screen** as picture format option (see TV picture settings).
- Always watch video in full screen instead of a small window on TV screen. (e.g. video in internet browser page)
- Do not attach any sticker or label on the OLED panel to reduce the chance of image residual phenomenon.

Displaying a still image for a prolonged period of time may cause an image sticking. This phenomenon is normal character for OLED panel and does not represent a defect of the TV. Avoid displaying a fixed image on the TV screen for an extended length of time.

## Screen saver

To reduce the chances of residual images on the TV screen, the screen saver (moving PHILIPS logo) will be triggered in such circumstances.

- when static setting menu elements are shown on screen for more than 2 minutes.
- when static setting menu elements of Apps are shown on screen for more than 2 minutes.
- when Teletext is being displayed for more than 2 minutes.

The screen saver may not be triggered in such circumstances.

- pausing playback on an external source (e.g. HDMI), as the TV is not displaying static setting menu elements.

Once the screen saver is active, it can be closed by pressing any remote control button. Other actions like inserting a USB stick or casting content will execute in the background, but these activities will not interrupt the screen saver.

Philips TV is equipped with the following to take care of OLED screen:

- **Automatic refreshing process**

Perform screen refreshing process when necessary.

- **Automatic screen brightness control**

Gradually reduce the screen brightness when still image is displayed for a long time.

- **Screen Saver**

Display screen saver when still image is displayed on screen over a longer period of time.

---

# Home Screen

---

## 2.1

### Home Screen and Channels

To enjoy the benefits of your Android TV, connect the TV to the Internet. Press  **HOME** on your remote control to get your Android Home screen. Like on your Android smartphone or tablet, the Home screen is the centre of your TV. From the Home screen you can decide what to watch by browsing entertainment options from app and live TV.

Your Home has channels to let you discover great contents from your favourite apps. You can also add additional channels or find new apps to get more contents.

The Home screen is organized in channels. Apps may populate their recommendation (if available) according to their own choice as an individual channels in the home screen.

#### Apps

Your favourite Apps are placed on the first row. This row contains number of apps pre-installed. The order of these apps are according to business agreements with content service providers. In this row you will also find the Apps, like **Smart TV Collection**, **Watch TV**, **TV Guide**, **Media** and others.

#### Live TV

Live TV channel shows the currently running programmes from the installed channels.

#### Help channel

This channel contains "How to..." tutorial videos to let you know how to unbox, how to connect external devices, how to install channel, etc.

#### YouTube channel

This channel contains your Recommended, Subscriptions or Trending YouTube videos.

#### Customize channels

Click the **CUSTOMIZE CHANNELS** button to add and remove channels from your Home screen.

#### Accessing settings from Home

You can access **All Settings** menu via the icon at the top right corner. You can also find the **Frequent settings** menu and common menu items in the Philips TV Menu, which can be invoked directly from the remote control.

#### System bar on Home screen

The System bar on the top of Home screen contains following features.

- Search button: to trigger Google search with voice or text input. The search result and its order are rendered according to business agreements with content service providers.
- Input source: to launch the input source list and switch to any of the connected devices.
- Notifications: to provide you the messages about your Smart TV system.
- Settings: to access all setting menu and adjust the TV settings.
- Clock: to indicate the system clock.

---

## 2.2

### Home Screen Update

You may receive the update notification from Google and have new version of Home launcher installed. With the new Home launcher, you will have a new look and features on TV's Home screen.

#### New highlights on your home screen

With multiple tabs like **Home**, **Discover**, **Apps** and **Search**, you can discover movies and shows from your services and popular apps. Sign in to your Google Account to get personalised recommendations from your streaming services based on what you have watched and what interests you.

#### New look, new navigation

Decide what to watch next with easy-to-use navigation. Browse your personalised recommendations, pick up where you left off, or quickly find a certain app using the new tab system.

#### Discover personalised recommendations

Browse shows and movies that you will love on all your favourite media services. Sign in to your Google Account to get started.

#### Get recommendations across Google

Your services are saved to your Google Account so you can get better recommendations across Google.

---

## 2.3

### Apps and Smart TV Collection

#### Apps

The **Apps** tab of Home screen contains all installed Apps that come with the TV and the Apps you have

installed from Smart TV Collection or Google Play™ Store. You can also install and add more apps as favourite from the Apps tab.

## Smart TV Collection

All your premium apps are available within the Smart TV Collection app. Launch it using the banner on the Favourite apps row. The Smart TV Collection app will also contain recommendations for new Apps and more.

---

2.4

# Open the Home Screen

To open the Home screen and open an item...

- 1 - Press  HOME.
- 2 - Select an item and press **OK** to open or start it.
- 3 - Press  Back continuously or press  HOME can go back to Home screen.

When opening the Home screen, the background application/content playback will stop. You have to select the application or content from the Home screen to resume.

# Setting Up

## 3.1

### Read Safety

Read the safety instructions first before you use the TV.

To read the instructions, in **Help**, press the colour key **Red** **Keywords** and look up **Safety Instructions**.

## 3.2

### TV Stand and Wall Mounting

#### TV Stand

You can find the instructions for mounting the TV stand in the Quick Start Guide that came with the TV. In case you lost this guide, you can download it from [www.philips.com/TVsupport](http://www.philips.com/TVsupport).

Use the product type number of the TV to look for the **Quick Start Guide** to download.

#### Wall Mounting

Your TV is also prepared for a VESA-compliant wall mount bracket (sold separately).

Use the following VESA code when purchasing the wall mount . . .

• 77OLED807  
VESA MIS-F 400x300, M6 (min.: 10mm, max.:22mm)

#### Caution

Wall mounting the TV requires special skills and should only be performed by qualified personnel. The TV wall mounting should meet safety standards according to the TV's weight. Also read the safety precautions before positioning the TV.

TP Vision Europe B.V. bears no responsibility for improper mounting or any mounting that results in accident or injury.

### Tips on Placement

- Position the TV where light does not shine directly on the screen.
- Dim lighting conditions in the room for best Ambilight effect.
- The ideal distance to watch TV is 2 to 5 times its diagonal screen size. When seated, your eyes should be level with the centre of the screen.
- When wall mounted, position the TV up to 15 cm away from the wall.

#### Note:

Please keep the TV away from dust-producing sources such as stoves. It is suggested to clean the dust regularly to avoid getting dust into the TV.

### Power Cable

- Insert the power cable into the **POWER** connector on the back of the TV.
- Make sure the power cable is securely inserted in the connector.
- Make sure that the power plug, in the wall socket, is accessible at all times.
- When you unplug the power cable, always pull the plug, never pull the cable.

Although this TV has a very low standby power consumption, unplug the power cable to save energy if you do not use the TV for a long period of time.

For more information, in **Help**, press the colour key **Red** **Keywords** and look up **Switching On** for more information on switching the TV on or off.

## Antenna Cable

Insert the antenna plug firmly into the **Antenna** socket at the back of the TV.

You can connect your own antenna or an antenna signal from an antenna distribution system. Use an IEC Coax 75 Ohm RF antenna connector.

# Remote Control

## 4.3

# Pair Your Remote Control to TV

This remote control uses both Bluetooth® and IR (infrared) to send its commands to the TV.

- You can use this remote control via IR (infrared) for most operations.
- To use advanced operation like voice search and remote control keyboard, you need to pair (link) the TV with the remote control.

When you start the initial TV installation, the TV invites you to long press the PAIR (SOURCES) key, and by doing so, the pairing will be done.

Note:

- 1 - Once the remote control has entered pairing mode successfully, the blue LED indicator ring around the microphone on the front side of the remote control starts blinking.

2 - The remote control must be kept close to the TV (within 1m distance) during pairing in order to ensure success.

3 - If the TV does not launch the voice control field when press **○**, pairing was unsuccessful.

4 - It is advisable to wait until the set has fully started up and launched all background processes before pairing mode is entered as the toast message containing further instructions may appear too late, thereby negatively impacting the pairing procedure.

#### Pairing or pairing again

If the pairing with the remote control was lost, you can pair the TV with the remote control again.

You can simply long press the **PAIR ( SOURCES)** key (approximate for 3 seconds) for pairing.

Alternatively, go **⚙ Settings > Wireless and networks > Remote control > Pair remote control**, then follow the on-screen instructions.

A message appears when the pairing is successful.

#### Remote Control Software

**⚙ Settings > Wireless and networks > Remote control > Remote control info**

Once the remote control is paired, you can check the current remote control software version.

**⚙ Settings > Wireless and networks > Remote control > Update remote control software**

Check available remote control software for updates.

---

4.4

## Voice Search

You can search for videos, music or anything else on the Internet by simply using your voice. You can speak into the microphone on the remote control.

You need to pair the remote control to the TV before use voice search.

To use Voice...

1 - Press **○** on remote control, the blue light on the remote control lights up and the search field opens, the microphone is active.

2 - Speak out what you are looking for with clear pronunciation. You can speak for 10 seconds before the microphone switches off. It might take some time for the results to appear.

3 - In the list of search results, you can select the item you want.

---

4.5

## IR Sensor

The TV can receive commands from a remote control that uses IR (infrared) to send commands. If you use such a remote control, always make sure you point the remote control at the infrared sensor on the front of the TV.

#### ⚠ Warning

Do not put any objects in front of IR sensor of the TV, it may block the IR signal.

---

4.6

## Batteries

If the TV does not react on a key press on the remote control, the batteries might be empty.

To replace the batteries, open the battery compartment on the back-bottom of the remote control.

1 - Slide the battery door in the direction shown by the arrow.

2 - Replace the old batteries with 2 Alkaline, type AAA-LR03-1.5V batteries. Make sure the **+** and the **-** ends of the batteries line up correctly.

3 - Reposition the battery door and slide it back until it clicks.

Remove the batteries if you are not using the remote control for a long time.

Safely dispose of your old batteries according to the end of use directions.

For more information, in **Help**, select **Keywords** and look up **End of use**.

---

4.7

## Cleaning

Your remote control is treated with a scratch-resistant coating.

To clean the remote control, use a soft damp cloth. Never use substances such as alcohol, chemicals or

household cleaners on the remote control.

# Switching On and Off

## 5.1

### On or Standby

Make sure the TV is connected to the mains AC power. Connect the supplied power cord to the AC in connector at the back of the TV. The indicator light at the bottom of the TV lights up.

#### Switch on

Press  on the remote control to switch the TV on. Alternatively, press  HOME. You can also press the small joystick key on the bottom of the TV to switch the TV on in case you can't find the remote control or its batteries are empty.

#### Switch to standby

To switch the TV to standby, press  on the remote control. You can also press the small joystick key on the bottom of the TV.

In standby mode, the TV is still connected to the mains power but consumes very little energy.

To switch off the TV completely, disconnect the power plug.

When disconnecting the power plug, always pull the power plug, never the cord. Ensure that you have full access to the power plug, power cord and outlet socket at all times.

## 5.2

### Keys on TV

If you lost the remote control or its batteries are empty, you can still do some basic TV operations.

To open the basic menu...

1 - With the TV switched on, press the joystick key on the bottom of the TV to bring up the basic menu.

2 - Press left or right to select  Volume,  Channel or  Sources. Select  Demo, to start a demo movie.

3 - Press up or down to adjust the volume or tune to the next or previous channel. Press up or down to go through the list of sources, including the tuner selection. Press the joystick key to start the demo movie.

4 - The menu will disappear automatically.

To switch the TV on standby, select  and press the joystick key.

---

# Channels

---

## 6.1

### Watching channels

---

#### Tune to a Channel

To start watching TV channels, press **TV**. The TV tunes to the channel you last watched.

#### Switch Channels

To switch channels, press **≡ +** or **≡ -**.  
If you know the channel number, type in the number with the number keys. Press **OK** after you entered the number to switch immediately.

If the information is available from the Internet, the TV shows the current programme name and details followed by the next programme name and details.

#### Previous channel

To switch back to the previously tuned channel, press **← Back**.

You can also tune to channels from a **Channel List**.

---

### Lock a Channel

---

#### Lock and Unlock a Channel

To prevent children from watching a channel, you can lock a channel. To watch a locked channel, you must enter the 4 digit **Child Lock** PIN code first. You cannot lock programmes from connected devices.

To lock a channel...

- 1 - Press **TV**.
- 2 - Press **OK** to open the channel list. If necessary change the channel list.
- 3 - Select the channel you want to lock.
- 4 - Press **+ OPTIONS** and select **Lock Channel** and press **OK**.
- 5 - Enter your 4 digit PIN code if the TV asks for it. A locked channel is marked with a **🔒** (lock).
- 6 - Press **←** (left) to go back one step or press **← Back** to close the menu.

To unlock a channel...

- 1 - Press **TV**.
- 2 - Press **OK** to open the channel list. If necessary change the channel list.
- 3 - Select the channel you want to unlock.
- 4 - Press **+ OPTIONS** and select **Unlock Channel** and press **OK**.
- 5 - Enter your 4 digit PIN code if the TV asks for it.
- 6 - Press **←** (left) to go back one step or

press **← Back** to close the menu.

If you lock or unlock channels in a channel list, you only have to enter the PIN code just once until you close the channel list.

For more information, in **Help**, press the colour key **— Keywords** and look up **Child Lock** for more information.

---

#### Age Rating

To prevent children from watching a programme not suitable for their age, you can set an age rating.

Digital channels can have their programmes age rated. When the age rating of a programme is equal to or higher than the age you have set as age rating for your child, the programme will be locked. To watch a locked programme, you must enter the **Child Lock** code first.

To set an age rating...

- 1 - Press **⚙️**, select **All Settings** and press **OK**.
- 2 - Select **Child Lock > Age rating lock** and press **OK**.
- 3 - Enter a 4-digit Child lock code. If you did not set a code yet, select **Set code** in **Child lock**. Enter a 4-digit Child lock code and confirm. Now you can set an age rating.
- 4 - Back in **Age rating lock**, select the age and press **OK**.
- 5 - Press **←** (left) repeatedly if necessary, to close the menu.

To switch off the parental age rating, select **Free**. However, in some countries you must set an age rating.

For some broadcasters/operators, the TV only locks programmes with a higher rating. The parental age rating is set for all channels.

---

#### Content rating

To set a content rating that will lock rated programmes...

- 1 - Press **⚙️**, select **All Settings** and press **OK**.
- 2 - Select **Child lock** and press **→** (right) to enter the menu.
- 3 - Select **Content rating lock**.
- 4 - Set the content and press **OK**. The selected content is blocked.
- 5 - Press **←** (left) repeatedly if necessary, to close the menu.

---

## Channel Options

---

### Open options

While watching a channel, you can set some options.

Depending on the type of channel you are watching (analogue or digital) or depending on the TV settings you made, some options are available.

To open the options menu...

- 1 - While watching a channel, press **+** **OPTIONS**.
- 2 - Press **+** **OPTIONS** again to close.

---

### Closed Caption

Switch **Closed caption on** or **off** with this options. Select **On during mute** to show closed captions only when the sound is muted with **⏏**.

---

### Caption Service

Select the correct type of closed caption services.

---

### Audio Language

For digital broadcast, you can select an available audio language temporarily if none of your preferred languages are available.

---

### DTV Applications

Display the list of Digital TV interactive applications.

---

### Mono / Stereo

You can switch the sound of an analogue channel to Mono or Stereo.

To switch to Mono or Stereo...

- 1 - Tune to an analogue channel.
- 2 - Press **+** **OPTIONS**, select **Mono/Stereo** and press **➤** (right).
- 3 - Select **Mono** or **Stereo** and press **OK**.
- 4 - Press **◀** (left) to go back one step or press **←** **Back** to close the menu.

---

### Picture-in-picture

While watching a TV channel or a video from a connected HDMI device, you can shrink the video to a corner and then browse Home screen or apps.

To launch the Picture-in-picture window...

- 1 - Tune to a TV channel or watch a video from a

connected HDMI device.

2 - Press **+** **OPTIONS**, select **Picture-in-picture**, and press **OK**.

3 - The channel or video you are watching appears in a small window, in a corner of the screen chosen by the system.

4 - You can continue watching TV or video while using other apps.

5 - On the top row of the Home screen, you can select **Open** or **Stop** to switch back or close the small screen.

### Note:

- You can only watch a video, e.g. of a TV channel, in the Picture-in-picture mode. The audio itself will be mute.
- The Picture-in-picture window will be closed when you initiate playback of another video content since there can only be a single playback happening at a time. Some apps may additionally close the Picture-in-picture window on their own in the instances in which its presence would impede your use of them.
- The "Picture-in-picture" menu option can only be activated if the Home screen is running in the background. If you see the option disabled, please go to the Home screen first.

---

## Reorder Channels

Only in a **Favourites List** you can change the sequence of channels (reorder).

To change the sequence of channels...

- 1 - Open the **Favourites List** you want to reorder.
- 2 - Press **+** **OPTIONS**, select **Reorder Channels** and press **OK**.
- 3 - In the **Favourites List**, select the channel you want to reorder and press **OK**.
- 4 - With the **▲** (up) or **▼** (down) keys move the channel where you want it.
- 5 - Press **OK** to confirm the new location.
- 6 - You can reorder channels with the same method until you close the **Favourites List** with the **←** **Back** key.

---

6.2

## Favourite Channels

---

## About Favourite Channels

In a favourite channel list, you can collect the channels you like.

You can create 8 different lists of favourite channels for easy channel zapping. You can name each Favourites List individually. Only in a Favourites List you can reorder channels.

With a Favourites List selected, press the arrows **▲** (up) or **▼** (down) to select a channel, then press **OK** to watch the selected channel. You only tune to the channels in that list when using **TV** **+** or **TV** **-** keys.

---

## Create a Favourites List

To create a favourite channels list...

- 1 - Press **TV**, to switch to TV.
- 2 - Press **OK** to open the current channel list.
- 3 - Press **+** **OPTIONS**.
- 4 - Select **Create Favourites List** and press **OK**.
- 5 - In the list at the left, select a channel you want as a favourite and press **OK**. Channels come in the list at the right in the order you add them. To undo, select the channel in the list at the left and press **OK** again.
- 6 - If necessary, you can go on selecting and adding channels as favourites.
- 7 - To finish adding channels, press **←** **Back**.

The TV will ask to rename the Favourites List. You can use the on-screen keyboard.

- 1 - Use the on-screen keyboard to delete the current name and enter a new name.
- 2 - When done, select **Close** and press **OK**.

The TV will switch to the newly created Favourites List.

You can add a range of channels in one go or start a Favourites List by duplicating the channel list with all channels and removing the channels you do not want.

The channels in the Favourites List are renumbered.

---

## Edit Favourites

To add a consecutive range of channels to a Favourites List in one go, you can use **Edit favourites**.

To add a range of channels...

- 1 - Open the Favourites List where you want to add a range of channels.
- 2 - Press **+** **OPTIONS**, select **Edit favourites** and press **OK**.
- 3 - In the list at the left select the first channel of the

range you want to add and press **OK**.

4 - Press **▼** (down) to select the last channel of the range you want to add. The channels are marked at the right.

5 - Press **OK** to add this range of channels and confirm.

You can also start creating a Favourites List from **Edit favourites**.

---

## Rename a Favourites List

To rename a Favourites List...

- 1 - Open the Favourite List you want to rename.
- 2 - Press **+** **OPTIONS**, select **Rename Favourites List** and press **OK**.
- 3 - Use the on-screen keyboard to delete the current name and enter a new name.
- 4 - When done, select **Close** and press **OK**.
- 5 - Press **←** **Back** to close the channel list.

---

## Remove a Favourites List

To remove a Favourites List...

- 1 - Open the Favourites List you want to remove.
- 2 - Press **+** **OPTIONS**, select **Remove Favourites List** and press **OK**.
- 3 - Confirm to remove the list.
- 4 - Press **←** **Back** to close the channel list.

---

6.3

## Closed captioning (CC) and language

---

### Closed Caption

You can display closed captions at all times or only when the TV is muted.

**Note:**

• Not all TV programmes, commercials and features include closed captioning information. See your local TV programme listings about channels with closed captions. The captioned programmes are typically listed with service marks, such as 'CC', in the TV listings.

**Switch on closed caption**

- 1 - While you watch TV, press **+** **OPTIONS**.
- 2 - Select **Closed caption > Closed caption on** and press **OK**.

**Select type of closed caption**

- 1 - While you watch TV, press **+** **OPTIONS**.
- 2 - Select **Caption service**.
- 3 - Select the correct type of closed captions and

press **OK**.

---

## Audio Language

If the TV channel broadcasts multiple or dual audio languages, you can select your preferred audio language.

- 1 - While you watch TV, press **+ OPTIONS**.
- 2 - For digital channels, select **Audio Language**. For analogue channels, select **Alternate Audio**. Press **OK** to confirm your selection.
- 3 - Select from the available languages, then press **OK**.

### Note:

If you have selected **Alternate Audio** for analogue channels, select between:

- **Main**: Primary audio language or
- **SAP**: Secondary audio language

---

## Menu Language

Change the language of the TV menus and messages

- 1 - Select **⚙ Settings > Region and language > Menu language** and press **OK**.
- 2 - Select on the language you need and press **OK**.
- 3 - Press **← Back** to close the menu.

---

# Channel Installation

---

## 7.1

### Antenna/Cable Installation

---

#### Manual channel update

You can always start an channel update yourself.

To start a channel update manually...

- 1 - Select **Settings** > Channels > **Antenna/Cable Installation** and press **OK**.
- 2 - Enter your PIN code if necessary.
- 3 - Select **Antenna/cable connection** and press **OK**.
- 4 - Select **Antenna** or **Cable** and press **OK**.
- 5 - Press **← Back** to close the menu.

---

## 7.2

### Service navigation

Service navigation

**Settings** > Channels > Service navigation.

Switch the availability to navigate through primary channels only or all channels, on or off.

---

## 7.3

### Channel List Copy

---

#### Introduction

Channel List Copy is intended for dealers and expert users.

With Channel List Copy, you can copy the channels installed on one TV onto another Philips TV of the same range. With Channel List Copy, you avoid the time-consuming channel search by uploading a predefined channel list on a TV. Use a USB flash drive of minimum 1 GB.

#### Conditions

- Both TVs are from the same year range.
- Both TVs have the same hardware type. Check the hardware type on the TV type plate on the back of the TV.
- Both TVs have compatible software versions.

#### Current channel version

To check the current version of the channel list...

- 1 - Select **Settings** > Channels, select **Channel List Copy**, select **Current Version** and press **OK**.
- 2 - Press **OK** to close.

#### Current software version

To check the current version of the TV software...

- 1 - Select **Settings** > Update Software and press **➤** (right) to enter the menu.
- 2 - Select **Current Software Info** and press **OK**.
- 3 - The version, release notes and creation date are shown. Also, the Netflix ESN Number is shown if available.
- 4 - Press **←** (left) repeatedly if necessary, to close the menu.

---

### Copy a Channel List

To copy a channel list...

- 1 - Switch on the TV. This TV should have channels installed.
- 2 - Plug in a USB flash drive.
- 3 - Select **Settings** > Channels > **Channel List Copy** and press **OK**.
- 4 - Select **Copy to USB** and press **OK**. You might be asked to enter the Child Lock PIN code to copy the channel list.
- 5 - When copying is done, unplug the USB flash drive.
- 6 - Press **←** (left) repeatedly if necessary, to close the menu.

Now you can upload the copied channel list onto another Philips TV.

---

### Channel List Version

Check the current version of the channel list...

- 1 - Select **Settings** > Channels and press **➤** (right) to enter the menu.
- 2 - Select **Channel List Copy** and select **Current Version**, then press **OK**.
- 3 - Press **←** (left) repeatedly if necessary, to close the menu.

---

### Upload a Channel List to TV

---

#### To not Installed TVs

Depending on whether your TV is already installed or not, you must use a different method to upload a channel list.

#### To a TV that is not yet installed

- 1 - Plug in the power plug to start the installation and select language and country. You can skip the channel search. Finish the installation.
- 2 - Plug in the USB flash drive that holds the channel list of the other TV.
- 3 - To start the channel list upload, select **Settings**

> **Channels** > **Channel List Copy** > **Copy to TV** and press **OK**. Enter your PIN code if necessary.  
4 - The TV notifies you if the channel list is copied to the TV successfully. Unplug the USB flash drive.

---

### To Installed TVs

Depending on whether your TV is already installed or not, you must use a different method to upload a channel list.

#### To an already installed TV

1 - Verify the country setting of the TV. (To verify this setting, see chapter Reinstall All Channels. Start this procedure until you reach the country setting. Press **← Back** to cancel the installation.)  
If the country is correct continue with step 2.  
If the country is not correct, you need to start a reinstallation. See chapter Reinstall All Channels and start the installation. Select the correct country and skip the channels search. Finish the installation. When done, continue with step 2.  
2 - Plug in the USB flash drive that holds the channel list of the other TV.  
3 - To start the channel list upload, select **⚙️ Settings** > **Channels** > **Channel List Copy** > **Copy to TV** and press **OK**. Enter your PIN code if necessary.  
4 - The TV notifies you if the channel list is copied to the TV successfully. Unplug the USB flash drive.

---

# Connect Devices

---

## About Connections

---

### Connectivity Guide

Always connect a device to the TV with the highest quality connection available. Also, use good quality cables to ensure a good transfer of picture and sound.

When you connect a device, the TV recognizes its type and gives each device a correct type name. You can change the type name if you wish. If a correct type name for a device is set, the TV automatically switches to the ideal TV settings when you switch to this device in the Sources menu.

---

### Antenna port

If you have a Set-top box (a digital receiver) or Recorder, connect the antenna cables to run the antenna signal through the Set-top box and/or Recorder first before it enters the TV. In this way, the antenna and the Set-top box can send possible additional channels to the Recorder to record.

---

### HDMI ports

#### HDMI Quality

An HDMI connection has the best picture and sound quality. One HDMI cable combines video and audio signals. Use an HDMI cable for High Definition (HD) TV signals.

For best signal quality transfer, use a Ultra High Speed certified HDMI cable and do not use an HDMI cable longer than 5 m.

If a device connected with HDMI is not working correctly, check if a different **HDMI Ultra HD** setting can solve this problem. In Help, press the colour key **— Keywords** and look up **HDMI Ultra HD**.

#### Copy protection

HDMI ports support HDCP 2.2 (High-bandwidth Digital Content Protection). HDCP is a copy protection signal that prevents copying content from a DVD disc or Blu-ray Disc. Also referred to as DRM (Digital Rights Management).

---

### HDMI ARC and eARC

All of the HDMI connections on the TV have **HDMI ARC** (Audio Return Channel).

If the device, typically a Home Theatre System (HTS), soundbar or AV receiver, also has the HDMI ARC connection, connect it to any of the HDMI connections on this TV. With the HDMI ARC connection, you do not need to connect the extra audio cable that sends the sound of the TV picture to the HTS. The HDMI ARC connection combines both signals.

You can use any HDMI connection on this TV to connect the HTS but ARC is only available for 1 device/connection at a time

**HDMI eARC** (Enhanced Audio Return Channel) is an advancement over the previous ARC. It covers all ARC features but with higher bandwidth and speed. eARC supports high quality audio transmission up to 192kHz, 24-bit, uncompressed 5.1 and 7.1, and 32-channel uncompressed audio.

Note: **HDMI eARC** is only available on **HDMI 2**. Use HDMI cable with Ethernet for eARC. Only 1 eARC device is available at a time.

---

### HDMI CEC - EasyLink

Connect HDMI CEC-compatible devices to your TV, you can operate them with the TV remote control. EasyLink HDMI CEC must be switched on on the TV and the connected device.

#### Switch on EasyLink

⚙ Settings > General settings > EasyLink > EasyLink > On.

#### Operate HDMI CEC-compatible devices with TV remote control

⚙ Settings > General settings > EasyLink > EasyLink remote control > On.

#### Power off HDMI devices with the TV

⚙ Settings > General settings > EasyLink > EasyLink auto device off.

Select **On** to allow TV to turn the HDMI devices to standby. Select **Off** to disable this function.

#### Power on the TV with HDMI devices

⚙ Settings > General settings > EasyLink > EasyLink auto TV on.

Select **On** to allow HDMI devices to wake up the TV from standby status. Select **Off** to disable this function.

### Power on the HDMI sound system with TV

⚙️ Settings > General settings > EasyLink > EasyLink auto ARC on.

Select **On** to allow TV to wake up the connected HDMI sound system from standby status. Select **Off** to disable this function.

### EasyLink 2.0 sound control

⚙️ Settings > General settings > EasyLink > EasyLink 2.0 sound control.

Select **On** to control the sound settings of the HDMI sound system. You can adjust these settings via **Frequent settings** or **Settings > Sound**. This is only applicable with EasyLink 2.0 compliant HDMI sound system.

#### Note:

- EasyLink might not work with devices from other brands.
- The HDMI CEC functionality has different names on different brands. Some examples are: Anynet, Aquos Link, Bravia Theatre Sync, Kuro Link, Simplink and Viera Link. Not all brands are fully compatible with EasyLink. Example HDMI CEC branding names are property of their respective owners.

---

8.2

## Home Theatre System - HTS

---

### Connect with HDMI ARC/eARC

Use an HDMI cable to connect a Home Theatre System (HTS) to the TV. You can connect a Philips Soundbar or an HTS with a built-in disc player.

#### HDMI ARC

All HDMI connections on the TV can offer the Audio Return Channel (ARC) signal. But once you have connected the Home Theatre System, the TV can only send the ARC signal to this HDMI connection. If your Home Theatre System has an HDMI ARC connection, you can use any HDMI connection on the TV to connect. With HDMI ARC, you do not need to connect the extra audio cable. The HDMI ARC connection combines both signals.

#### HDMI eARC

HDMI eARC (Enhanced Audio Return Channel) is an

advancement over the previous ARC. It supports the latest high-bitrate audio formats up to 192kHz, 24-bit, and uncompressed 5.1 and 7.1, and 32-channel uncompressed audio. HDMI eARC is only available on HDMI 2.

### Audio to video synchronisation (sync)

If the sound does not match the video on screen, you can set a delay on most Home Theatre Systems with a disc player to match the sound with the video.

---

## Connect with HDMI

Use an HDMI cable to connect a Home Theatre System (HTS) to the TV. You can connect a Philips Soundbar or an HTS with a built-in disc player.

If the Home Theatre System has no HDMI ARC connection, add an optical audio cable (Toslink) to send the sound of the TV picture to the Home Theatre System.

### Audio to video synchronisation (sync)

If the sound does not match the video on screen, you can set a delay on most Home Theatre Systems with a disc player to match the sound with the video.

---

## Problems with HTS sound

### Sound with loud noise

If you watch a video from a plugged in USB flash drive or connected computer, the sound from your Home Theatre System might be distorted. This noise is heard when the audio or video file has DTS sound but the Home Theatre System has no DTS sound processing. You can fix this by setting the **Digital Out Format** of the TV to **Stereo**.

Select ⚙️ Settings

> **Sound** > **Advanced** > **Digital Out Format** .

### No sound

If you cannot hear the sound from the TV on your Home Theatre System, check if you connected the HDMI cable to an HDMI ARC/eARC connection on the Home Theatre System. All HDMI connections on the TV are HDMI ARC connections. HDMI eARC is only available on HDMI 2.

## Smartphones and Tablets

To connect a smartphone or tablet to the TV, you can use a wireless connection. For a wireless connection, on your smartphone or tablet download the Philips TV Remote App from your favourite app store.

## Blu-ray Disc Player

Use a **High speed HDMI** cable to connect the Blu-ray Disc player to the TV.

If the Blu-ray Disc player has EasyLink HDMI CEC, you can operate the player with the TV remote control.

In **Help**, press the colour key **Keywords** and look up **EasyLink HDMI CEC** for more information.

## Bluetooth®

### What You Need

You can connect a wireless device with Bluetooth® to this TV – a wireless speaker or headphones\*. You can also connect a wireless gamepad with Bluetooth® LE.

To play the TV sound on a wireless speaker, you must pair the wireless speaker with the TV. The TV can only play the sound on one speaker at a time.

#### Attention - Audio to Video synchronisation

Many Bluetooth® speaker systems have a high, so called, 'latency'. High latency means that the audio lags behind the video, causing unsynchronised 'lip sync'. Before you purchase a wireless Bluetooth® speaker system, inform yourself about the newest models and look for a device with a low latency rating. Ask your dealer for advice.

\* Note: The Bluetooth® on TV may not work properly with cable free true wireless headphones.

### Pairing a Device

Position the wireless speaker within a distance of 5 meters from the TV. Read the user manual of the device for specific information on pairing and on wireless range. Make sure the Bluetooth® setting on TV is switched on.

Once a wireless gamepad is paired, you can use it. When a wireless speaker is paired, you can select it to

play the TV sound. When a device is paired, you do not need to pair it again unless you remove the device.

To pair a Bluetooth® device with the TV...

- 1 - Switch on the Bluetooth® device and place it within range of the TV.
- 2 - Select **Settings** > **Wireless and Networks** and press **➤** (right) to enter the menu.
- 3 - Select **Bluetooth** > **Search Bluetooth Device**, and press **OK**.
- 4 - Select **Search** and press **OK**. Follow the instructions on screen. You will pair the device with the TV and the TV will store the connection. You might need to unpair a paired device first if the maximum number of paired devices was reached.
- 5 - Select the type of device and press **OK**.
- 6 - Press **◀** (left) repeatedly if necessary, to close the menu.

### Select a Device

To select a wireless device...

- 1 - Select **Settings** > **Wireless and Networks** and press **OK**.
- 2 - Select **Bluetooth** > **Search Bluetooth Device** and press **OK**.
- 3 - In the list, select the wireless device and press **OK**.
- 4 - Press **◀** (left) repeatedly if necessary, to close the menu.

### Remove a Device

You can connect or disconnect a wireless Bluetooth® device. You can also remove a wireless Bluetooth® device. If you remove a Bluetooth® device, the device will be unpaired.

To remove or disconnect a wireless device...

- 1 - Select **Settings** > **Wireless and Networks** and press **OK**.
- 2 - Select **Bluetooth** > **Remove Bluetooth device** and press **OK**.
- 3 - In the list, select the wireless device and press **OK**.
- 4 - Select **Disconnect** or **Remove** and press **OK**.
- 5 - Select **OK** and press **OK** to confirm.
- 6 - Press **◀** (left) repeatedly if necessary, to close the menu.

---

## Switch On to Bluetooth® Audio

Switch on to allow this TV to be switched on to Bluetooth® Audio (Screen Off mode) from your mobile's Bluetooth® paired device list.

To switched on to Bluetooth® Audio...

- 1 - Select **Settings** > **Wireless and Networks** and press **OK**.
- 2 - Select **Bluetooth** > **Switch on to Bluetooth Audio** and press **OK**.
- 3 - Select **On** and press **OK** to confirm.
- 4 - Press **◀** (left) repeatedly if necessary, to close the menu.

Once a Bluetooth® device is paired, select the device from **Sources** list to launch the Bluetooth® Audio player. You can play audio files on connected device and the sound will be played on TV speakers. Audio volume can be controlled via remote control **Volume** **+** / **-** buttons or via device media controls.

While playing audio files with Bluetooth® Audio player, more options are available to set.

- **Screen off** – select to turn screen off while playing audio file.
- **Ambilight on/off\*** – select to turn on or off the Ambilight.
- **Disconnect** – select to disconnect the device.

\* Ambilight setting is only for models which support Ambilight function.

---

8.6

## Headphones

You can connect a set of headphones to the  connection on the back of the TV. The connection is a mini-jack 3.5mm. You can adjust the volume of the headphones separately.

To adjust the volume...

- 1 - Press **Volume** **+** / **-**, select the headphones icon by arrows **◀** (left) or **▶** (right).
- 2 - Press the arrows **▲** (up) or **▼** (down) to adjust the volume.

---

8.7

## Game Console

### HDMI

For best quality, connect the game console with a Ultra High Speed certified HDMI cable to the TV.

---

8.8

## USB Hard Drive

### What You Need

If you connect a USB Hard Drive, you can pause or record digital TV broadcasts (DVB broadcasts or similar).

#### Minimum Disk Space

- **To Pause**

To pause a broadcast, you need a USB 2.0 compatible Hard Drive with a minimum of 4GB disk space.

- **To Record**

To pause and record a broadcast, you need a minimum of 250GB disk space.

For more information on how to install a USB Hard Drive, in **Help**, press the colour key **Red** **Keywords** and look up **USB Hard Drive**.

---

### Installation

Before you can pause or record a broadcast, you must connect and format a USB Hard Drive. Formatting removes all files from the USB Hard Drive.

- 1 - Connect the USB Hard Drive to one of the **USB** connections on the TV. Do not connect another USB device to the other USB ports when formatting.
- 2 - Switch on the USB Hard Drive and the TV.
- 3 - When the TV is tuned to a digital TV channel,

press **||** (Pause). Trying to pause will start the formatting.

Follow the instructions on screen.

When the USB Hard Drive is formatted, leave it connected permanently.

### Warning

The USB Hard Drive is formatted exclusively for this TV, you cannot use the stored recordings on another TV or PC. Do not copy or change recording files on the USB Hard Drive with any PC application. This will corrupt your recordings. When you format another USB Hard Drive, the content on the former will be lost. A USB Hard Drive installed on your TV will need reformatting for use with a computer.

---

## Formatting

Before you can pause or record a broadcast, or store apps, you must connect and format a USB Hard Drive. Formatting removes all files from the USB Hard Drive.

### Warning

The USB Hard Drive is formatted exclusively for this TV, you cannot use the stored recordings on another TV or PC. Do not copy or change recording files on the USB Hard Drive with any PC application. This will corrupt your recordings. When you format another USB Hard Drive, the content on the former will be lost. A USB Hard Drive installed on your TV will need reformatting for use with a computer.

\* Connect the USB Hard Drive with size less than 2TB.

To format a USB Hard Drive...

- 1 - Connect the USB Hard Drive to one of the **USB** connections on the TV. Do not connect another USB device to the other USB ports when formatting.
- 2 - Switch on the USB Hard Drive and the TV.
- 3 - Select **Recordings** if you want to perform Pause TV and Recordings, otherwise, select **Apps** to store apps. Follow the instructions on screen.
- 4 - All files and data will be removed after formatting.
- 5 - When the USB Hard Drive is formatted, leave it

connected permanently.

For more information, in **Help**, press the colour key **■** **Keywords** and look up **Pause TV**, **Recording**, or **Apps**.

---

8.9

## USB Keyboard

---

### Connect

Connect a USB keyboard (USB-HID type) to enter text on your TV.

Use one of the **USB** connections to connect.

---

### Configure

#### Install the keyboard

To install the USB keyboard, switch on the TV and connect the USB keyboard to one of the **USB** connections on the TV. When the TV detects the keyboard for the first time, you can select your keyboard lay-out and test your selection. If you select a Cyrillic or Greek keyboard layout first, you can select a secondary Latin keyboard layout.

To change the keyboard layout setting when a layout was selected...

- 1 - Select **⚙️ Settings > General Settings** and press **➤** (right) to enter the menu.
- 2 - Select **USB Keyboard Settings**, and press **OK** to start the keyboard setup.

---

### Special Keys

#### Keys for entering text

- Enter key = OK
- Backspace = delete character before cursor
- Arrow keys = navigate within a text field
- To switch between keyboard layouts, if a secondary layout is set, press the **Ctrl + Spacebar** keys simultaneously.

#### Keys for apps and Internet pages

- Tab and Shift + Tab = Next and Previous
- Home = scroll to the top of the page
- End = scroll to the bottom of the page
- Page Up = jump one page up
- Page Down = jump one page down
- \* = fit the web page to the screen width

## USB Flash Drive

You can view photos or play your music and videos from a connected USB flash drive.

Insert a USB flash drive in one of the USB connections on the TV while the TV is switched on.

The TV detects the flash drive and opens a list showing its content.

If the contents list does not appear automatically, press **SOURCES** and select **USB**.

To stop watching the USB flash drive content, press **EXIT** or select another activity.

To remove the USB flash drive safely...

- 1 - Press **HOME**.
- 2 - Select the **Notifications** icon from the top-right corner and press **OK**.
- 3 - Select your flash drive and press **OK**.
- 4 - Select **Eject** and press **OK**.
- 5 - Wait until the eject procedure is finished and then pull out the flash drive.

### Ultra HD on USB

You can view photos in Ultra HD resolution from a connected USB device or flash drive. The TV will downscale the resolution to Ultra HD if the resolution of the photo is higher.

For more information on watching or playing content from a USB flash drive, in **Help**, press the colour key **Keywords** and look up **Photos, Videos and Music**.

## Photo Camera

To view photos stored on your digital photo camera, you can connect the camera directly to the TV.

Use one of the USB connections on the TV to connect. Switch on the camera after you made the connection.

If the contents list does not appear automatically, press **SOURCES**, and select **USB**.

Your camera might need to be set to transfer its content with PTP (Picture Transfer Protocol). Read the user manual of the digital photo camera.

### Ultra HD on USB

You can view photos in Ultra HD resolution from a connected USB device or flash drive. The TV will downscale the resolution to Ultra HD if the resolution of the photo is higher. You cannot play a video with native resolution higher than Ultra HD on any of the USB connections.

For more information on viewing photos, in **Help**, press the colour key **Keywords** and look up **Photos, Videos and Music**.

## Camcorder

For best quality, use an HDMI cable to connect the camcorder to the TV.

---

## Computer

You can connect your computer to the TV using a Ultra High Speed certified HDMI cable and use TV as a PC monitor.

\* Note for Nvidia Graphics card users:

If you connect your computer to TV via HDMI, Nvidia card may automatically output Variable Refresh Rate (VRR) video to TV when TV's HDMI Ultra HD setting is **Optimal (Auto Game)**. Please always ensure turn off VRR function in graphics card before you change TV's HDMI Ultra HD to **Optimal** or **Standard**, the TV UI selection **Optimal** or **Standard** will turn off VRR support in TV.

\* Note for AMD Graphics card users:

If you connect your computer to TV via HDMI, please ensure following settings in graphics card used to have proper performance.

- If graphics card output video is 4096 x 2160p or 3840 x 2160p and RGB pixel format is used, RGB 4:4:4 pixel format studio (limited RGB) shall be set in computer graphic card.

- If graphics card output video is 2560 x 1440p 120Hz and RGB pixel format is used, RGB 4:4:4 Pixel Format PC Standard (Full RGB) shall be set in computer graphic card.

# Connect your Android TV

## Network and Internet

### Home Network

To enjoy the full capabilities of your Philips Android TV, your TV must be connected to the Internet.

Connect the TV to a home network with a high-speed Internet connection. You can connect your TV wirelessly or wired to your network router.

### Connect to Network

#### Wireless Connection

##### What You Need

To connect the TV to the Internet wirelessly, you need a Wi-Fi router with a connection to the Internet.

Use a high-speed (broadband) connection to the Internet.

##### Turn Wi-Fi On or Off

⚙ Settings > Wireless and Networks > Wired or Wi-Fi > Wi-Fi On/Off.

##### Make the Connection

⚙ Settings > Wireless and Networks > Wired or Wi-Fi > Connect to Network > Wireless.

1 - In the list of found networks, select on your wireless network. If your network is not in the list because the network name is hidden (you switched off the SSID broadcast of the router), select Add New Network to enter the network name yourself.

2 - Depending on the type of router, enter your encryption key - WPA2 or WPA3. If you entered the encryption key for this network before, you can

select OK to make the connection immediately.  
3 - A message will be shown when the connection is successful.

### Problems

#### Wireless network not found or distorted

- Microwave ovens, DECT phones or other Wi-Fi 802.11b/g/n/ac devices in your proximity might disturb the wireless network.
- Make sure that the firewalls in your network allow access to the TV's wireless connection.
- If the wireless network does not work properly in your home, try the wired network installation.

#### Internet does not work

- If the connection to the router is OK, check the router connection to the Internet.

#### The PC and Internet connection are slow

- Look in your wireless router's user manual for information on indoor range, transfer rate and other factors of signal quality.
- Use a high-speed (broadband) Internet connection for your router.

#### DHCP

- If the connection fails, you can check the DHCP (Dynamic Host Configuration Protocol) setting of the router. DHCP should be switched on.

In Help, press the colour key **— Keywords** and look up **Troubleshooting** for more information.

### Wired Connection

#### What You Need

To connect the TV to the Internet, you need a network router with a connection to the Internet. Use a high-speed (broadband) connection to the Internet.

---

## What You Need

To connect the TV to the Internet, you need a network router with a connection to the Internet. Use a high-speed (broadband) connection to the Internet.

---

## Make the Connection

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Connect to Network > Wired.

- 1 - Connect the router to the TV with a network cable (Ethernet cable\*\*).
- 2 - Make sure that the router is switched on.
- 3 - The TV constantly searches for the network connection.
- 4 - A message will be shown when the connection is successful.

If the connection fails, you can check the DHCP setting of the router. DHCP should be switched on.

\*\*To fulfill EMC regulations, use a shielded FTP Cat. 5E Ethernet cable.

---

## Network Settings

### View Network Settings

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > View Network Settings.

You can view all current network settings here. The IP and MAC address, signal strength, speed, encryption method, Address/Netmask/Gateway/DNS of IPv4 or IPv6, etc.

### Network Configuration - Static IP

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Network Configuration > Static IP.

If you are an advanced user and want to install your network with Static IP addressing, set the TV to Static

IP.

### Network Configuration - Static IP Configuration

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Network Configuration > Static IP Configuration.

- 1 - Select Static IP Configuration and configure the connection.
- 2 - You can set the number for IP Address, Netmask, Gateway, DNS 1, or DNS 2.

### Switch On with Wi-Fi (WoWLAN)

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Switch On with Wi-Fi (WoWLAN).

You can switch this TV on from your smartphone or tablet if the TV is in Standby. The setting Switch On with Wi-Fi (WoWLAN) must be switched on.

### Switch on with Chromecast

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Switch on with Chromecast.

Set it **On** to allow this TV to be switched on from a Chromecast app on your mobile device. Power consumption of the TV in standby status will be higher when switched this on. The Wi-Fi (WoWLAN) setting should be turned on firstly before you can change the setting of **Switch on with Chromecast**.

### Digital Media Renderer - DMR

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Digital Media Renderer - DMR.

If your media files do not play on your TV, make sure that the Digital Media Renderer is switched on. As a factory setting, DMR is switched on.

### Switch on Wi-Fi connection

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Wi-Fi On/Off.

You can switch on or off Wi-Fi connection on your TV.

### Clear Internet Memory

⚙️ **Settings** > Wireless and Networks > Wired or Wi-Fi > Clear Internet Memory.

With Clear Internet Memory you clear your Philips server registration and parental rating settings, your video store app logins, all Smart TV Collection favourites, Internet bookmarks and history. Interactive

MHEG applications can also save so-called 'cookies', on your TV. These files will also be cleared.

---

9.2

## Google Account

---

### Sign In

To enjoy the full capabilities of your Philips Android TV, you can sign in to Google with your Google Account.

By signing in you'll be able to play your favourite games across phone, tablet and TV. You'll also get customised video and music recommendations on your TV home screen as well as access to YouTube, Google Play and other apps.

### Sign In

Use your existing **Google Account** to sign in to Google on your TV. A Google Account consists of an email address and a password. If you don't have an Google Account yet, use your computer or tablet to create one ([accounts.google.com](https://accounts.google.com)). To play games with Google Play, you need a Google+ profile. If you did not sign in during the first TV installation, you can always sign in later.

To sign in after you did the TV installation...

- 1 - Select **Settings** > **Android Settings** and press **OK**.
- 2 - Select **Account & Sign-In** and press **OK**.
- 3 - Select **Sign In** and press **OK**.
- 4 - Select **Use your remote** and press **OK**.
- 5 - With the on-screen keyboard, enter your email address and press **OK**.
- 6 - Enter your password and press **OK** to sign in.
- 7 - Press **←** (left) repeatedly if necessary, to close the menu.

---

## Android Settings

You can set or view several Android specific settings or information. You can find the list of apps installed on your TV and the storage space they need. You can set the language you like to use with Voice Search. You can configure the onscreen keyboard or allow apps to use your location. Explore the different Android settings. You can go to [www.support.google.com/androidtv](http://www.support.google.com/androidtv) for more information on these settings.

To open these settings...

- 1 - Select **Settings** > **Android Settings**, and press **OK**.
- 2 - Explore the different Android settings.
- 3 - Press **←** **Back** if necessary, to close the menu.

---

9.3

## Smart TV Collection App

---

### Featured Apps page

All your premium apps are available within the Smart TV Collection app, under Featured apps section. Launch it using the banner on the **Apps** row.

Smart TV Collection apps are made specially for TV. Downloading and installing Smart TV Collection apps are free of charge. The Smart TV Collection of apps can differ per country or region. The Smart TV Collection will also contain recommendations for new Apps and more.

Some Smart TV Collection apps are pre-installed on your TV. To install other apps from Smart TV Collection, you will be asked to agree to the Terms of Use. You can set the Privacy Settings according to your preference.

To install an app from the Smart TV Collection...

- 1 - Press **HOME**.
- 2 - Select **Smart TV Collection** and press **OK**. It will open the Featured apps section.
- 3 - Select the "All" tab and press **OK**. It will display all the apps that are available to the user, including the installed ones.
- 4 - Browse through the apps and select the app icon that you want to install, and press **OK**. It will open the App info page.
- 5 - Select the **Install** button and press **OK** to install the app.

The installed app found in the Apps page, which can be opened from the Android Home screen by pressing the Apps icon at the left end of the **Apps** row.

---

## Terms of Use

To install and use the Smart TV Collection apps, you must agree to the Terms of Use. If you did not agree to these terms during the first TV installation, you can always agree to them later. The moment you agree to the Terms of Use, some apps will be available immediately and you can browse the Smart TV Collection to install other apps.

To agree on the Terms of Use after you did the TV installation...

- 1 - Press **HOME**, select **Smart TV Collection** and press **OK**. Press the **Options** key to open the Options menu.
- 2 - You can select **Terms of Use**, then press **OK** to read.
- 3 - Select **Accept** and press **OK**. You cannot undo this approval.

4 - Press ← Back to close the menu.

---

## Privacy Settings

You can set some privacy settings for the Smart TV Collection apps.

- You can allow technical statistics to be send to Philips.
- You can allow personal recommendations.
- You can allow cookies.
- You can switch on the Child Lock for 18+ rated apps.

To set the Smart TV Collection privacy settings...

1 - Press  HOME, select  Smart TV Collection and press OK. Press the Options key to open the Options menu.

2 - You can select Privacy setting, then press OK.

3 - Select each setting and press OK to allow or disallow. You can read about each setting in detail.

4 - Press ← Back to close the menu.

# Apps

## About Apps

You can find your favourite Apps on **Apps** row in the Home menu.

Like apps on your smartphone or tablet, the apps on your TV offer specific functions for an enriched TV experience. Apps like YouTube, games, video stores or weather forecasts (a.o.). You can use the Internet Browser app to surf the Internet.

Apps can come from the **Smart TV Collection** or the **Google Play™ Store** . To get you started, some practical apps are pre-installed on your TV.

To install apps from the **Smart TV Collection** or the **Google Play™ Store** , the TV must be connected to the Internet. You must agree to the Terms of Use to use apps from the **Smart TV Collection**. You must sign in with a Google Account to use the Google Play apps and Google Play™ Store .

## Google Play

### Movies and TV

With **Google Play Movies & TV** , you can rent or buy movies and TV shows to watch on TV.

#### What You Need

- your TV must be connected with the Internet
- you must sign in with your Google Account on TV
- add a credit card to your Google Account to purchase movies and TV shows

To rent or buy a movie or TV show...

- 1 - Press  HOME.
- 2 - Select **Google Play Movies & TV**.
- 3 - Select a movie or TV show and press **OK**.
- 4 - Select the purchase you want and press **OK**. You will be taken through the purchase procedure.

To watch a rented or bought movie or TV show...

- 1 - Press  HOME.
- 2 - Select **Google Play Movies & TV**.
- 3 - Select the movie or TV show from your library in the app, select the title and press **OK**.
- 4 - You can use the  (stop),  (pause),  (rewind) or  (fast forward) keys on the remote control.
- 5 - To stop the **Movies & TV** app, press  **Back** repeatedly or press  **EXIT**.

If the App is not on your Home screen, you can add

via the Apps page or by the **Add app to favourites** item on the **Apps** row. Some Google Play products and features aren't available in all countries.

Find more information on [www.support.google.com/androidtv](http://www.support.google.com/androidtv)

## Music

With **YouTube Music**, you can play your favourite music on TV.

#### What You Need

- your TV must be connected with the Internet
- you must sign in with your Google Account on TV

To start **YouTube Music**...

- 1 - Press  HOME.
- 2 - Select **YouTube Music**.
- 3 - Select the music you want and press **OK**.
- 4 - To stop the Music app, press  **Back** repeatedly or press  **EXIT**.

If the App is not on your Home screen, you can add via the Apps page or by the **Add app to favourites** item on the **Apps** row. Some Google Play products and features aren't available in all countries.

Find more information on [www.support.google.com/androidtv](http://www.support.google.com/androidtv)

## Games

With **Google Play Games**, you can play games on TV. Online or offline.

You can see what your friends are playing currently or you can join the game and compete. You can track your achievements or start wherever you left off.

#### What You Need

- your TV must be connected with the Internet
- you must sign in with your Google Account on TV
- add a credit card to your Google Account to purchase new games

Start the **Google Play Games** app to select and install new game apps on your TV. Some games are free of charge. A message appears if a particular game needs a gamepad to play the game.

To start or stop a **Google Play Game**...

- 1 - Press  HOME.
- 2 - Select **Google Play Games**.
- 3 - Select a game to play or select a new game to install and press **OK**.
- 4 - When done, press  **Back** repeatedly or press  **EXIT** or stop the app with its dedicated exit/stop button.

If the App is not on your Home screen, you can add

via the Apps page or by the **Add app to favourites** item on the **Apps** row. Some Google Play products and features aren't available in all countries.

Find more information  
on [www.support.google.com/androidtv](http://www.support.google.com/androidtv)

---

## Google Play Store

From the Google Play Store you can download and install new apps. Some apps are free of charge.

### What You Need

- your TV must be connected with the Internet
- you must sign in with your Google Account on TV
- add a credit card to your Google Account to purchase apps

To install a new app...

- 1 - Press  HOME.
- 2 - Select **Google Play Store** and press **OK**.
- 3 - Select the app you want to install and press **OK**.
- 4 - To close the **Google Play Store**, press  **Back** repeatedly or press  **EXIT**.

### Parental controls

In the Google Play Store, you can hide apps according to users/buyers maturity. You need to enter a PIN code to select or change the level of maturity.

To set the parental control...

- 1 - Press  HOME.
- 2 - Select **Google Play Store** and press **OK**.
- 3 - Select **Settings > Parental controls**.
- 4 - Select the level of maturity you want.
- 5 - On request, enter the PIN code.
- 6 - To close the **Google Play Store**, press  **Back** repeatedly or press  **EXIT**.

If the App is not on you Home screen, you can add it via the Apps page or by the **Add app to favourites** item on the **Apps** row. Some Google Play products and features aren't available in all countries.

Find more information  
on [www.support.google.com/androidtv](http://www.support.google.com/androidtv)

---

## Payments

To make a payment on Google Play on TV, you must add a form of payment - a credit card (outside the United States) - to your Google Account. When you purchase a movie or TV show, you will be charged on this credit card.

To add a credit card ...

- 1 - On your computer, go to [accounts.google.com](http://accounts.google.com) and sign in with the Google Account you will use with Google Play on TV.
- 2 - Go to [wallet.google.com](http://wallet.google.com) to add a card to your

Google Account.

3 - Enter your credit card data and accept the terms and conditions.

---

10.3

## Start or Stop an App

You can start an app from the Home screen.

To start an app...

- 1 - Press  HOME.
- 2 - Move to **Apps** row, select the app you want and press **OK**.
- 3 - To stop an app, press  **Back** or press  **EXIT** or stop the app with its dedicated exit/stop button.

When opening the Home screen, the background application/content playback will stop. You have to select the application or content from the Home screen to resume.

---

10.4

## Lock Apps

---

### About App Locks

You can lock apps unsuited for children. You can lock 18+ rated apps or set up a restricted profile in the Home menu.

#### 18+

The 18+ app lock will ask for a PIN code when you try to start an 18+ rated app. This lock is only valid for 18+ rated apps from the Philips apps.

#### Restricted profile

You can set up a restricted profile for the Home menu where only the apps you allow are available. You need to enter a PIN code to set up and switch on the restricted profile.

#### Google Play Store - Maturity

In the Google Play Store, you can hide apps according to users/buyers maturity. You need to enter a PIN code to select or change the level of maturity. The level of maturity will determine which apps are available for installation.

---

## Lock 18+ rated apps

You can lock 18+ rated apps from the Philips apps. This setting controls the 18+ setting in the Philips apps Privacy Settings.

To lock 18+ rated apps...

- 1 - Select **Settings** > **Child Lock**, select App Lock and press **OK**.
- 2 - Select **On** and press **OK**.
- 3 - Press **←** (left) repeatedly if necessary, to close the menu.

For more information, in **Help**, press the colour key **Keywords** and look up **Child Lock**, **App Lock** for more information.

---

## Restricted Profile

### About Restricted Profile

You can restrict the use of certain apps by switching the TV to a restricted profile. The Home menu will only show the apps you allowed. You need a PIN code to switch out of the restricted profile.

With the TV switched to a restricted profile you cannot...

- Find or open apps which are marked as Not allowed
- Access the Google Play Store
- Purchase through Google Play Movies & TV, nor Google Play Games
- Use third-party apps that don't use the Google sign-in

With the TV switched to a restricted profile you can...

- Watch content already rented or purchased from Google Play Movies & TV
- Play games already purchased and installed from Google Play Games
- Access the following settings: Wi-Fi network, Speech and Accessibility
- Add Bluetooth® accessories

The Google Account on TV will stay logged in. Using a restricted profile doesn't change the Google Account.

---

### Set Up

To set up the restricted profile...

- 1 - Select **Settings** > **Android Settings** and press **OK**.
- 2 - Press **▼** (down) and select **Device Preferences**.
- 3 - Select **Storage** > **Internal shared storage** > **Apps** > **Security and restrictions** and press **OK**.
- 4 - Select **Create restricted profile** and press **OK**.
- 5 - Enter a PIN code with the remote control.
- 6 - On **Allowed apps** page you can see the list of

available apps, select an app and press **OK** to allow or not allow this app.

7 - Press **← Back** to go back one step or press **TV EXIT** to close the menu.

Now you can enter the restricted profile.

With the PIN code, you can always change the PIN code or edit the list of allowed or not allowed apps.

---

### Enter and Exit

To enter (switch to) the restricted profile...

- 1 - Select **Settings** > **Android Settings** and press **OK**.
- 2 - Press **▼** (down) and select **Device Preferences**.
- 3 - Select **Storage** > **Internal shared storage** > **Apps** > **Security and restrictions** and press **OK**.
- 4 - Select **Enter restricted profile** and press **OK**.
- 5 - Enter a PIN code with the remote control.
- 6 - Press **← Back** to go back one step or press **TV EXIT** to close the menu.

To exit the restricted profile...

- 1 - Select **Settings** > **Android Settings** and press **OK**.
- 2 - Select **Privacy** > **Security and restrictions** and press **OK**.
- 3 - Select **Exit restricted profile** and press **OK**.
- 4 - Enter a PIN code with the remote control.
- 5 - Press **← Back** to go back one step or press **TV EXIT** to close the menu.

---

### Delete

To delete the restricted profile...

- 1 - Select **Settings** > **Android Settings** and press **OK**.
- 2 - Press **▼** (down) and select **Device Preferences**.
- 3 - Select **Storage** > **Internal shared storage** > **Apps** > **Security and restrictions** and press **OK**.
- 4 - Select **Delete restricted profile** and press **OK**.
- 5 - Enter the PIN code. The TV will delete the restricted profile.

---

## 10.5

## Manage Apps

If you stop an app and return to the Home menu, the app is not really stopped. The app is still running in the background to be readily available when you start it again. To run fluently, most apps need to save some data in the cache memory of the TV. It might be good to stop an app completely or clear the cache data of

a particular app to optimise the overall performance of apps and to keep memory usage low on your Android TV. Also, it is best to uninstall apps that you are not using anymore.

---

10.6

## Storage

You can see how much storage space - the internal TV memory - you are using for your apps, videos, music, etc. You can see how much free space you still have available for installing new apps. Check your storage if apps start to run slow or in case of app trouble.

To see how much storage you are using...

- 1 - Select **⚙️Settings** > **Android Settings** and press **OK**.
- 2 - Select **Device Preferences** > **Storage** > **Internal shared storage** and press **OK**.
- 3 - View the storage usage of the TV memory.
- 4 - Press **← Back** to go back one step or press **TV EXIT** to close the menu.

### USB Hard Drive

If you connect a USB Hard Drive, you can use the drive to extend the TV memory to store more apps. Allow the USB Hard Drive to be used as an additional TV memory during the formatting process. The TV will try to store new apps on the USB Hard Drive first. Some apps do not allow to be stored on a USB Hard Drive.

To migrate your existing data, go to **⚙️Settings** > **Android Settings** > **Device Preferences** > **Storage** and select the USB Hard Drive.

# Internet

---

## 11.1

### Start Internet

You can browse the Internet on your TV. You can view any Internet website but most of them are not prepared for a TV screen.

- Some plug-ins (e.g. to view pages or videos) are not available on your TV.
- You cannot send or download files.
- Internet pages are shown one page at a time and full screen.

To start the Internet browser...

- 1 - Press  HOME.
- 2 - Select **Apps** > **Internet Browser** and press **OK**.
- 3 - Enter an Internet address and select to confirm.
- 4 - To close Internet, press  HOME or  EXIT.

\* Note: If **Internet Browser** is not on your **Apps** row, you can press + icon on the end of the row to add the app.

---

## 11.2

### Options on Internet

Some extras are available for the Internet.

To open the extras...

- 1 - With the website open, press **+** **OPTIONS**.
  - 2 - Select one of the items and press **OK**.
- Add to speed dial: To enter a new Internet address.
  - Add to bookmarks: Add the page as bookmark
  - Page security: To view the security level of the current page.
  - New private tab: Open new private tab, and have private browsing
  - Settings: Settings for Zoom, Text size, Accessibility mode, Always show menu bar, and clear (browsing) history
  - About: Internet browser information
  - Exit Internet browser: Close Internet browser

# Quick Menu

You can use the Quick Menu as your Home menu. In the Quick Menu, you will find a quick way to access TV functions.

To open Quick Menu and open an item...

- 1 - Press  to open Quick Menu.
- 2 - Select an item and press **OK** to open or start it.
- 3 - Press **← Back** to close Quick Menu without starting anything.

# Sources

## 13.1

### Switch to a device

From the list of Sources, you can switch to any of the connected devices. You can switch to a tuner to watch TV, open the content of a connected USB Flash Drive or see the recordings you made on a connected USB Hard Drive. You can switch to your connected devices to watch their programme, a digital receiver or a Blu-ray Disc player.

To switch to a connected device...

- 1 - Press **SOURCES** to open the Sources menu.
- 2 - Select one of the item in the source list and press **OK**. The TV will show the programme or content of the device.

#### One Touch Play

With the TV in standby, you can switch on a disc player with your TV remote control. To switch on both disc player and TV from standby and start playing the disc immediately, press **(play)** on the TV remote control. The device must be connected with an HDMI cable and both TV and device must have HDMI CEC switched on.

## 13.2

### Options for a TV Input

Some TV input devices offer specific settings.

To set the options for a specific TV input...

- 1 - Press **SOURCES**.
- 2 - Select the TV input in the list and press **OK**.
- 3 - Press **+ OPTIONS**. You can set the options for the selected TV input here.
- 4 - Press **+ OPTIONS** again to close the Options menu.

Possible options...

#### Controls

With this option you can operate the connected device with the TV remote control. The device must be connected with an HDMI cable and both TV and device must have HDMI CEC switched on.

#### Screen off

Select **Screen off** to switch off the TV screen. To switch the TV screen back on, press any key on the remote control.

#### Device Info

Open this option to view information on the

connected device.

## 13.3

### Device Name and Type

When you connect a new device to the TV and the TV detects the device, you can assign an icon that fits the device type. If you connect a device with an HDMI cable and HDMI CEC, the TV detects the device type automatically and the device gets an appropriate icon.

The device type determines picture and sound styles, resolution values, specific settings or the position within the Sources menu. You don't have to worry about the ideal settings.

#### Rename or Change Type

You can always change the name or change the type of a connected device. Look for the **+** icon at the right of the device name in the Sources menu. Some TV input sources do not allow a name change.

To change the device type...

- 1 - Select the device in the Sources menu and press **+ OPTIONS**.
- 2 - Press **← Back** to hide the on-screen keyboard.
- 3 - Press **▼ (down)** to find all available device types. Select the type you want and press **OK**.

- 4 - If you want to reset the type of the device to the original connector type, select **Reset** and press **OK**.
- 5 - Select **Close** and press **OK** to close this menu.

To change the device name...

- 1 - Select the device in the Sources menu and Press **+ OPTIONS**.
- 2 - Use the on-screen Keyboard to delete the current name and enter a new one. Press **✓** to confirm.
- 3 - Press **← Back** to hide the on-screen keyboard.
- 4 - If you want to reset the name of the device to the original connector name, select **Reset** and press **OK**.
- 5 - Select **Close** and press **OK** to close this menu.

## 13.4

### Rescan Connections

You can rescan all TV connections to update the Sources menu with recently connected devices.

To rescan the connections...

- 1 - Press **SOURCES** to open the Sources menu.
- 2 - Press **▲ (up)** to select the **🔄** icon at the top right of the Sources menu.
- 3 - Press **OK** to start scanning the connections.

Newly connected devices will be added to the Sources menu.

# Networks

---

## 14.1

## Network

For more information, in **Help**, press the colour key **— Keywords** and look up **Network**, for more information on connecting the TV to a network.

---

## 14.2

## Bluetooth®

---

### Pairing a Device

## Picture

### Picture Settings

#### AI Picture Style

##### Select a style

 Quick Menu > Frequent Settings > AI Picture style.

For easy picture adjustment, you can select a preset picture style.

- Personal - The picture preferences you set during the first start up.
- Crystal Clear - Ideal for daylight viewing.
- Home Cinema - Ideal for daily movie home entertainment experience.
-  ECO - Most energy conscious setting - Factory setting.
- Filmmaker Mode - Ideal for watching movies with original studio effect.
- Game / Game (VRR)\* - Ideal for playing games. Game (VRR) is only available when VRR video source detected.
- Monitor\*\* - Ideal for computer application display. Original video is displaying with minimum processing.
- Expert 1 - For calibration purpose, you can press the colour key  **APPLY ALL** to copy the calibrated settings to all sources.
- Expert 2 - For calibration purpose, you can press the colour key  **APPLY ALL** to copy the calibrated settings to all sources.
- Calman - For Calman colour Calibration

\* Picture style - Game / Game (VRR) is only available in HDMI video and streaming video apps application.

\*\* Picture style - Monitor is only available when HDMI source video is applicable for PC application.

When TV receives HDR signal (Hybrid Log Gamma, HDR10 and HDR10+), select a picture style below:

- HDR Personal
- HDR Crystal Clear
- HDR Home Cinema
- HDR Filmmaker Mode
- HDR IMAX Enhanced
- HDR Game or HDR Game (VRR), depending on the video source
- HDR Monitor
- Expert 1 - For calibration purpose
- Expert 2 - For calibration purpose
- HDR Calman - For Calman colour Calibration

When TV receives Dolby Vision HDR signal, select a

picture style below:

- HDR Personal
- HDR Crystal Clear
- Dolby Vision Bright
- Dolby Vision Dark
- Dolby Vision Game

##### Restore a Style

- 1 - Select the picture style you want to restore.
- 2 - Press the colour key  Restore style, and press OK. The style is restored.

#### Customise a Style

Any picture setting you adjust, like Colour or Contrast, is stored in the currently selected **Picture Style**. It allows you to customise each style.

Only the style **Personal** can save its settings for each source in the Sources menu.

#### Colour, Contrast, Sharpness, Black Level

##### Adjust the picture colour

 **Settings** > **Picture** > **Colour**.

Press the arrows  (up) or  (down) to adjust the colour saturation value of the picture.

##### Adjust the picture contrast

 **Settings** > **Picture** > **Backlight contrast** or **OLED contrast**.

Press the arrows  (up) or  (down) to adjust the contrast value of the picture.

You can decrease contrast value to reduce power consumption.

##### Adjust the picture sharpness

 **Settings** > **Picture** > **Sharpness**.

Press the arrows  (up) or  (down) to adjust the sharpness value of the picture.

##### Adjust the black level of picture

 **Settings** > **Picture** > **Black level**.

Press the arrows  (up) or  (down) to set the black level of picture.

**Note:** Setting of black level much away from reference value (50) may result lower contrast (dark detail disappear or black picture become grey).

---

## Advanced Picture

---

### Picture Clean

#### Noise reduction

⚙ Settings > Picture > Advanced > Picture clean > Noise reduction.

Select Maximum, Medium, or Minimum to set the level for removing the noise in video content. Noise is mostly visible as small moving dots in on-screen picture.

#### MPEG Artefact Reduction

⚙ Settings > Picture > Advanced > Picture clean > MPEG Artefact Reduction.

Select Maximum, Medium, or Minimum to have different degrees of smoothing the artefacts in digital video content. MPEG artefacts are mostly visible as small blocks or jagged edges in on-screen images.

---

## Advanced Sharpness Settings

---

### Ultra Resolution

⚙ Settings > Picture > Advanced > Sharpness > Ultra Resolution.

Select On to have a superior sharpness in line edges and details.

---

## Colour Settings

---

### Advanced Colour Settings

⚙ Settings > Picture > Advanced > Colour.

#### Adjust the tint setting

⚙ Settings > Picture > Advanced > Colour > Tint.

Press the arrows **▲** (up) or **▼** (down) to adjust the value of tint setting.

#### Adjust the colour enhancement

⚙ Settings > All settings > Picture > Advanced > Colour > Colour enhancement.

Select Maximum, Medium, or Minimum to set the level of the colour intensity and the details in bright colours.

Note: Not available when Dolby Vision signal is detected.

#### Adjust the colour gamut

⚙ Settings > All settings > Picture > Advanced > Colour > Colour gamut.

Select Normal or Wide to set the type of colour gamut. Applicable to some TV models only.

Note: Not available when wide colour gamut signal or Dolby Vision signal is detected.

#### Select the preset colour temperature

⚙ Settings > Picture > Advanced > Colour > Colour temperature.

Select Normal, Warm, or Cool to set the colour temperature for your preference.

Note: Not available when Ambient Intelligence > Colour temperature optimization is turned on.

#### Whitepoint alignment

⚙ Settings > Picture > Advanced > Colour > Whitepoint alignment.

Customise the whitepoint alignment based on the selected colour temperature of the picture. Press the arrows **▲** (up) or **▼** (down) to adjust the value.

Note: Not available when Ambient Intelligence > Colour temperature optimization is turned on.

#### Colour control (Hue, Saturation and Intensity)

⚙ Settings > Picture > Advanced > Colour > Colour control.

Press the arrows **▲** (up) or **▼** (down) to adjust the value of Hue, Saturation and Intensity for the colour Red, Yellow, Green, Cyan, Blue and Magenta. Press the colour key **■** Reset to reset the picture style. If you want to reset all value to default, select Reset all.

Note: Available only when picture style is Calman, Expert 1 or Expert 2.

#### RGB only mode

⚙ Settings > Picture > Advanced > Colour > RGB only mode.

Select Red, Green or Blue to switch picture as selected colour only, or select Off to turn off RGB mode.

Note: Available only when picture style is **Calman**, **Expert 1** or **Expert 2**.

---

## Advanced Contrast Settings

---

### Light Boost

⚙ Settings > Picture > Advanced > Contrast > Light boost.

Select **Off**, **Minimum**, **Medium** or **Maximum** to set the TV automatically reduces the contrast, for best power consumption or for best picture experience.

---

### HDR Settings

If you are watching HDR programmes – programmes recorded in HDR – there is no need to upscale to HDR and the HDR upscaling feature **Perfect Natural Reality** is unavailable. The TV will automatically switched to HDR mode with indication.

TV supports following HDR formats: Hybrid Log Gamma, HDR10, HDR10+ ADAPTIVE and Dolby Vision but it is subject to the availability of such HDR format in content providers.

### Perfect Natural Reality

⚙ Settings > Picture > Advanced > Contrast > Perfect Natural Reality.

Perfect Natural Reality improves the contrast and brightness impression to create HDR effect for standard sources. Not available when video content is supported HDR (High-Dynamic Range).

### HDR tone mapping

⚙ Settings > Picture > Advanced > Contrast > HDR tone mapping.

Set the method used in HDR tone mapping processing. **Off/HGiG** is to disable TV internal tone mapping or follow HGiG (HDR Gaming Interest Group) gaming HDR standard to matching gaming device. **Standard** is to follow HDR standard metadata. **Advanced** is to apply AI adaptive tone mapping.

Note: Available when HDR10 or HDR10+ signal detected.

### HDR Perfect

⚙ Settings > Picture > Advanced > Contrast > HDR Perfect.

Set **HDR Perfect** to **Minimum**, **Medium** or **Maximum** to set the level of TV tone mapping to show superior contrast effect for HDR content.

Note: Available when HDR HLG (Hybrid Log Gamma) signal is detected or HDR10/HDR10+ signal is detected and HDR tone mapping selection is not **Off/HGiG**.

---

### Perfect Contrast

⚙ Settings > Picture > Advanced > Contrast > Perfect contrast.

Select **Maximum**, **Medium**, or **Minimum** to set the level at which the TV automatically enhances the details in the dark, middle and light areas of the picture.

Note: Not available when HDR signal is detected. Not available in **Monitor** mode.

---

### Video Contrast, Gamma

#### Video contrast

⚙ Settings > Picture > Advanced > Contrast > Video contrast.

Press the arrows **▲** (up) or **▼** (down) to adjust the video contrast level.

#### Gamma

⚙ Settings > Picture > Advanced > Contrast > Gamma.

Press the arrows **▲** (up) or **▼** (down) to set a non-linear setting for picture luminance and contrast.

Note: Not available on some models when **Ambient Intelligence > Dark detail optimization** is set to **On**.

---

### VRR Shadow Enhancer

#### VRR shadow enhancer

⚙ Settings > Picture > Advanced > Contrast > VRR shadow enhancer.

Set the feature **On** to allow TV automatically preserve black shadow performance during VRR (variable refresh rate) gaming. Only available in some TV models when picture style is **Game**, **HDR Game**, **Monitor**, **HDR Monitor** or **Dolby Vision Game**.

---

### Motion Settings

---

## Motion Styles

⚙ Settings > Picture > Advanced > Motion > Motion styles.

Motion styles provides optimised motion setting modes for different video content.

Select one of the motion styles to have different viewing experience on motion video. (Off, Pure Cinema, Movie, Standard, Smooth, Personal)

Not available for below cases:

- ⚙ Settings > Picture > Picture style > Monitor
- ⚙ Settings > Picture > Picture style > Game

---

## Perfect Natural Motion

### Perfect Natural Motion

⚙ Settings > Picture > Advanced > Motion > Perfect Natural Motion.

Perfect Natural Motion makes picture movement smooth by removing judder.

Select from 0 to 10 to have different degress for reducing the motion judder, visible in movies on TV. Select 0 when noise appears in playing moving picture on-screen.

**Note:** Only available when Motion styles set to Personal.

### Perfect Clear Motion

⚙ Settings > Picture > Advanced > Motion > Perfect Clear Motion.

Perfect Clear Motion makes picture movement clear and sharp.

Select from 0 to 10 to have different degress for reducing motion blur. Visible in movies on TV. Select 0 when noise appears in playing moving picture on-screen.

**Note:** Only available when Motion styles set to Personal.

---

## Ambient Intelligence

### Eye care

⚙ Settings > Picture > Ambient Intelligence > Eye care.

Switch on to automatically reduce eye strain under different ambient light conditions.

### Dark detail optimization

⚙ Settings > Picture > Ambient Intelligence > Dark detail optimization.

Select on to automatically enhance dark details based on the ambient light conditions.

### Colour temperature optimization

⚙ Settings > Picture > Ambient Intelligence > Colour temperature optimization.

Select on to automatically optimize the colour temperature based on the ambient light conditions.

---

## Picture Format

If the picture is not filling the whole screen, if black bars are showing on the top or bottom or at both sides, you can adjust the picture to fill the screen completely.

To select one of the basic settings to fill the screen...

1 - Press  Quick Menu > Frequent Settings > Picture Format > Fill Screen, Fit to Screen, Wide Screen and Original, and press OK.  
2 - Press ◀ (left) repeatedly if necessary, to close the menu.

- **Fill Screen** – automatically enlarges the picture to fill the screen. Picture distortion is minimal, subtitles remain visible. Not suitable for PC input. Some extreme picture content can still show black bars. Picture content aspect ratio may change.
- **Fit to Screen** – automatically zooms in the picture to fill the screen without distortion. Black bars may be visible. Not suitable for PC input.
- **Wide Screen** – automatically zooms in the picture to 16:9 full screen. Picture content aspect ratio may change.
- **Original** – automatically zooms in the picture to fit the screen with original aspect ratio. No content lost visible.

To format the picture manually...

1 - Press  Quick Menu > Frequent Settings > Picture Format > Advanced and press OK.  
2 - Use Shift, Zoom, and Stretch to adjust the picture.  
3 - Or select Undo to return to the setting the picture had when you opened Picture Format.

- **Shift** – Select on the arrows to shift the picture. You can only shift the picture when it is zoomed in.
- **Zoom** – Select on the arrows to zoom in.
- **Stretch** – Select on the arrows to stretch the picture vertically or horizontally.
- **Undo** – Select to return to the picture format you started with.

Some Picture format setting selections may not be available in some conditions. For example, in video steaming, Android app application, gaming mode, etc.

---

## Dolby Vision Notification

⚙ Settings > Picture > Dolby Vision notification.

Switch **On** or **Off** the Dolby Vision notification when Dolby Vision content begins to play on your TV.

---

## Quick Picture Setting

During the first installation, you did some picture settings in a few easy steps. You can redo these steps with **Quick Picture Setting**.

To set the picture in a few easy steps...

- 1 - Select **⚙Settings** > **Picture** and press **➤** (right) to enter the menu.
- 2 - Select **Quick Picture Setting**, and press **OK**.
- 3 - Use the navigation keys to select your preferable contrast, colour and sharpness settings.
- 4 - Select **Finish** or press **◀** (left) repeatedly if necessary, to close the menu.

---

15.2

## Sound

---

### Sound Style

Select a style

🗂 Quick Menu > Frequent Settings > Sound style.

For easy sound adjustment, you can select a preset setting with sound style.

- **AI mode** - There are ideal styles for watching movies, listening to music or playing a game. Select AI mode for intelligent switching of sound style base on audio content.
- **Original** - Most neutral sound setting
- **Entertainment** - Ideal for watching movies
- **Music** - Ideal for listening to music
- **Spatial Music** - Ideal for gaming
- **Dialogue** - Ideal for speech
- **Personal** - Access to a more in depth sound settings.

**Restore Personal mode**

- 1 - Set the sound style to Personal mode.
- 2 - Press the colour key **■ Restore Style**, and press OK. The style is restored.

**Customise Personal mode**

- 1 - Set the sound style to Personal mode.
- 2 - Press the colour key **■ Customise**, and press OK to change Personal mode settings.

---

## Headphone Volume

Headphone volume

⚙ Settings > Sound > Headphone volume.

Press the arrows **▲** (up) or **▼** (down) to adjust the volume of a connected headphone separately.

---

## Personal Mode Settings

Speaker virtualizer

⚙ Settings > Sound > Personal mode settings > Speaker virtualizer.

Select **On** or **Auto (Dolby Atmos)** to enable Dolby Atmos which can add height dimension in sound. With height dimension, sound can be precisely placed and moved in three-dimensional space.

Clear dialogue

⚙ Settings > Sound > Personal mode settings > Clear dialogue > **On**.

Select **On** to get an improved sound quality for speech programme.

AI Equalizer

⚙ Settings > Sound > Personal mode settings > AI Equalizer.

Select **On** to enable intelligent equalizer adjustment based on audio content and custom settings.

Custom AI Equalizer

⚙ Settings > Sound > Personal mode settings > Custom AI Equalizer.

Press the arrows **▲** (up) or **▼** (down) to adjust the level of AI Equalizer.

---

## TV Placement

TV placement

⚙ Settings > Sound > TV placement.

Select **On a TV stand** or **On the wall** to have best sound reproduction according to the setting.

---

## DTS Play-Fi

---

### DTS Play-Fi Wireless Surround

#### DTS Play-Fi

⚙ Settings > Sound > DTS Play-Fi.

With DTS Play-Fi on your Philips TV, you can connect to compatible speakers to stream audio wirelessly to other rooms in your house.

Note: Settings for Multiroom TV Audio are not available when connected to the DTS Play-Fi Headphones app or playing music from the DTS Play-Fi app.

To stream audio wirelessly to speakers, you will need...

- Philips Android Smart TV that supports DTS Play-Fi
- DTS Play-Fi compatible device
- DTS Play-Fi app on your Philips TV
- Mobile device such as your phone or tablet
- DTS Play-Fi, DTS Play-Fi Headphones, or Philips Sound app installed on your phone or tablet
- Wi-Fi network

#### Setup to connect DTS Play-Fi compatible device

- 1 - Download DTS Play-Fi, DTS Play-Fi Headphones, or Philips Sound app and install the App on your phone or tablet.
- 2 - Use DTS Play-Fi, DTS Play-Fi Headphones, or Philips Sound app to search and setup DTS Play-Fi compatible device. Make sure the DTS Play-Fi device is connected with same Wi-Fi network of your TV.
- 3 - On your Philips TV, open the pre-installed DTS Play-Fi app and select **Connect Speakers** to search DTS Play-Fi compatible devices.
- 4 - When the DTS Play-Fi devices is successfully connected with your TV, you can select the devices from device list and adjust the volume.
- 5 - Now you can start to stream audio from your TV to multiple DTS Play-Fi devices.

### DTS Play-Fi Wireless Surround

With Play-Fi app on your TV, you can set up surround sound with TV speakers, soundbar and subwoofer.

- 1 - Launch DTS Play-Fi App on TV
- 2 - Move to **DTS Play-Fi Wireless Surround** tab and select '**Begin Setup...**'.
- 3 - Follow the on-screen instruction to set TV speakers and DTS Play-Fi compatible devices as a surround sound system.

---

## DTS Play-Fi Home Theater

Experience immersive home theater audio with Play-Fi wireless subwoofers, soundbars, front speakers, surround speakers, or a Play-Fi receiver that powers home theater speakers.

#### Play-Fi Speakers as Front TV Speakers

- You may output TV audio to a pair of Play-Fi speakers such as the TAW6205, TAW6505 or TAFW1.
- TV speakers will be muted when connected to Play-Fi speakers.
- Use the Play-Fi app on TV to set up the Play-Fi speakers.

1 - Select **Play-Fi Wireless Home Theatre**

2 - Select **Two** as the Front Speakers

3 - Follow the setup wizard to complete the setup.

#### Setup Home Theater system with your TV and Play-Fi Speakers

1 - On Play-Fi app, select **DTS Play-Fi Home Theater > Setup > Connect Speakers** to connect all of your Play-Fi devices. If the devices are already connected, you can select **My speakers are connected...** to go to next step.

2 - Setup to assign the **Front Speaker, Surround Speakers, Subwoofer** to connected Play-Fi devices. The graphic on left side will show the positions of the speakers.

3 - Suggest to use **TV+ Two** as it provides dedicated center channel for dialog clarity.

4 - Once the devices are assigned, select **Continue...** to complete the Home Theater system setup.

On **Settings** menu of Home Theater system. You can select **Distance To Speakers** to choose proper distance or select **Disable Home Theater, Disband Setup** if necessary.

Note:

1. Wireless surround/Stereo pair should proceed under Play-Fi Home Theater.
2. The features depend on TV model and Play-Fi speakers in use.

---

## Mimi Sound Personalization settings

### Mimi Sound Personalization settings

⚙ Settings > Sound > Mimi Sound Personalization settings.

#### Mimi Sound Personalization

Mimi Sound Personalization is a technology that adapts the audio signal of the TV in real time to the user's hearing ability. It restores details in the audio signal that would otherwise not be heard by users with less-than-perfect hearing, so that they hear more and experience better sound, thereby enhancing the TV viewing experience.

## How do I test my hearing and set up my hearing profile?

Open Mimi Sound Personalization under  Settings > Sound > Mimi Sound Personalization settings > Configure. Create your Hearing ID with a short hearing test with the Mimi Hearing Test app, or create a profile based on your year of birth. The Hearing ID can be added to the television with a QR code, which will sync your Hearing Test app with the TV.

---

## EasyLink 2.0

Control the sound settings of the HDMI sound system via EasyLink 2.0

 Settings > Sound > EasyLink 2.0.

You can adjust the individual sound settings of the HDMI sound system via **Frequent settings** or **Settings > Sound**. This is only applicable with EasyLink 2.0 compliant HDMI sound system. To switch on the control, make sure the **EasyLink 2.0 sound control** menu item is set to **On** under **General settings > EasyLink**.

### Select sound style

 Settings > Sound > EasyLink 2.0 > Sound style.

Switch between the preset sound styles. There are ideal styles for watching movies, listening to music, or other sound contents.

- Movie - Ideal sound style for watching movie.
- Music - Optimised for listening to music.
- Voice - Enhanced the dialog in the vocals.
- Stadium - Gives a feel of a large open-air stadium.
- Custom - Personalised sound mode. The setting is only available when connected device is compatible with TV for the feature.

### Adjust bass level

 Settings > Sound > EasyLink 2.0 > Bass.

Press the arrows  (up) or  (down) to adjust the level of bass.

### Adjust treble level

 Settings > Sound > EasyLink 2.0 > Treble.

Press the arrows  (up) or  (down) to adjust the level of treble.

### Custom Equaliser

 Settings > Sound > EasyLink 2.0 > Custom Equaliser.

Adjustable frequency bands when the **Sound style** is set to **Custom**. Press the arrows  (up) or  (down) to adjust the level of AI Equalizer. The setting is only available when connected device is compatible with TV for the feature.

### Surround Sound

 Settings > Sound > EasyLink 2.0 > Surround Sound.

Select a surround effect from the preset types.

- Upmix - Upmix to take full advantage of all speakers.
- Standard - Speakers output follow the original channels.
- Voice - Enhanced the dialog in the vocals.
- Surround AI - Optimum surround effect using AI analysis.

### DRC

 Settings > Sound > EasyLink 2.0 > DRC.

Select the preferred Dynamic Range Control (DRC).

- Auto - Dynamic range is automatically adjusted.
- On - Optimize the dynamic range.
- Off - Turn off dynamic range adjustment.

### Height speakers

 Settings > Sound > EasyLink 2.0 > Height speakers.

Select the preferred height speakers movement. The setting is only available when connected device is compatible with TV for the feature.

- Auto - Dynamic movement follow contents.
- On - Always elevated.
- Off - Flat position.

### Select sound stage

 Settings > Sound > EasyLink 2.0 > Sound stage.

Select a listening experience. The setting is only available when connected device is compatible with TV for the feature.

- Auto - Dynamic setting follow contents.
- On - Immersive Sound Stage, good for watching movies.
- Off - Crystal Sound Stage, good for listening to music and dialogue.

### Reset all to default

 Settings > Sound > EasyLink 2.0 > Reset all to

default.

Reset all the EasyLink 2.0 sound settings back to the original factory settings.

---

## Room Calibration

### Room calibration

⚙ Settings > Sound > Room calibration.

This calibration will allow the TV to determine the acoustics in your room and provide optimized sound quality on the TV speakers that best match the acoustics.

You need to pair your remote control with the TV before starting the setup and make sure the TV **Audio out** setting is **TV speakers**. For a more accurate result, please keep the room quiet.

To start the room calibration...

1 - Hold your remote control at the listening position and point it towards the TV during the tuning process.  
2 - Select **Calibrate now** or **Calibrate again** to start the calibration.

3 - A test sound will be played and measured through your remote control. Hold your remote control and point it towards the TV, this can take several seconds.

4 - Once your TV speakers are successfully calibrated, select **Test** to listen to the sound before and after the TV speakers are calibrated. Select **Apply** to accept the setting or select **Try again** to redo the calibration.

5 - When room calibration setup is successful and applied, TV shall return to the Settings menu. Now go to ⚙ Settings > Sound > Room calibration and select **Apply calibration** to tune the audio output from TV speakers.

---

## Advanced Sound Settings

### Volume Control

#### Auto volume

⚙ Settings > Sound > Advanced > Auto volume.

Select **On** or **Off** to switch on or off the auto volume adjustment.

Select **Night Mode** for a more comfortable quiet listening experience.

#### Delta volume

⚙ Settings > Sound > Advanced > Delta volume.

The Delta volume setting can be used to adjust to balance the sound level difference between the TV

channel and the HDMI source input. Press the arrows **▲** (up) or **▼** (down) to adjust the delta value for TV speaker volume.

\* Note: Delta volume is available when the input source is set to HDMI or Analogue sources and the Audio out is set to **TV speakers** or **HDMI sound system**.

---

## Audio Out Settings

### Audio out

⚙ Quick Menu > Frequent Settings > Audio out.

Set the TV to play the sound on TV or on the connected audio system.

You can select where you want to hear the TV sound and how you want to control it.

- If you select **TV speakers off**, you permanently switch off the TV speakers.
- If you select **TV speakers**, the TV speakers are always on.

With an audio device connected with HDMI CEC, select **HDMI sound system**. The TV will switch off the TV speakers when the device is playing the sound.

When a Philips TAH6206 (USB) audio device connected with your TV, you can select **Philips TAH6206 (USB)** to play TV sound with the device.

If there is a Bluetooth® speaker already paired with your TV, it will be available on the audio out device list with its device name.

When the DTS Play-Fi compatible device is configured correctly and switched on, you can select **Play-Fi Wireless Home Theater** to set it as audio out device.

### eARC

⚙ Settings > Sound > Advanced > eARC.

Set eARC mode to **Automatic** or **Off**.

---

## Digital Output Settings

Digital output settings are available for optical and HDMI ARC sound signals.

### Digital out format

⚙ Settings > Sound > Advanced > Digital out format.

Set the audio out signal of the TV to fit the sound capabilities of the connected Home Theatre System.

- **Stereo (uncompressed)**: If your audio playback devices have no multichannel sound processing,

select to only output stereo content to your audio playback devices.

- **Multichannel:** Select to output multichannel audio content (compressed multichannel sound signal) or stereo audio content to your audio playback devices.

- **Multichannel (bypass):** Select to output Dolby Digital Plus or DTS content to your audio playback devices or Home theatre system.

- Make sure your audio playback devices support Dolby Atmos feature.

- SPDIF output (DIGITAL AUDIO OUT) will be disabled when streaming Dolby Digital Plus content.

### Digital out levelling

⚙ Settings > Sound > Advanced > Digital out levelling.

Adjust the loudness level from device which is connected to digital audio output (SPDIF) or HDMI.

- Select More to have louder volume.
- Select Less to have softer volume.

### Digital out delay

⚙ Settings > Sound > Advanced > Digital out delay.

For some Home Theatre Systems you might need to adjust the audio sync delay to synchronise the audio to the video. Select Off if a sound delay is set on your Home Theatre System.

### Digital out offset (Only available when Digital out delay set to On)

⚙ Settings > Sound > Advanced > Digital out offset.

If you cannot set a delay on the Home Theatre System, you can set the TV to sync the sound. You can set an offset that compensates for the time necessary for the Home Theatre System to process the sound of the TV picture. You can set the value in steps of 5ms. Maximum setting is 60ms.

---

## Dolby Atmos Notification

⚙ Settings > Sound > Dolby Atmos notification.

Switch **On** or **Off** the Dolby Atmos notification when Dolby Atmos content begins to play on your TV.

---

15.3

## Ambilight Settings

---

### Turn Ambilight On or Off

#### Turn off Ambilight

Press **ambilight** and select Off, or you can turn Off by pressing **⚙ Settings > Ambilight > Ambilight style > Off**.

---

### Ambilight Style

You can select the way Ambilight follows.

📺 Quick Menu > Frequent Settings > Ambilight style.

#### Follow video

📺 Quick Menu > Frequent Settings > Ambilight style > Follow video.

Select one of the styles that follow the dynamics of the picture on your TV screen.

- Standard – Ideal for day to day TV watching
- Natural – Follows the picture or sound as truthful as possible
- Sports – Ideal for sports programme
- Vivid – Ideal for daylight conditions
- Game – Ideal for gaming

#### Follow audio

📺 Quick Menu > Frequent Settings > Ambilight style > Follow audio.

Select one of the styles that follow the dynamics of the sound.

- Lumina – Mixes audio dynamics with video colours
- Retro – Based on audio dynamics
- Rhythm – Based on audio dynamics

#### Lounge light

📺 Quick Menu > Frequent Settings > Ambilight style > Lounge light.

Select one of the preset colour styles.

- Hot lava – Red colour variations
- Deep water – Blue colour variations
- Fresh nature – Green colour variations
- Warm white – White colour variations
- Custom colour – Static colour of your choice. To set the colour for Ambilight static light, go to **⚙ Settings > Ambilight > Custom colour** and pick a colour you like.

## Follow flag

⚙️ Quick Menu > Frequent Settings > Ambilight style > Follow flag.

Let Ambilight follow the country flag you select.

## Follow app

⚙️ Quick Menu > Frequent Settings > Ambilight style > Follow app.

This function is available when you control Ambilight with an app.

---

## Custom Colour

### Custom colour

⚙️ Settings > Ambilight > Custom colour.

To set the colour for Ambilight static light of your choice. You can pick a colour you like from the colour palette. This setting is only available when Ambilight style is set to Lounge light and then Custom colour is selected.

---

## Advanced Ambilight Settings

### Brightness

⚙️ Settings > Ambilight > Advanced > Brightness.

Press the arrows ▲ (up) or ▼ (down) to set the level of Ambilight brightness.

### Saturation

⚙️ Settings > Ambilight > Advanced > Saturation.

Press the arrows ▲ (up) or ▼ (down) to set the level of Ambilight saturation.

### Ambilight bottom side

⚙️ Settings > Ambilight > Advanced > Ambilight bottom side.

Switch Ambilight bottom side on or off.

### Brightness bottom side

⚙️ Settings > Ambilight > Advanced > Brightness bottom side.

If Ambilight bottom side is turned on, press the arrows ▲ (up) or ▼ (down) to adjust the level of brightness of Ambilight bottom side.

### Neutralise the influence of a coloured wall on the Ambilight colours

⚙️ Settings > Ambilight > Advanced > Wall colour.

Select the colour of the wall behind the TV and the TV will modify the Ambilight colours to appear as they are intended.

### Set Ambilight to switch off immediately or slowly fade out when you switch off the TV

⚙️ Settings > Ambilight > Advanced > TV switch off > Fade out to off / Immediate switch off.

### Warm white tuning

⚙️ Settings > Ambilight > Advanced > Warm white tuning.

The Warm white tuning tunes and locks your preferred colour for Ambilight. When Ambilight style > Lounge light > Warm white is unlock, you can tune and lock white colour variations of Ambilight.

### Halo type

⚙️ Settings > Ambilight > Advanced > Halo type.

Select the type of halo effects.

- Fine detail - Each LED is driven individually, resulting in more detailed display of colours in the halo.
- Classic glow - Grouping of LEDs to provide a smoother experience.

---

15.4

## Eco Settings

### Set screen off to save energy consumption

⚙️ Quick Menu > Frequent Settings > Screen off.

⚙️ Settings > Eco settings > Screen off.

Select Screen off, the TV screen is switched off, to switch the TV screen back on, press any key on the remote control.

### Set to reduce eye strain

⚙️ Settings > Eco settings > Eye care.

Switch on to automatically reduce eye strain under different ambient light conditions.

## Set TV switch off timer

⚙ Settings > Eco settings > Switch off timer.

Press the arrows **▲** (up) or **▼** (down) to adjust the value. The value 0 (Off) deactivates the automatic switch off.

Select Switch off timer, the TV switches off automatically to save energy.

\* TV switches off if receiving a TV signal but you don't press a key on the remote control during a 4 hour period.

\* TV switches off if not receiving a TV signal nor a remote control command for 10 minutes.

\* If you use the TV as a monitor or use a digital receiver to watch TV (a Set-Top Box - STB) and you do not use the remote control of the TV, you should deactivate this automatic switch off, to set the value to 0.

## General Settings

---

### USB Hard Drive

You need to set up and format a USB Hard Drive before you record a channel.

⚙ Settings > General settings > USB Hard Drive.

Before you can pause or record a broadcast, or store apps, you must connect and format a USB Hard Drive. Formatting removes all files from the USB Hard Drive.

#### Warning

The USB Hard Drive is formatted exclusively for this TV, you cannot use the stored recordings on another TV or PC. Do not copy or change recording files on the USB Hard Drive with any PC application. This will corrupt your recordings. When you format another USB Hard Drive, the content on the former will be lost. A USB Hard Drive installed on your TV will need reformatting for use with a computer.

\* Connect the USB Hard Drive with size less than 2TB.

To format a USB Hard Drive...

- 1 - Connect the USB Hard Drive to one of the **USB** connections on the TV. Do not connect another USB device to the other USB ports when formatting.
- 2 - Switch on the USB Hard Drive and the TV.
- 3 - Select **Recordings** if you want to perform Pause TV and Recordings, otherwise, select **Apps** to store apps. Follow the instructions on screen.
- 4 - All files and data will be removed after formatting.
- 5 - When the USB Hard Drive is formatted, leave it

connected permanently.

---

## USB Keyboard Settings

Set the keyboard layout for installed USB keyboard

⚙ Settings > General settings > USB keyboard settings.

Connect the USB keyboard to one of the USB connections on this TV. When the TV detects the keyboard for the first time, you can select your keyboard lay-out and test your selection.

---

## Home or Shop

Select the location of your TV

⚙ Settings > General settings > Location.

Select Shop, the picture style settings will be restored to default, and can adjust shop settings. Shop mode is for in-store promotion.

---

## Shop Setup

Adjust shop settings

⚙ Settings > General settings > Shop setup.

If the TV is set to Shop, you can set the availability of a specific demo for in store use.

Adjust Picture and audio

⚙ Settings > General settings > Shop setup > Picture and audio.

Select **Optimized for shop** or **custom** for picture and audio settings.

Demo Me autostart

⚙ Settings > General settings > Shop setup > Demo Me autostart.

Turn On/Off the Demo Me autostart.

OLED refreshing process

⚙ Settings > General settings > Shop setup > OLED refreshing process.

Select **Refresh OLED (every 4 hours)** to refresh your OLED TV screen every 4 hours. Select **Off** to switch off OLED refreshing process. Switching off this process may result in image retention, which may

void your warranty.

### AI Picture demo autostart

⚙ Settings > General settings > Shop setup > AI Picture demo autostart.

Turn On/Off the AI Picture demo autostart.

On AI Picture demo mode, you can see how AI Picture processing is enhancing the picture quality in real time. The demo mode includes three steps, which will be shown in repeat cycle.

**First Step:** P5 AI enhanced effect video shown on screen center with live AI measurements and analyzing.

Left side measurement demonstration:

- Small size window view shows sub-sampling of live video.
- Half-moon shape meters to show the status of Sharpness, Noise, Motion, Colour of video and viewing ambient light condition.
- Contrast meter: histogram of video level contribution.

Right side AI analyzing results:

Scene Classification: Output Live AI scene classification category (circle color filled is proportionally indicating confidence level for each category).

**Second Step:** Split screen to show live visual effect. Left half screen is original video content with AI picture enhancement turned off; right half screen will have full AI picture settings applied. It tells the differences after AI picture processing.

**Third Step:** Full screen P5 AI enhanced effect video shown on screen.

---

## EasyLink – HDMI CEC

Connect HDMI CEC-compatible devices to your TV, you can operate them with the TV remote control.

EasyLink HDMI CEC must be switched on on the TV and the connected device.

### Switch on EasyLink

⚙ Settings > General settings > EasyLink > EasyLink > On.

### Operate HDMI CEC-compatible devices with TV remote control

⚙ Settings > General settings > EasyLink > EasyLink remote control > On.

### Note:

- EasyLink might not work with devices from other brands.
- The HDMI CEC functionality has different names on different brands. Some examples are: Anynet, Aquos Link, Bravia Theatre Sync, Kuro Link, Simplink and Viera Link. Not all brands are fully compatible with EasyLink. Example HDMI CEC branding names are property of their respective owners.

---

## HDMI Ultra HD

This TV can display Ultra HD signals. Some devices – connected with HDMI – do not recognise a TV with Ultra HD and might not work correctly or show distorted picture or sound.

To avoid the malfunctioning of such a device, you can adjust **HDMI Ultra HD** setting when TV is in the HDMI source. Recommended setting for legacy device is **Standard**.

### Set the signal quality for each HDMI connectors

⚙ Settings > General settings > HDMI Ultra HD > HDMI (port) > Standard, Optimal, or Optimal (Auto Game).

To change the settings, switch to the HDMI source first. Select **Optimal** to enable the highest quality HDMI signal for 4K Ultra HD and HDR content (4K120# 4:4:4, 4K120# 10 or 12-bit HDR).

- The setting **Optimal** allows maximum up to Ultra HD (100Hz# or 120Hz#) RGB 4:4:4 or YCbCr 4:4:4/4:2:2/4:2:0 signals.
- The setting **Standard** allows maximum up to Ultra HD (50Hz or 60Hz) YCbCr 4:2:0 signals.

Maximum supported video timing format for HDMI Ultra HD options:

- Resolution: 3840 x 2160
- Frame rate (Hz): 50Hz, 59.94Hz, 60Hz, 100Hz#, 120Hz#
- Video data sub-sampling (bit-depth)
  - 8 bit: YCbCr 4:2:0, YCbCr 4:2:2\*, YCbCr 4:4:4\*, RGB 4:4:4\*
  - 10 bit: YCbCr 4:2:0\*, YCbCr 4:2:2\*
  - 12 bit: YCbCr 4:2:0\*, YCbCr 4:2:2\*

\* Supported only when **HDMI Ultra HD** is set to **Optimal** or **Optimal (Auto Game)**.

# 4K2K 100Hz is only supported when **HDMI Ultra HD** is set to **Optimal** in HDMI1 and 2. 4K2K 120Hz is only supported when **HDMI Ultra HD** is set to **Optimal** or **Optimal (Auto Game)** in HDMI1 and 2. 4K2K 100/120Hz input format is internally scaled down to 4K1K resolution in all picture styles.

Select **Standard** if the picture or sound are distorted.

· Set **Optimal (Auto Game)** to enable TV to support the HDMI Variable Refresh Rate\* /FreeSync Premium\* or Premium Pro\*/G-Sync\* video (on some models only). This option also enables TV to automatically set Picture/Sound style to **Game** whenever it is informed by the HDMI device connected to TV.

\* With HDMI Variable Refresh Rate/FreeSync Premium or Premium Pro/G-Sync supported, the TV changes its refresh rate in real time according to the frame rate signal to synchronize with every picture. It is applied to reduce the lag, judder and frame tearing for better gaming experience.

**Note:** G-Sync compatible is supported in some TV models and Nvidia GTX 30 series Graphics card only.

**Note:**  
To watch HDR10+ or Dolby Vision content from HDMI source, you may need to power off your player and power on again when the player connected to TV playing such content for the first time. HDR10+ content is supported only when **HDMI Ultra HD** is set to **Optimal** . Dolby Vision content is supported only when **HDMI Ultra HD** is set to **Optimal** or **Optimal (Auto Game)**.

For supported TV models only, to enjoy FreeSync Premium or Premium Pro/G-Sync game, you need to connect your computer or game console to TV via Ultra High Speed HDMI cable, and then change **HDMI Ultra HD** to **Optimal (Auto Game)**. After that, you may need to power off your game computer or game console and power on again to complete the first time setup.

---

## Auto Film Mode

Enter the settings for the Auto film mode

⚙ Settings > General settings > Auto film Mode.

Set the method of detection

⚙ Settings > General settings > Auto Filmm Mode > Film detection.

Select **Off**, **From content** or **From AI detection** to set how to detect the movie content and then set the **Picture style** automatically.

Set preferred Picture style

⚙ Settings > General settings > Auto Filmm Mode > Preferred Picture style.

Select **Personal**, **Crystal Clear**, **Home Cinema/Dolby Vision Bright**, **Filmmaker Mode/Dolby Vision Dark**, **Expert 1**, **Expert2**, or **Calman** for the **Picture style** that automatically set when movie contents is

detected.

---

## Advanced

---

### Channel Logos

Switch off channel logos

⚙ Settings > All settings > General settings > Advanced > Channel logos.

---

### OLED Screen Settings

Local image protection

⚙ Settings > General settings > Advanced > OLED screen settings > Local image protection.

Set the level of protection when local still image is displayed.

Displaying a still image for a prolonged period of time may cause an image sticking. This phenomenon is normal character for OLED panel. Avoid displaying a fixed image on the TV screen for an extended length of time.

Clear residual image

⚙ Settings > General settings > Advanced > OLED screen settings > Clear residual image.

When you encounter image residual on the TV, you can clear such image retention on-screen by activating this function.

- 1 - Select ⚙Settings > General settings and press ➤ (right) to enter the menu.
- 2 - Select **Advanced** > **OLED screen settings** > **Clear residual image**.
- 3 - Select **Confirm**.

The TV will be switched off until the process is completed.

If you are recording something, the process will be paused, and restart until the recording is completed. It might take more than 1 hour.

If you turn the TV on during the process, it will be stopped and will be restarted automatically when the TV switches to standby at a later time.

While processing, a white line may appear on the screen. This is normal when clearing on-screen image retention.

---

## Reset TV Settings and Reinstall TV

Reset all settings value to original TV settings

⚙ Settings > General settings > Factory settings.

Redo full TV installation , and set TV status back to the first time you switch on

⚙ Settings > General settings > Reinstall TV.

Enter PIN code and select Yes, the TV will reinstall completely.

All settings will be reset and installed channels will be replaced.

The installation can take a few minute

---

15.6

## Clock, Region, and Language Settings

### Menu language

Change the language of the TV menu and messages

⚙ Settings > All settings > Region and language > Menu language.

---

### Clock

⚙ Settings > All settings > Region and language > Clock.

#### Correct clock automatically

⚙ Settings > All settings > Region and language > Clock > Auto clock mode.

- The standard setting for the TV clock is **Automatic**. The time information comes from the broadcasted UTC - Coordinated Universal Time information.
- If the clock is not correct, you can set the TV clock manually.

Set time zone or set a time offset for your region  
(Only available for certain countries)

⚙ Settings > All settings > Region and language > Clock > Time zone.

Time zone setting is only available when **Auto clock mode** is set to **Automatic** or **Country dependant**.

#### Correct clock manually

⚙ Settings > All settings > Region and language > Clock > Auto clock mode > Manual.

⚙ Settings > All settings > Region and language > Clock > Date, Time.

Go to previous menu, and select Date and Time to adjust the value.

Note:

- If none of the automatic settings display the time correctly, you can set the time manually.
- If you schedule recordings from the TV Guide, we recommend not to change the time and date manually.

Set the TV to switch to Standby automatically after a preset time

📺 Quick Menu > Frequent Settings > Sleep timer.

---

15.7

## Android Settings

⚙ Settings > Android settings.

View the list of installed Apps, check out the free space to download more or uninstall an App.

---

15.8

## Universal Access Settings

⚙ Settings > Accessibility > Universal access.

With Universal Access switched on, the TV is prepared for use for the deaf, hard of hearing, blind or partially sighted people.

#### Switch on universal access settings

⚙ Settings > Accessibility > Universal access > On.

#### Universal access for blind or partially sighted people

⚙ Settings > Accessibility > Audio description > Audio description > On.

Digital TV channels can broadcast special audio commentary describing what is happening on screen.

⚙ Settings > Accessibility > Audio description > Mixed volume, Audio effects, Speech.

- Select **Mixed volume**, you can mix the volume of the normal audio with the audio commentary. Press the arrows **▲** (up) or **▼** (down) to adjust the value.
- Set **Audio effect** to **On** for extra audio effects in

the commentary audio, like stereo or fading sound.

- Select Speech to set speech preference, Descriptive or Subtitles.

rated programmes. Digital channels can have their programmes rated by content. To watch a locked programme, you must enter the Child lock code first.

---

15.9

## Lock Settings

---

### Set Code and Change Code

Set a new code or reset the change code

⚙ Settings > Child lock > Set code / Change code.

The child lock code is used to lock or unlock channels or programmes.

Note:

If you forgot your PIN code, you can override the current one by using the code **8888** and entering a new one.

---

### Lock for App

Set lock on Philips apps

⚙ Settings > Child lock > App lock.

You can lock apps unsuited for children. You can lock 18+ rated apps from the Philips apps or set up a restricted profile in the Home menu.

18+

The 18+ app lock will ask for a PIN code when you try to start an 18+ rated app. This lock is only valid for 18+ rated apps from the Philips apps.

Restricted profile

You can set up a restricted profile for the Home menu where only the apps you allow are available. You need to enter a PIN code to set up and switch on the restricted profile.

Google Play Store - Maturity

In the Google Play Store, you can hide apps according to users/buyers maturity. You need to enter a PIN code to select or change the level of maturity. The level of maturity will determine which apps are available for installation.

---

### Content rating lock

Set the lock to block the rated programmes.

⚙ Settings > All settings > Child lock > Content rating lock.

To prevent children from watching a programme not suitable for them, you can set a lock to block the

# Videos, Photos and Music

## From a Computer or NAS

You can view your photos or play your music and videos from a computer or a NAS (Network Attached Storage) in your home network.

The TV and computer or NAS must be in the same home network. On your computer or NAS, you need to install Media Server Software. Your Media Server must be set to share your files with the TV. The TV shows your files and folders as they are organised by the Media Server or as they are structured on your computer or NAS.

The TV does not support subtitles on video streams from a computer or NAS.

If the Media Server supports searching for files, a search field is available.

To browse and play the files on your computer...

- 1 - Press  SOURCES, select  Network and press OK.
- 2 - Select  Network Devices and press  (right) to select the device you need.
- 3 - Once a Network device is connected, the **Network Devices** item will be replaced by connected device name.
- 4 - You can browse and play your files.
- 5 - To stop playing videos, photos and music, press  EXIT.

## Favourites Menu

Add a folder or a file to favourites menu

- 1 - Press  SOURCES, select  USB and press OK.
- 2 - Select  USB Devices and select a folder or a file.
- 3 - Press  Mark favourite (green) to add the selected folder or file to the favourite menu.

View favourite files

- 1 - Press  SOURCES, select  USB and press OK.
- 2 - Select  Favourites.
- 3 - You can view all favourite files in the list.

## Most Popular Menu and Last Played Menu

View most popular files or clear the list

- 1 - Press  SOURCES, select  USB and press OK.
- 2 - Select  USB Devices and select  Most popular.
- 3 - Select one of the file and press OK to view files or press  Clear all to clear the list.

View last played files

- 1 - Press  SOURCES, select  USB and press OK.
- 2 - Select  USB Devices and select  Last played.
- 3 - Select one of the file and press OK to view files or press  Clear all to clear the list.

## From a USB Connection

You can view your photos or play your music and videos from a connected USB flash drive or USB Hard Drive.

With the TV switched on, plug in a USB flash drive or a USB Hard Drive to one of the USB connections. The TV detects the device and will list your media files.

If the list of files does not appear automatically...

- 1 - Press  SOURCES, select  USB and press OK.
- 2 - Select  USB Devices and press  (right) to select the USB device you need.
- 3 - You can browse your files in the folder structure you have organised on the drive.
- 4 - Press  Play all to play all files in the USB folder or press  Mark favourite to add the selected folder to favourite menu -  Favourites.
- 5 - To stop playing videos, photos and music, press  EXIT.

Warning

If you try to pause or record a programme with a USB Hard Drive connected, the TV will ask you to format the USB Hard Drive. This formatting will delete all current files on the USB Hard Drive.

## Play your Videos

### Play Videos

#### Open video folder

- 1 - Press **SOURCES**, select **USB** and press **OK**.
- 2 - Select **USB Devices** and press **>** (right) to select the USB device you need.
- 3 - Select **Videos**, you can press **Mark favourite** to add the video folder to favourite menu - **♥ Favourites**.

#### Play a video

- 1 - Press **SOURCES**, select **USB** and press **OK**.
- 2 - Select **USB Devices** and press **>** (right) to select the USB device you need.
- 3 - Select **Videos** and select one of video, you can press **Play all** to play all files in the folder or press **Mark as favourite** to add the selected video to favourite menu - **♥ Favourites**.

#### Control bar

- 1 - Progress bar
- 2 - Playback control bar
  - **<<**: Jump to the previous video in a folder
  - **>>**: Jump to the next video in a folder
  - **<<<**: Rewind
  - **>>>**: Fast forward
  - **||**: Pause the playback
- 3 - Mark as favourites
- 4 - Play all videos
- 5 - Subtitle: switch subtitles On, Off or On During Mute.
- 6 - Subtitle language: select a Subtitle Language
- 7 - Audio language: select an audio language
- 8 - Shuffle: play your files in a random order
- 9 - Repeat: plays all videos in this folder once or continuously

## Video Options

#### Browse video files...

# TV Guide

## 17.1

### What You Need

With the TV Guide you can view a list of the current and scheduled TV programmes of your channels. Depending on where the TV guide information (data) is coming from, analogue and digital channels or only digital channels are shown. Not all channels offer TV Guide information.

The TV can collect TV Guide information for the channels that are installed on the TV. The TV cannot collect the TV Guide information for channels viewed from a digital receiver or decoder.

## 17.2

### TV Guide Data

The TV Guide receives information (data) from broadcasters. In some regions and for some channels, TV Guide information might not be available. The TV can collect TV Guide information for the channels that are installed on the TV. The TV cannot collect the TV Guide information from channels viewed from a digital receiver or decoder.

## 17.3

### Using the TV Guide

#### Open the TV Guide

To open the TV Guide, press **≡ TV GUIDE**. The TV Guide shows the channels of the selected tuner.

Press **≡ TV GUIDE** again to close.

The first time you open the TV Guide, the TV scans all TV channels for programme information. This may take several minutes. TV Guide data is stored on TV.

#### Tune to a Programme

From the TV Guide, you can tune to a current programme.

To switch to the programme (channel), select the programme and press **OK**.

#### View programme details

To call up the details of the selected programme...

1 - Press **+ OPTIONS**, select **Programme Info** and

press **OK**.

2 - Press **← Back** to close.

#### Change Day

The TV Guide can show the scheduled programmes for the upcoming days (maximum up to 8 days).

Press the colour key **■ Day** and select the day you need.

#### Set a Reminder

You can set a reminder for a programme. A message will alert you at the start of the programme. You can tune to this channel immediately.

In the TV Guide a programme with a reminder is marked with a **🕒** (clock).

To set a reminder...

- 1 - Press **≡ TV GUIDE** and select an upcoming programme.
- 2 - Press **+ OPTIONS** and select **Set reminder** or press the colour key **■ Set reminder**.
- 3 - Press **← Back** to close the menu.

To clear a reminder...

- 1 - Press **≡ TV GUIDE** and select a programme with the reminder.
- 2 - Press **+ OPTIONS** and select **Clear reminder** or press the colour key **■ Clear reminder**.
- 3 - Press **← Back** to close the menu.

#### Search by Genre

If the information is available, you can look up scheduled programmes by genre like movies, sports, etc.

To search for programmes by genre...

- 1 - Press **≡ TV GUIDE**.
- 2 - Press **+ OPTIONS**.
- 3 - Select **Search by genre** and press **OK**.
- 4 - Select the genre you want and press **OK**. A list with the found programmes appears.
- 5 - You can set reminders or schedule a recording on a selected programme.
- 6 - Press **← Back** to close the menu.

For more information on Recording, press the colour key **■ Keywords** and look up **Recording**.

\* Note: The Search by genre function is only available for certain countries.

---

## List of Reminders

You can view a list of the reminders you have set.

### List of Reminders

To open the list of reminders...

- 1 - Press  TV GUIDE.
- 2 - Press the colour key  Scheduled .
- 3 - At the top of the screen, select  Scheduled and press OK.
- 4 - In the list of scheduled recordings and reminders, select the tab Reminders and press OK to view the reminders only.
- 5 - Press the colour key  Remove to remove the selected reminder. Press the colour key  Record to record the selected programme.
- 6 - Press  Back to close the menu.

---

## Set a Recording

You can set a recording in the TV Guide\*.

To see the recording list, press  Recordings , a programme set to be recorded is marked with a  (red dot) on the front of the programme name.

To record a programme...

- 1 - Press  TV GUIDE and select a future or ongoing programme.
- 2 - Press the colour key  Record .
- 3 - Press  Back to close the menu.

To cancel a recording...

- 1 - Press  TV GUIDE and select the programme set for recording.
- 2 - Press the colour key  Clear Recording .
- 3 - Press  Back to close the menu.

\* To record a TV programme you need...

- a connected USB Hard Drive formatted on this TV
- digital TV channels installed on this TV
- to receive channel information for the on screen TV Guide
- a reliable TV clock setting. If you reset the TV clock manually, recordings may fail.

# Recording and Pause TV

18.1

## Recording

### What You Need

You can record a digital TV broadcast and watch it later.

To record a TV programme you need...

- a connected USB Hard Drive formatted on this TV
- digital TV channels installed on this TV
- to receive channel information for the on screen TV Guide
- a reliable TV clock setting. If you reset the TV clock manually, recordings may fail.

You cannot record when you are using Pause TV.

In terms enforcement of copyright legislation, some DVB providers can apply different restriction by means of DRM (Digital Right Management) technology. In case of broadcasting protected channels, recording, record validity or number of views may be restricted. Recording may be completely prohibited. In case of trying to record a protected broadcasting or play back an expired recording, an error message can appear.

For more information on installing a USB Hard Drive, in **Help**, press the colour key **Keywords** and look up **USB Hard Drive**.

#### Note:

Recording function is only for digital TV broadcast. It is not possible to record content from external devices (e.g. HDMI).

### Record a Programme

#### Record Now

To record the programme you are watching right now, press **Record** on the remote control. The recording will start immediately.

To stop the recording, press **Stop**.

When TV Guide data is available, the programme you are watching will be recorded from the moment you pressed the recording key until the programme ends. If no TV Guide data is available, the recording will only last 30 minutes. You can adjust the end time of the recording in the list of **Recordings**.

### Schedule a Recording

You can schedule a recording of an upcoming programme for today or a few days from today (maximum of 8 days away). The TV will use the data from the TV Guide to start and end the recording.

To record a programme...

- 1 - Press **TV GUIDE**.
- 2 - On the TV Guide, select the channel and programme you wish to record. Press **Right** or **Left** to scroll through the programmes of a channel. Use the colour key **Day** to select the day you need.
- 3 - With the programme highlighted, press the colour key **Record**. The programme is scheduled for recording. A warning will show automatically when overlapping recordings are scheduled. If you plan to record a programme in your absence, remember to leave the TV switched to Standby and the USB Hard Drive switched on.
- 4 - The TV adds some time margin at the end of the programme. You can adjust this margin with **Auto End Margin**.
- 5 - Press **Back** to close the menu.

You can also view a list of the reminders you have set.

To open the list of reminders...

- 1 - Press **TV GUIDE**.
- 2 - Press the colour key **Scheduled**.
- 3 - At the top of the screen, select **Scheduled** and press **OK**.
- 4 - In the list of scheduled recordings and reminders, select the tab **Reminders** and press **OK** to view the reminders only.
- 5 - Press the colour key **Remove** to remove the selected reminder. Press the colour key **Record** to record the selected programme.
- 6 - Press **Back** to close the menu.

### List of Recordings

You can view and manage your recordings in the list of recordings. Next to the list of recordings, there is a separate list for scheduled recordings and reminders.

To open the list or recordings...

- 1 - Press **TV GUIDE**.
- 2 - Press the colour key **Recordings**.
- 3 - In the list of recordings, select the tabs **New**, **Watched** or **Expired** and press **OK** to filter your view.
- 4 - With a recording selected in the list, you can remove the recording with the colour key **Remove** or stop an ongoing recording with the colour key **Stop Recording**. You can rename a recording with the colour key **Rename**.

5 - Press **←** **Back** to close the menu.

Broadcasters can limit the number of days a recording can be viewed. When this period expires, the recording will be marked as expired. A recording in the list can show the number of days before it expires.

When a scheduled recording was prevented by the broadcaster or when the broadcast was interrupted, a recording is marked as **Failed**.

---

## Recording Conflicts

When two scheduled recordings are overlapping in time, there is a recording conflict. To solve a recording conflict, you can adjust the start and end time of one or both scheduled recordings.

To adjust the start or end time of a scheduled recording...

- 1 - Press **≡** **TV GUIDE**.
- 2 - Press the colour key **—** **Recordings**.
- 3 - At the top of the screen, select **⌚ Scheduled** and press **OK**.
- 4 - In the list of scheduled recordings and reminders, select the tab **Recordings** and press **OK** to view the scheduled recordings only.
- 5 - Select the scheduled recording that conflicts with another scheduled recording and press the colour key **—** **Adjust Time**.
- 6 - Select the start or end time and change the time with the **▲** (up) or **▼** (down) keys. Select **Apply** and press **OK**.
- 7 - Press **←** **Back** to close the menu.

---

## Auto End Margin

You can set the time margin that the TV will add automatically at the end of each scheduled recording.

To set the automatic end time margin...

- 1 - Press **≡** **TV GUIDE**.
- 2 - Press the colour key **—** **Recordings**.
- 3 - Press **+** **OPTIONS** and select **Auto End Margin** and press **OK**.
- 4 - Press **▲** (up) or **▼** (down) and press **OK** to set the time margin added to a recording automatically. You can add up to 45 minutes to a recording.
- 5 - Press **←** **Back** to close the menu.

---

## Manual Recording

You can schedule a recording that is not linked to a TV programme. You set the tuner type, channel and the start and end time yourself.

To schedule a recording manually...

- 1 - Press **≡** **TV GUIDE**.
- 2 - Press the colour key **—** **Recordings**.
- 3 - At the top of the screen, select **⌚ Scheduled** and press **OK**.
- 4 - Press **+** **OPTIONS**, select **Schedule** and press **OK**.
- 5 - Select the tuner from where you want to record and press **OK**.
- 6 - Select the channel to record from and press **OK**.
- 7 - Select the day of the recording and press **OK**.
- 8 - Set the start and end time of the recording. Select a button and use the **▲** (up) or **▼** (down) keys to set the hours and minutes.
- 9 - Select **Record** and press **OK** to schedule the manual recording.

The recording will appear in the list of scheduled recordings and reminders.

---

## Watch a Recording

To watch a recording...

- 1 - Press **≡** **TV GUIDE**.
- 2 - Press the colour key **—** **Recordings**.
- 3 - In the list of recordings, select the recording you need and press **OK** to start watching.
- 4 - You can use the keys **⏸** (pause), **▶** (play), **⏮** (rewind), **⏭** (fast forward) or **■** (stop).
- 5 - To switch back to watch TV, press **TV** **EXIT**.

---

18.2

## Pause TV

---

### What You Need

You can pause a digital TV broadcast and resume watching it a bit later.

To pause a TV programme you need...

- a connected USB Hard Drive formatted on this TV
- digital TV channels installed on this TV
- to receive channel information for the on screen TV Guide

With the USB Hard Drive connected and formatted, the TV continuously stores the TV broadcast you are watching. When you switch to another channel, the broadcast of the former channel is cleared. Also when you switch the TV to standby the broadcast is cleared.

You cannot use Pause TV when you are recording.

For more information, in **Help**, press the colour key **—** **Keywords** and look up **USB Hard Drive**.

---

## Pause a Programme

To pause and resume a broadcast...

- To pause a broadcast, press **⏸** (Pause). A progress bar at the bottom of the screen appears briefly.
- To call up the progress bar, press **⏸** (Pause) again.
- To resume watching, press **▶** (Play).

With the progress bar on screen, press **◀◀** (Rewind) or press **▶▶** (Forward) to select from where you want to start viewing the paused broadcast. Press these keys repeatedly to change speed.

You can pause a broadcast for a maximum time span of 90 minutes.

To switch back to the live TV broadcast, press **■** (Stop).

---

## Replay

Since the TV stores the broadcast you are watching, you can mostly replay the broadcast for a few seconds.

To replay a current broadcast...

- 1 - Press **⏸** (Pause)
- 2 - Press **◀◀** (Rewind). You can press **◀◀** repeatedly to select from where you want to start viewing the paused broadcast. Press these keys repeatedly to change speed. At one point you will reach the start of the broadcast storage or the maximum time span.
- 3 - Press **▶** (Play) to watch the broadcast again.
- 4 - Press **■** (Stop) to watch the broadcast live.

# Smartphones and Tablets

---

## Philips TV Remote App

The new Philips TV Remote App on your smartphone or tablet is your new TV buddy.

Download the Philips TV Remote App from your favourite app store today.

The Philips TV Remote App is available for iOS and Android and is free of charge.

---

## Google Cast

---

### What You Need

If an app on your mobile device has Google Cast, you can cast your app on this TV. On the mobile app, look for the Google Cast icon. You can use your mobile device to control what's on TV. Google Cast works on Android and iOS.

Your mobile device must be connected to the same Wi-Fi home network as your TV.

### Apps with Google Cast

New Google Cast apps come available every day. You can already try it with YouTube, Chrome, Netflix, Photowall ... or Big Web Quiz for Chromecast. See also [google.com/cast](http://google.com/cast)

Some Google Play products and features aren't available in all countries.

Find more information on [www.support.google.com/androidtv](http://www.support.google.com/androidtv)

---

### Cast to Your TV

To cast an app to the TV screen...

- 1 - On your smartphone or tablet, open an app that supports Google Cast.
- 2 - Tap the Google Cast icon.
- 3 - Select the TV you would like to cast to.
- 4 - Press play on your smartphone or tablet. What you selected should start playing on TV.

# Games

## 20.1

### What You Need

On this TV, you can play games...

- from the Smart TV Collection in the Home menu
- from the Google Play Store in the Home menu
- from a connected Game Console

Games from the Smart TV Collection or the Google Play Store must be downloaded and installed on TV before you can play them. Some games need a gamepad to play.

To install game apps from the Smart TV Collection or the Google Play Store, the TV must be connected to the Internet. You must agree to the Terms of Use to use apps from the Smart TV Collection. You must sign in with a Google Account to use the Google Play apps and Google Play Store.

## 20.2

### Gamepads

To play games from the Internet on this TV, you can connect a selected range of wireless Gamepads. The TV can support 2 connected Gamepads at a time. When you connect the Gamepad, you can use it immediately.

## 20.3

### Play a Game From Game Console or Computer

To start a game from a Game Console or Computer on the first time...

- 1 - Connect Game Console or Computer to TV via Ultra High Speed HDMI cable before power on the console or computer.
- 2 - Press **SOURCES** and select a game console or the name of the connection.
- 3 - Set HDMI Ultra HD to **Optimal** for standard gaming, to **Optimal (Auto Game)** for HDMI Variable Refresh Rate/FreeSync Premium or Premium Pro/G-Sync game (on some models only).
- 4 - Power on Game Console or Computer.
- 5 - Start the game.

For more information on connecting a Game Console, in **Help**, press the colour key **Keywords** and look up **Game Console, connect**.

## Gaming Control Bar

The Gaming control bar is an integrated centre for information display and setting control while playing game. It is applicable for HDMI source as long as the Picture style is set to Game/HDR Game/Dolby Vision Game/Monitor/HDR Monitor.

When TV auto switch to Game mode (via game detection), the TV will show a message to inform user that Game mode is enabled and the gaming control bar can be enabled via long pressing the **MENU** key.

### Activation and deactivation

Long press the **MENU** key to launch the gaming control bar while in **Game** mode or **Monitor** mode. To deactivate the gaming control bar, you can press **← Back** or it will be close automatically after 20 seconds without interaction.

The Gaming control bar contains information bar or setting bar and a Toggle button to switch between information bar and settings bar.

### Information bar

The information bar will show the key information for the gaming:

**Input lag:** current input lag status

**Frame rate:** current FPS (frame per second)

**Resolution:** video source resolution

**Content type:** video content is General or Movie or VRR/Freesync/G-Sync

**SDR/HDR format:** the supported source HDR or SDR type

**Colour space:** supported source colour space type

### Setting bar

The settings bar contains related settings that can improve your gaming experience. Select and press **OK** on the setting icons to change following settings:

**Crosshair:** select **On/Off** to show or hide the dial point.

**Shadow control:** select **Off** to use current black level in **Picture settings**; select **On** to change the setting to higher black level.

**Colour temperature:** select the colour temperature for your preference.

**Audio out:** select the device to output the sound.

**Ambilight\* style:** select **On** to turn on the Ambilight with gaming style; select **Off** to turn off the Ambilight.

\* Ambilight setting is only for models which support Ambilight function.

---

# Ambilight

---

## Ambilight Style

---

### Follow Video

You can set Ambilight to follow the video or the audio dynamics of a TV programme. Alternatively, you can set Ambilight to show a preset colour style or you can switch Ambilight off.

If you select **Follow Video**, you can select one of the styles that follow the dynamics of the picture on your TV screen.

To set the Ambilight Style...

- 1 - Press **ambilight**.
- 2 - Select **Follow Video** and press **OK**.
- 3 - Select the style you want and press **OK**.
- 4 - Press **◀** (left) to go back one step or press **← Back** to close the menu.

The available **Follow Video** styles are...

- **Standard** - Ideal for day to day TV watching
- **Natural** - Follows the picture or sound as truthful as possible
- **Sports** - Ideal for sports programme
- **Vivid** - Ideal for daylight conditions
  
- **Game** - Ideal for gaming

---

### Follow Audio

You can set Ambilight to follow the video or the audio dynamics of a TV programme. Alternatively, you can set Ambilight to show a preset colour style or you can switch Ambilight off.

If you select **Follow Audio**, you can select one of the styles that follow the dynamics of the sound.

To set the Ambilight Style...

- 1 - Press **ambilight**.
- 2 - Select **Follow Audio** and press **OK**.
- 3 - Select the style you want and press **OK**.
- 4 - Press **◀** (left) to go back one step or press **← Back** to close the menu.

The available **Follow Audio** styles are...

- **Lumina** - Ideal for watching music video
- **Retro** - Ideal for listening to loud retro music
- **Rhythm** - Ideal for listening to rhythmic music

---

### Lounge Light

You can set Ambilight to follow the video or the audio dynamics of a TV programme. Alternatively, you can set Ambilight to show a preset colour style or you can switch Ambilight off.

If you select **Lounge light**, you can select one of the preset colour styles.

To set the Ambilight Style...

- 1 - Press **ambilight**.
- 2 - Select **Lounge light** and press **OK**.
- 3 - Select the style you want and press **OK**.
- 4 - Press **◀** (left) to go back one step or press **← Back** to close the menu.

The available **Lounge light** styles are...

- **Hot lava** - Red colour variations
- **Deep water** - Blue colour variations
- **Fresh nature** - Green colour variations
- **Warm white** - White colour variations
- **Custom colour** - Static colour of your choice. To set the colour for Ambilight static light, go to **⚙ Settings > Ambilight > Custom colour** and pick a colour you like.

---

### Follow Flag

You can set Ambilight to follow the country flag you select.

---

### Follow App

**Follow App** setting is available when you control Ambilight with an app.

## Ambilight Off

To switch off Ambilight...

- 1 - Press **ambilight**.
- 2 - Select **Off** and press **OK**.
- 3 - Press **◀** (left) to go back one step or press **← Back** to close the menu.

## Ambilight Settings

For more information, in **Help**, press the colour key **— Keywords** and look up **Ambilight Settings** to see detailed descriptions.

## Lounge Light Mode

The lounge light mode of your TV allows you to switch on the Ambilight when the TV is in standby. So you can light up your room with Ambilight.

After you have switched your TV to standby and wish to switch on the Ambilight lounge light, follow these steps:

- 1 - Press **ambilight**.
- 2 - After you have pressed the **ambilight**, the Ambilight lounge light will be switched on.
- 3 - Press **ambilight** again if you wish to change to a different light effect.
- 4 - To switch off the Ambilight lounge light, press **ambilight** until you see the lights are turned off. You may need to press **ambilight** a few times.

## Sunrise Alarm

Sunrise alarm uses Ambilight, music and weather information for a new wake up experience.

- TV wakes up at selected time and day set by you.
- Lights up Ambilight with fade-in colored screen and music.
- Slowly transit to weather forecast with matching backdrop.

To enter the Sunrise alarm setting menu...

- 1 - Press  to open Quick Menu.
- 2 - Select Sunrise alarm and press **OK** to open it.
  - **Alarm**: set multiple alarms up to 5, for repeat/select days, On/Off settings.
  - **Backdrop**: follow weather or select from photo categories.
  - **Music**: music track to play during wake up.
  - **Switch on volume**: music volume to set during wake up.
  - **Weather**: settings for local weather forecast.
  - **Preview**: you can preview the wake up effect.

If TV in standby and alarm time is reached, TV shall wake up from standby. Wake-up screen fade-in, Ambilight is On, music fade-in and then show weather information with backdrop.

To exit Sunrise alarm, press **Standby / On**, **Back** or **HOME** key on remote control.

- **Standby / On**: exits the Sunrise app and switch TV to standby.
- **Back**: exits the Sunrise app and switch to last viewed TV source.
- **HOME**: exits the Sunrise app and switch to launcher.

- If Sunrise alarm is not exited to other application after 30 min since Sunrise wake-up, TV shall auto shutdown to standby.

### Note:

Keep the network connection alive for Sunrise alarm to function properly. Sunrise alarm cannot operate when the TV clock mode is set to manual. Go to the settings menu and change the clock mode to automatic. Alarm will not work if Location is set to Shop.

## Ambisleep

Ambisleep simulates sunset to help you unwind before you fall asleep. At the end of simulation, TV will automatically switch to standby.

# Alexa

---

## 24.1

### About Alexa

Your TV supports Amazon Alexa\* voice control operations.

#### About Alexa

Alexa is a cloud-based voice service available on Alexa Echo devices from Amazon and device manufacturers. With Alexa working on your TV, you can switch on/off TV, change channels, change volume and more.

To control your TV with Alexa, you will need...

- Philips Android Smart TV that supports Alexa
- Amazon Echo device
- Google account
- Mobile device such as your phone or tablet
- Wi-Fi network

#### About Alexa Skill

Alexa uses the Alexa Skills to extend the voice control operations. Skills add new capabilities that create a more personalised experience with your Alexa enabled TV. "Philips Smart TV Voice Control" skill can be found on Alexa Skills store, it offers various voice control commands to work with your Philips Android Smart TV.

\* Alexa is not available in all languages and countries. Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates.

**Note:** The supported Ambilight styles may depend on specific TV models. Please refer the user manual of your TV to know the supported Ambilight styles.

---

## 24.2

### Using Alexa

To use Alexa, you need to first setup the Alexa client service on your Philips Android Smart TV. Start the setup by launching the "Amazon Alexa" app from the Home screen of your TV. Follow the instructions and complete the following steps:

- Select a name for your Android Smart TV for Alexa to recognize.
- Select a Google account and sign-in.
- Return to this skill in the Alexa App on your phone to enable it, link accounts, and discover your devices.
- Return to your TV to complete setup.

#### Setup on TV for Alexa

- 1 - Press  HOME and open "Amazon Alexa" app.

2 - You need Amazon Echo device and Alexa companion app (on mobile device or web version) be ready to start the setup.

3 - Follow the instructions on screen to accept Privacy Policy terms, name your TV and sign in your Google account. The Google account is needed to pair with Alexa device.

4 - On your mobile device, sign in with the same Google account in the Amazon Alexa companion app.

5 - Complete following steps in the Amazon Alexa companion app. The first is to enable "Philips Smart TV Voice Control" skill. The second is to link your Google account and then the final is to discover devices.

6 - Select **Enable** or **Disable** for the TV switch on setting. You can use Alexa to turn your TV On/Off by voice command.

7 - At the end of setup screen, you can select **Done** to start to use Alexa. Select **Manage TVs** to do the management of Alexa-paired TVs or un-pair the TVs with Alexa.

Go to [alexa.amazon.com](https://alexa.amazon.com), click on Skills, and search for "Philips Smart TV Voice Control". The skill will be listed in the results.

# Software

## 25.1

### Update Software

#### Update from Internet

If the TV is connected to the Internet, you may receive a message to update the TV software. You need a high-speed (broadband) Internet connection. If you receive this message, we recommend you to carry out the update.

With the message on screen, select **Update** and follow the instructions on-screen.

You can also look for a software update yourself.

During the software update, there is no picture and the TV will switch off and on again. This might happen several times. The update can take a few minutes. Wait until the TV picture comes back up. Do not press the power switch  on the TV or on the remote control during the software update.

To look for a software update yourself...

- 1 - Select  **Settings** > **Update Software** > **Search for Updates** and press **OK**.
- 2 - Select **Internet (recommended)** and press **OK**.
- 3 - The TV will look for an update on the Internet.
- 4 - If an update is available, you can update the software right away.
- 5 - A software update can take several minutes. Do not press the  key on the TV or remote control.
- 6 - When the update is done, the TV will return to the channel you were watching.

#### Update from USB

It might be necessary to update the TV software.

You need a computer with an high-speed Internet connection and a USB flash drive to upload the software on the TV. Use a USB flash drive with at least 2Gb free space. Make sure that write protection is switched off.

To update the TV software...

- 1 - Select  **Settings** > **Update Software** > **Search for Updates** and press **OK**.
- 2 - Select **USB** and press **OK**.

#### Identify the TV

- 1 - Insert the USB flash drive into one of the USB connections of the TV.
- 2 - Select **Write to USB** and press **OK**. An identification file is written on the USB flash drive.

#### Download the software

- 1 - Insert the USB flash drive into your computer.
- 2 - On the USB flash drive, locate the file **update.htm** and double click it.
- 3 - Click **Send ID**.
- 4 - If new software is available, download the .zip file.
- 5 - After the download, unzip the file and copy the file **autorun.upg** onto the USB flash drive. Do not place this file in a folder.

#### Update the TV software

- 1 - Insert the USB flash drive into the TV again. The update starts automatically.
- 2 - A software update can take several minutes. Do not press the  key on the TV or remote control. Do not remove the USB flash drive.
- 3 - When the update is done, the TV will return to the channel you were watching.

If a power cut occurs during the update, never remove the USB flash drive from the TV. When the power returns, the update will continue.

To prevent an accidental update of the TV software, delete the autorun.upg file from the USB flash drive.

### Look for OAD Updates

Scan to search for an OAD (Over-the-air Download) software update.

To look for OAD updates...

- 1 - Select  **Settings** > **Update Software** > **Search for Updates** > **Look for OAD updates**.
- 2 - Follow the instructions on screen.

\* Note: The OAD software update is only available in selected countries.

## 25.2

### Software Version

To view the current TV software version...

- 1 - Select  **Settings** > **Update Software** > **Current Software info**, and press **OK**.
- 2 - The version, release notes and creation date are shown. Also, the Netflix ESN Number is shown if available.
- 3 - Press **←** (left) repeatedly if necessary, to close the menu.

---

25.3

## Automatic Software Update

To switch on Automatic software update to update your TV software automatically. Leave the TV in standby.

- 1 - Select **⚙️Settings** > **Update Software** > **Automatic Software Update** > **On**, and press **OK**.
- 2 - Follow the on-screen instruction.
- 3 - Press **⬅️** (left) repeatedly if necessary, to close the menu.

When the setting is enabled, the upgrade gets downloaded when the TV is powered ON and installed 15min after the TV has gone to standby (as long as there are no recordings or other alarms scheduled).

When the setting is disabled, the "Upgrade Now" / "Later" OSD will be shown.

---

25.4

## View Software Update History

Display the list of software versions that are successfully update on the TV.

To view the software update history...

- 1 - Select **⚙️Settings** > **Update Software** > **View software update history** and press **OK**.
- 2 - The software update history on this TV will be listed.

---

# Specifications

## 26.1

## Environmental

### End of Use

#### Disposal of your old product and batteries

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means that the product is covered by the European Directive 2012/19/EU.

Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local rules and do not dispose of your old products with your normal household waste. Correct disposal of your old product helps to prevent potential negative consequences for the environment and human health.

Your product contains batteries covered by the European Directive 2006/66/EC, which cannot be disposed with normal household waste.

Please find out for yourself about the local rules on separate collection of batteries because correct disposal will help to prevent negative consequences for the environment and human health.

## 26.2

## Power

Product specifications are subject to change without notice. For more specification details of this product, see [www.philips.com/TVsupport](http://www.philips.com/TVsupport)

### Power

- Mains power : AC 110–240V +/-10%
- Ambient temperature : 5°C to 35°C
- Power saving features : Eco mode, Picture mute (for radio), Auto switch-off timer, Eco settings menu.

## 26.3

## Operating System

Android OS :

Android 11

## 26.4

## Reception

- Aerial input : 75 ohm coaxial (F-type)
- Tuner bands : Hyperband, UHF, VHF
- ISDBT
- Analogue video playback : SECAM, PAL
- Digital video playback : MPEG2 SD/HD (ISO/IEC 13818-2), MPEG4 SD/HD (ISO/IEC 14496-10)
- Digital audio playback (ISO/IEC 13818-3)

## 26.5

## Display Type

### Diagonal screen size

- 194 cm / 77 inch

### Display resolution

- 3840 x 2160

## 26.6

## Display Input Resolution

### Supported Computer/Video resolution

#### Resolution — Refresh rate

- 640 x 480 – 60Hz
- 576p – 50Hz
- 720p – 50Hz, 60Hz
- 1920 x 1080p – 24Hz, 25Hz, 30Hz, 50Hz, 60Hz, 100Hz, 120Hz
- 2560 x 1440 – 60Hz, 120Hz
- 3840 x 2160p – 24Hz, 25Hz, 30Hz, 50Hz, 60Hz, 100Hz, 120Hz

\* Note: 100Hz is only supported when HDMI Ultra HD is set to **Optimal** in HDMI1 and 2; 120Hz is only supported when HDMI Ultra HD is set to **Optimal** or **Optimal (Auto Game)** in HDMI1 and 2. 100Hz and 120Hz input format is internally scaled down to 4K1K resolution in all picture styles.

## Supported Video only resolution

Resolution — Refresh rate

- 480i – 60Hz (when HDMI Ultra HD is set to **Standard**)
- 576i – 50Hz (when HDMI Ultra HD is set to **Standard**)
- 1080i – 50Hz, 60Hz
- Variable refresh rate video 1080p, 1440p, 2160p with frame rate up to 48–120Hz when HDMI Ultra HD is set to **Optimal (Auto Game)**

\* Note:

- Some resolution and frame rate may not be supported in all input sources.
- Variable refresh rate video input format with max frame rate 120Hz is internally scaled down to 4K1K resolution in all picture styles.

---

26.7

## Connectivity

### TV Side

- Headphones – Stereo mini-jack 3.5mm
- USB 3 – USB 2.0
- USB 2 – USB 3.0
- HDMI 4 in – ARC – Ultra HD – HDR
- HDMI 3 in – ARC – Ultra HD – HDR

### TV Bottom

- Digital audio out – Optical Toslink
- Network LAN – RJ45
- Antenna (75 ohm)
- HDMI 1 in – ARC – Ultra HD High Frame Rate – HDR
- HDMI 2 in – ARC/eARC – Ultra HD High Frame Rate – HDR
- USB 1 – USB 2.0

---

26.8

## Sound

Output power (RMS) : 70W

Dolby MS12 V2.5

- Dolby Atmos
- DTS – HD (M6)
- DTS Play-Fi
- Surround Virtualizer + Height Virtualizer
- Dolby Bass Enhancement

- Dolby Dialogue Enhancement
- Dolby Volume (AVL/Night Mode)
- AI Sound
- AI EQ
- Mimi Health Hearing

---

26.9

## Multimedia

### Connections

- USB 2.0 / USB 3.0
- Ethernet LAN RJ-45
- Wi-Fi 802.11a/b/g/n/ac, Dual Band
- Bluetooth® 5.0

### Supported USB file systems

- FAT 16, FAT 32, NTFS

### Playback formats

- Containers: PS, TS, M2TS, TTS, AVCHD, MP4, M4V, MKV, ASF, AVI, 3GP, Quicktime
- Video Codecs : AVI, MKV, H.264/MPEG-4 AVC, MPEG1, MPEG2, MPEG4, VP9, HEVC (H.265), AV1
- Audio Codecs : MP3, WAV, AAC, WMA (v2 up to v9.2), WMA-PRO (v9 and v10)
- Subtitles :
  - Formats : SRT, SUB, TXT, SMI
  - Character encodings : UTF-8, Central Europe and Eastern Europe (Windows-1250), Cyrillic (Windows-1251), Greek (Windows-1253), Turkish (Windows-1254), Western Europe (Windows-1252), Hebrew(CP-1255), Arabic(CP-1256), Baltic(CP-1257), Korean(Windows-949)
- Maximum Supported Data Rate :
  - MPEG-4 AVC (H.264) supported up to High Profile @ L5.2 80Mbps
  - H.265 (HEVC) supported up to main 10 high profile L5.1 with 100Mbps
  - AV1 supported up to main profile L5.1 with 80Mbps
- Image Codecs : JPEG, GIF, PNG, BMP, HEIF, 360 Photo

### Wi-Fi Certified

This TV is Wi-Fi Certified device.

# Help and Support

27.1

## Register your TV

Register your TV and enjoy a range of benefits including full support (including downloads), privileged access to information about new products, exclusive offers and discounts, the chance to win prizes and even participate in special surveys about new releases.

Go to [www.philips.com/TVsupport](http://www.philips.com/TVsupport)

27.2

## Using Help

This TV offers help on screen .

### Open Help

Press the  key (blue) to open Help immediately. Help will open on the chapter that is most relevant to what you are doing or what is selected on TV. To look up topics alphabetically, press the colour key  **Keywords**.

To read the Help as a book, select **Book**.

You can also open  **Help** in the Quick menu.

Before you execute the Help instructions, close Help. To close Help, press the colour key  **Close**.

For some activities, like Text (Teletext), the colour keys have specific functions and cannot open Help.

### TV Help on your tablet, smartphone or computer

To carry out extended sequences of instructions more easily, you can download the TV Help in PDF format to read on your smartphone, tablet or computer. Alternatively, you can print the relevant Help page from your computer.

To download the Help (user manual) go to [www.philips.com/TVsupport](http://www.philips.com/TVsupport)

### Quick Menu > Help

You can use more Help functions to diagnose and get more information about your TV.

- **TV information** - View the Model name, Serial number and Software version of your TV.
- **How to** - You can see instructions on how to install channels, sort channels, update TV software, connect external devices and use Smart functions on your TV.
- **TV diagnose** - Run the TV diagnose to check the condition of your TV.

- **Self-diagnose** - You can check if the picture, sound, network and other settings are working fine.
- **Update software** - Check available software updates.
- **User manual** - Read the user manual for TV information.
- **Troubleshooting** - Find a solution for frequent ask questions.
- **Factory settings** - Reset all settings to factory settings.
- **Reinstall TV** - Reinstall and redo the complete TV installation.
- **Contact info** - Show the telephone number or web address for your country or region.

27.3

## TV Diagnose and Self-diagnose

### TV diagnose

You can run the TV diagnose test to check the condition of your TV. At the end of the diagnose, TV will clear the cache memory and close any unused apps to continue the smooth functioning of your TV.

To run the TV diagnose test...

- 1 - Select  **Quick Menu** >  **Help** > **TV diagnose** and press **OK**.
- 2 - Select **Start** to run a series of diagnostic tests.
- 3 - When the test completed, you can view the status of following items.
  - Remote control
  - Power
  - Picture
  - Sound
  - External devices
  - Network
  - Tuner
  - Storage
  - Clear cache memory
  - Apps
- 4 - Select **Close** to close the result page and go back to **TV diagnose** wizard.
- 5 - Select **Done** to exit from **TV diagnose**, select **Self-diagnose** to do other diagnostic check, select **View results** to view the result page again.

### Self-diagnose

Self-diagnose can help you to do troubleshooting of your TV by checking the configurations of the TV.

To run the Self-diagnose...

- 1 - Select  **Quick Menu** >  **Help** > **Self-diagnose** and press **OK**.
- 2 - Select following items to check the

configurations.

- **Check the TV** – You can check if the picture, sound and other settings are working fine..
- **Check the network** – Check the network connection.
- **Check the remote control** – Perform the test to verify the TV bundled remote control functionality.
- **View weak signal history** – Display the list of channel numbers that were automatically saved when signal strength was weak.
- **Optimize internal storage** – Free up space in TV's internal storage for optimal performance.

---

27.4

## Troubleshooting

---

### Switch On and Remote Control

The TV does not switch on

- Disconnect the power cable from the power outlet. Wait for one minute then reconnect it.
- Make sure that the power cable is securely connected.

Creaking sound at startup or switch off

When you are switching the TV on, off or to standby, you hear a creaking sound from the TV chassis. The creaking sound is due to the normal expansion and contraction of the TV as it cools and warms up. This does not affect performance.

TV does not respond to the remote control

The TV requires some time to start up. During this time, the TV does not respond to the remote control or TV controls. This is normal behaviour. If the TV continues to be unresponsive to the remote control, you can check if the remote control is working by means of a mobile phone camera. Put the phone in camera mode and point the remote control to the camera lens. If you press any key on the remote control and you notice the infra red LED flicker through the camera, the remote control is working. The TV needs to be checked. If you do not notice the flickering, the remote control might be broken or its batteries are low. This method of checking the remote control is not possible with remote controls which are wirelessly paired with the TV.

The TV goes back to standby after showing the Philips startup screen

When the TV is in standby, a Philips startup screen is displayed, then the TV returns to standby mode. This is normal behaviour. When the TV is disconnected and reconnected to the power supply, the startup screen is displayed at the next startup. To switch on the TV from standby, press **⏻** on the remote control or on the TV.

The standby light keeps on blinking

Disconnect the power cable from the power outlet. Wait 5 minutes before you reconnect the power cable. If the blinking reoccurs, contact Philips TV Consumer Care.

---

## Channels

No digital channels found during the installation

See the technical specifications to make sure that your TV supports digital channels in your country. Make sure that all cables are properly connected and that the correct network is selected.

Previously installed channels are not in the channel list

Make sure that the correct channel list is selected.

---

## Picture

No picture / distorted picture

- Make sure that the antenna is properly connected to the TV.
- Make sure that the correct device is selected as the display source.
- Make sure that the external device or source is properly connected.

Sound but no picture

- Change to other video sources and then change back to current source, then do picture style restore in Picture settings or do Factory reset in General settings option.

Poor antenna reception

- Make sure that the antenna is properly connected to the TV.
- Loud speakers, unearthed audio devices, neon lights, high buildings and other large objects can influence reception quality. If possible, try to improve the reception quality by changing the antenna direction or moving devices away from the TV.
- If reception on only one channel is poor, fine-tune this channel with Manual Installation.

Poor picture from a device

- Make sure that the device is connected properly. Make sure the device's output video setting is the highest possible resolution if applicable.
- Restore picture style or change to other picture styles.

Picture settings change after a while

Make sure that **Location** is set to **Home**. You can change and save settings in this mode.

A commercial banner appears

Make sure that **Location** is set to **Home**.

### Picture does not fit the screen

- Change to a different picture format.
- Change **Picture format** to **Original**.

### Picture position is incorrect

- Picture signals from some devices may not fit the screen correctly. Check the signal output of the connected device.
- Change **Picture format** to **Original**.

### Computer picture is not stable

Make sure that your PC uses the supported resolution and refresh rate.

---

## Sound

### No sound or poor sound quality

If no audio signal is detected, the TV automatically switches the audio output off — this does not indicate malfunction.

- Make sure that the sound settings are correctly set.
- Make sure that all cables are properly connected.
- Make sure that the volume is not muted or set to zero.
- Make sure that the TV audio output is connected to the audio input on the Home Theatre System. Sound should be heard from the HTS speakers.
- Some devices may require you to manually enable HDMI audio output. If HDMI audio is already enabled, but you still do not hear audio, try changing the digital audio format of the device to PCM (Pulse Code Modulation). Refer to the documentation accompanying your device for instructions.

---

## HDMI and USB

### HDMI

- Note that HDCP (High-bandwidth Digital Content Protection) support can delay the time taken for a TV to display content from an HDMI device.
- If the TV does not recognise the HDMI device and no picture is displayed, switch the source from one device to another and back again.
- If the picture and sound of a device connected to HDMI is distorted, connect the device to another HDMI port on TV and power reboot your source device.
- If the picture and sound of a device connected with HDMI is distorted, check if a different **HDMI Ultra HD** setting can solve this problem. In Help, press the colour key **— Keywords** and look up **HDMI Ultra HD**.
- If there are intermittent sound disruptions, make sure that output settings from the HDMI device are correct.
- If you use an HDMI-to-DVI adapter or HDMI-to-DVI cable, make sure that an additional audio cable is

connected to AUDIO IN (mini-jack only), if available.

### HDMI EasyLink does not work

- Make sure that your HDMI devices are HDMI-CEC compatible. EasyLink features only work with devices that are HDMI-CEC compatible.

### No volume icon shown

- When an HDMI-CEC audio device is connected and you use the TV Remote Control to adjust the volume level from the device, this behaviour is normal.

### Photos, videos and music from a USB device do not show

- Make sure that the USB storage device is set to Mass Storage Class compliant, as described in the storage device's documentation.
- Make sure that the USB storage device is compatible with the TV.
- Make sure that the audio and picture file formats are supported by the TV.

### Choppy playback of USB files

- The transfer performance of the USB storage device may limit the data transfer rate to the TV which causes poor playback.

---

## Network

### Wi-Fi network not found or distorted

- Microwave ovens, DECT phones or other Wi-Fi 802.11b/g/n/ac devices in your proximity might disturb the wireless network.
- Make sure that the firewalls in your network allow access to the TV's wireless connection.
- If the wireless network does not work properly in your home, try the wired network installation.

### Internet does not work

- If the connection to the router is OK, check the router connection to the Internet.

### The PC and Internet connection are slow

- Look in your wireless router's user manual for information on indoor range, transfer rate and other factors of signal quality.
- Use a high-speed (broadband) Internet connection for your router.

### DHCP

- If the connection fails, you can check the DHCP (Dynamic Host Configuration Protocol) setting of the router. DHCP should be switched on.

### Poor quality when watching streaming video

- The image/sound quality of stream video is depending on the original video content provided by streaming video apps.
- To ensure the best experience of watching streaming videos, a fast and stable network connection is essential. The recommended network connection speed for the streaming videos are as follows:
  - Standard image quality (SD): 5 Mbps
  - High image quality (HD): 10 Mbps

---

## Bluetooth®

### Unable to pair

- Make sure the device is in pairing mode. Read the user manual of the device.
- Keep the wireless speaker as close to the TV as possible.
- Trying to pair several devices with the TV at the same time, may not work.

### Bluetooth® lost connection

- Always position the wireless speaker within a range of 5 meters from the TV.

### Bluetooth® Audio and Video synchronisation

- Before you purchase a wireless Bluetooth® speaker, inform yourself about its quality of Audio to Video synchronisation, commonly called 'lip sync'. Not all Bluetooth® devices perform correctly. Ask your dealer for advice.

---

## Wrong Menu Language

### Wrong menu language

Change the language back to your language.

- 1 - Press  HOME to go to Home screen .
- 2 - Select the  icon (Settings) from System bar on the top of Home screen and press OK.
- 3 - Press 5 times  (down).
- 4 - Press 3 times , select your language and press OK.
- 5 - Press  Back to close the menu.

---

27.5

## Online Help

To solve any Philips TV related problem, you can consult our online support. You can select your language and enter your product model number.

Go to [www.philips.com/TVsupport](http://www.philips.com/TVsupport)

On the support site you can find your country's telephone number to contact us as well as answers to frequently asked questions (FAQs). In some countries, you can chat with one of our collaborators and ask your question directly or send a question by email. You can download new TV software or the manual to read on your computer.

---

27.6

## Support and Repair

For support and repair, call the Consumer Care hotline in your country. Our service engineers will take care of a repair, if necessary.

Find the telephone number in the printed documentation that came with the TV.

Or consult our

website [www.philips.com/TVsupport](http://www.philips.com/TVsupport) and select your country if needed.

### TV model number and serial number

You might be asked to provide the TV product model number and serial number. Find these numbers on the packaging label or on the type label on the back or bottom of the TV.

### Warning

Do not attempt to repair the TV yourself. This may cause severe injury, irreparable damage to your TV or void your warranty.

---

# Safety and Care

---

28.1

## Safety

---

### Important

Read and understand all safety instructions before you use the TV. If damage is caused by failure to follow instructions, the warranty does not apply.

---

### Risk of Electric Shock or Fire

- Never expose the TV to rain or water. Never place liquid containers, such as vases, near the TV. If liquids are spilt on or into the TV, disconnect the TV from the power outlet immediately. Contact Philips TV Consumer Care to have the TV checked before use.
- Never expose the TV, remote control or batteries to excessive heat. Never place them near burning candles, naked flames or other heat sources, including direct sunlight.
- Never insert objects into the ventilation slots or other openings on the TV.
- Never place heavy objects on the power cord.
- Avoid force coming onto power plugs. Loose power plugs can cause arcing or fire. Ensure that no strain is exerted on the power cord when you swivel the TV screen.
- To disconnect the TV from the mains power, the power plug of the TV must be disconnected. When disconnecting the power, always pull the power plug, never the cord. Ensure that you have full access to the power plug, power cord and outlet socket at all times.

---

### Risk of Injury or Damage to the TV

- Two people are required to lift and carry a TV that weighs more than 25 kg or 55 lbs.
- If you mount the TV on a stand, only use the supplied stand. Secure the stand to the TV tightly. Place the TV on a flat, level surface that can support the weight of the TV and the stand.
- When wall mounted, ensure that the wall mount can safely bear the weight of the TV set. TP Vision bears no responsibility for improper wall mounting that results in accident, injury or damage.
- Parts of this product are made of glass. Handle with care to avoid injury or damage.

#### Risk of damage to the TV !

Before you connect the TV to the power outlet,

ensure that the power voltage matches the value printed on the back of the TV. Never connect the TV to the power outlet if the voltage is different.

---

### Stability Hazards

A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- ALWAYS ensure the television set is not overhanging the edge of the supporting furniture.
- ALWAYS use cabinets or stands or mounting methods recommended by the manufacturer of the television set.
- ALWAYS use furniture that can safely support the television set.
- ALWAYS educate children about the dangers of climbing on furniture to reach the television set or its controls.
- ALWAYS route cords and cables connected to your television so they cannot be tripped over, pulled or grabbed.
- NEVER place a television set in an unstable location.
- NEVER place the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- NEVER place the television set on cloth or other materials that may be located between the television set and supporting furniture.
- NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed.

If the existing television set is going to be retained and relocated, the same considerations as above should be applied.

---

### Risk of Batteries

- Do not ingest the battery. Chemical burn hazard.
- The remote control may contain a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
- Keep new and used batteries away from children.
- If the battery compartment does not close securely, stop using the product and keep it away from children.
- If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.
- Risk of fire or explosion if the battery is replaced by an incorrect type.
- Replacement of a battery with an incorrect type that can defeat a safeguard (for example, in the case of

some lithium battery types).

- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

---

## Risk of Overheating

Never install the TV in a confined space. Always leave a space of at least 10 cm or 4 inches around the TV for ventilation. Ensure curtains or other objects never cover the ventilation slots on the TV.

---

## Lightning Storms

Disconnect the TV from the power outlet and antenna before lightning storms.

During lightning storms, never touch any part of the TV, power cord or antenna cable.

---

## Risk of Hearing Damage

Avoid using earphones or headphones at high volumes or for prolonged periods of time.

---

## Low Temperatures

If the TV is transported in temperatures below 5°C or 41°F, unpack the TV and wait until the TV temperature reaches room temperature before connecting the TV to the power outlet.

---

## Humidity

In rare occasions, depending on temperature and humidity, minor condensation can occur on the inside of the TV glass front (on some models). To prevent this, do not expose the TV to direct sunlight, heat or extreme humidity. If condensation occurs, it will disappear spontaneously while the TV is playing for a few hours.

The condensation moisture will not harm the TV or cause malfunction.

---

28.2

## Screen Care

- Never touch, push, rub or strike the screen with any object.
- Unplug the TV before cleaning.
- Clean the TV and frame with a soft damp cloth and wipe gently. Avoid touching the Ambilight\* LEDs on the backside of the TV. Never use substances such as alcohol, chemicals or household cleaners on the TV.
- To avoid deformations and colour fading, wipe off water drops as quickly as possible.
- Avoid stationary images as much as possible. Stationary images are images that remain onscreen for extended periods of time. Stationary images include onscreen menus, black bars, time displays, etc. If you must use stationary images, reduce screen contrast and brightness to avoid screen damage.

\* Ambilight LED is only for models which support Ambilight function.

## 29.1

## Terms of Use – TV

2022 © TP Vision Europe B.V. All rights reserved.

This product was brought to the market by TP Vision Europe B.V. or one of its affiliates, hereinafter referred to as TP Vision, which is the manufacturer of the product. TP Vision is the warrantor in relation to the TV with which this booklet was packaged. Philips and the Philips Shield Emblem are registered trademarks of Koninklijke Philips N.V.

Specifications are subject to change without notice. Trademarks are the property of Koninklijke Philips N.V or their respective owners. TP Vision reserves the right to change products at any time without being obliged to adjust earlier supplies accordingly.

The written material packaged with the TV and the manual stored in the memory of the TV or downloaded from the Philips website [www.philips.com/TVsupport](http://www.philips.com/TVsupport) are believed to be adequate for the intended use of the system.

The material in this manual is believed adequate for the intended use of the system. If the product, or its individual modules or procedures, are used for purposes other than those specified herein, confirmation of their validity and suitability must be obtained. TP Vision warrants that the material itself does not infringe any United States patents. No further warranty is expressed or implied. TP Vision cannot be held responsible neither for any errors in the content of this document nor for any problems as a result of the content in this document. Errors reported to Philips will be adapted and published on the Philips support website as soon as possible.

Terms of warranty – Risk of injury, damage to TV or void of warranty!

Never attempt to repair the TV yourself. Use the TV and accessories only as intended by the manufacturer. The caution sign printed on the back of the TV indicates risk of electric shock. Never remove the TV cover. Always contact Philips TV Customer Care for service or repairs. Find the telephone number in the printed documentation that came with the TV. Or consult our website [www.philips.com/TVsupport](http://www.philips.com/TVsupport) and select your country if needed. Any operation expressly prohibited in this manual, or any adjustments and assembly procedures not recommended or authorised in this manual, shall void the warranty.

Pixel characteristics

This TV product has a high number of colour pixels. Although it has effective pixels of 99.999% or more,

black dots or bright points of light (red, green or blue) may appear constantly on the screen. This is a structural property of the display (within common industry standards) and is not a malfunction. Therefore, please note this is not subjected to repair, exchange or refund within and/or out of the warranty period.

Backlight characteristics

All Philips TV have gone through stringent tests and checks before shipping to you. You can be rest assured that we place the quality of our TVs the utmost importance so that you do not suffer any viewing displeasure while watching your TV. However, please note that backlight bleeding (“Mura effect”) and /or unevenness of background light that can only be observed in dark images or in a very dark and dim room are considered to be within TV specifications. Such occurrences do not represent a deterioration nor shall be regarded as a defect of the TV. Hence, we regret that claims of this nature for warranty, free of charge service, replacement or refund cannot be accepted within and/or out of the warranty period.

TP Vision is committed to developing, producing and marketing products that cause no adverse health effects. TP Vision confirms that, as long as its products are handled properly for their intended use, they are safe to use according to scientific evidence available today. TP Vision plays an active role in the development of international safety standards, enabling TP Vision to anticipate further developments in standardisation for early integration in its products.
