# Highlights

## Unique OneBlade Technology

Philips OneBlade has a revolutionary technology designed for facial grooming. It can shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (12000x per min) so it's efficient – even on longer hairs.

## Trim away

Trim your beard to a precision stubble length with one of the included 3 stubble combs. 1mm for a 5 o'clock, 3mm for a tight trim, and 5mm for a long stubble.

## Edge it up

Create precise edges with the dual-sided blade. You can shave in either direction to get great visibility and see every hair that you're cutting. Line up your style in seconds!

## Shave it off

OneBlade doesn't shave as close as traditional blade – so your skin stays comfortable. Go against the grain and shave off any length of hair easily.

## Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably trim and shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

## USB-A charging

Can be charged at home or on the road, perfect for your daily routine and for travel.

## Blade that doesn't fade easily

Durable stainless steel blade that lasts up to 4 months of use\* to keep that fresh feel. When the replacement indicator – eject icon – will appear on the blade, the blade performance may no longer be optimal. It is time to consider changing the blade for the best shaving experience

## Wet & dry

OneBlade is fully waterproof, so it is easy to clean: just rinse it under the tap. You can shave wet or dry, even in the shower – whichever you prefer. No shaving foam needed.

## Long lasting battery

Rechargeable NiMH battery delivers 45 minutes of constant shaving power after an 8 hour charge.
