- Wireless subwoofer: feel the ultimate sound experience

Entertainment at the speed of light

- Google Play™ store—the world at your fingertips
- Twin Tuner lets you watch or record more than one program
- From apps to Cloud TV: more online entertainment than ever

PHILIPS

Highlights

Ambilight 4-sided

You've created a home that's more than just a house, so why not choose a TV that is warm and inviting too? Our most amazing Ambilight experience ever projects an extra wide glow around four-sides of your TV onto the surrounding wall. Your screen seems much wider, your experience more enhanced...and your TV appears to float on air. Color, vibrancy and excitement move beyond the screen and into your living room, bringing with it a more thrilling, intense and immersive viewing experience.

Razor Slim profile

Sometimes less is more. Especially when it comes to the thinness of your TV. That's why Philips Razor Slim TVs has our thinnest, sharpest and most refined edge. From some angles you'll barely notice it's there...and yet it never fails to be the first thing people admire when they walk into the room.

Arc stand

Designed as a companion to our 4-sided Ambilight, Philips Arc stand has a light, open arch that creates the illusion that your TV is floating in a halo of light. The high quality polished chrome finish and elegant open design add an air of style to any room.

4K Ultra HD Resolution

See TV like never before thanks to four times the resolution of a conventional Full HD TV. 3840 x 2160 pixels provide an image so refined, so lifelike, it's a window to a new world.

Perfect Pixel Ultra HD

Building on our award winning Picture Quality heritage, we've elevated high definition Picture Quality to a whole new level. The picture processing algorithms of our Perfect Pixel Ultra HD engine convert any input picture into 4K Ultra HD resolution on your screen. The result? Whether you watch a video online, or native UHD content, you'll experience the ultimate in sharpness, motion, clarity, color and contrast from Philips.

1000Hz PMR Ultra

Nothing beats the adrenaline rush of gaming, fast paced sporting events or action films on an Ultra HD TV. That's why this Philips TV has 1000Hz Perfect Motion Rate Ultra; so you'll enjoy the ultimate in smooth moving Ultra HD images. Because even though your pulse may jump, the image you're watching shouldn't.

Wireless subwoofer

Feel the power of sound. We've included a Wireless Ultra Bass subwoofer to bring more depth to your TV experience. 50W of power delivers high impact sound that will transform the ambient space of your room. It's wireless and thin enough to place discreetly under your sofa or against the wall, so you can create a truly captivating sound experience anywhere within your home.

Google Play™ store

Feel like a kid in a candy store. Enjoy a delicious assortment of apps, games, and all the goodies available from the Google Play™ store like the Chrome™ browser, YouTube™, Google Movies, Google Music, social network apps and more...and all on your TV Powered by Android™.

Twin Tuner

Never fight about what to watch again. With a twin tuner on your TV you can watch your favorite series and a football game—and all at the same time. Our dual recording feature lets you watch one program while recording another so, you'll always have something great to watch later.

Apps, Cloud TV* & Explorer

Imagine an ever-growing Smart app portfolio on your TV. From YouTube to music, Video On Demand and more, you can customize which apps you add to your dashboard. Want more? Explore Cloud TV. With hundreds of premium international channels, it's a great way to watch your favorite shows and discover what's popular on the other side of the world. With Cloud Explorer, you can access

Dropbox™ to view (and share) your favorite photos and videos on the big screen.

Ambilight 4-sided

Ambilight 4-sided: imagine your TV in a halo of light

You've created a home that's more than just a house, so why not choose a TV that is warm and inviting too? Our most amazing Ambilight experience ever projects an extra wide glow around four-sides of your TV onto the surrounding wall. Your screen seems much wider, your experience more enhanced...and your TV appears to float on air. Color, vibrancy and excitement move beyond the screen and into your living room, bringing with it a more thrilling, intense and immersive viewing experience.

Hex Core

The power of Hex Core and Android on your 4K Ultra HD TV
Fasten your seat belt; this is a TV engine like never before. With Android on your Ultra HD TV you'll enjoy the ultimate images, make video calls, and chat in a way that is super fast, super intuitive, and super fun. The Android robot liberates the power of multiple cores spread over multiple processors to get things done with lightning speed and total ease.
