- Three flexible heat and speed settings for easy control
- 38 mm ThermoBrush for smooth styles and waves
- Narrow concentrator for focused airflow

#### **Care and protect**

- Argan-oil infused brush
- Care setting for better protection while drying and styling
- More Care with ion conditioning for shiny, frizz-free hair

# Highlights

#### 800W

The Air Styler with 800W airflow for a gentle drying and styling. Achieve salon-like results every day.

#### Argan-oil infused brush

The airstyler uses ceramic brushes infused with argan oil to make styling fast and effortless, with a brushing action that feels as silky smooth as your hair looks.

#### **Care setting**

The 'Care' setting ensures the optimum drying temperature and guards against overheating. Hair still dries fast, with the same powerful airflow but at a constant, caring temperature.

#### **Ionic Care**

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

#### Retractable bristle brush

The 30 mm brush with retractable bristles is designed for the easy styling. Turn the tip of the brush and slide it out for defined waves.

#### **Paddle Straightening Brush**

With the innovative Paddle Straightening Brush, attached to the handle, you can create beautiful naturally straight looking hair

#### Three flexible settings

The speed and heat required can be easily adjusted to create the perfect result. Three flexible settings ensure precise and tailored styling.

#### **Cool air setting**

The Cool air setting uses low heat to gently dry your hair. It works especially well with fine, dry or damaged hair.

#### 38 mm ThermoBrush

The ThermoBrush has an extra wide diameter of 38 mm. The width of the barrel makes it the perfect styling tool for creating smooth styles and waves.

#### **Narrow concentrator**

Use the narrow concentrator for the focused airflow for precise styling or touch-ups.

## Specifications

#### **Technical specifications**
