## Flexible control

### Pro System TV

Surprise and delight with a professional IPTV. Cost-effective central management, quick installation and a customisable UI make this a flexible solution. Philips world-renowned picture quality always engages.

**Cost-effective. With multilingual support.**

- 3 year warranty, extendable to 5 years
- Low operational cost. From installation to deployment
- MyChoice compatible. Built-in pay-to-view solution

**Rapid installation. Effortless customisation.**

- CMND and Control. Operate, update, maintain
- IPTV. Provide channels over IP. Install your own UI
- CMND and Create. Develop and launch your own content
- Instant initial cloning. Rapidly configure Pro TVs
- Serial Xpress Protocol. Connect external decoders and STBs

**Brilliant Philips picture. Versatile operation.**

- Be seen. Brand the TV's UI with your logo
- Built-in scheduler. Advertise, inform, communicate
- Beautifully clear, high-contrast image

# Highlights

## **UI branding**

Your Philips Professional TV offers a clear, easy-to-navigate user interface (UI), which you can customise with your own branding. Easily add your logo and colours to the search bar to increase the visibility of your brand.

## **Built-in pay-to-view solution**

Offer pay-to-view content in any situation - from a complete pay-to-access-all-channels model to selected premium content. MyChoice is an integrated solution that allows viewers to access pay-per-view channels via a code or a card.

## **IPTV. Provide channels over IP**

Provide channels over IP. Install your own user interface (UI), which can be stored on a central server and sent to the TV over IP. Once the UI is on the TV, it can also be stored locally. You'll benefit from flexibility and rapid installation, whether you're personalising your Philips Pro System TVs or centralising system management.

## **CMND and Control**

Run your display network over a local (LAN or RF) connection. CMND & Control allows you to perform vital functions like controlling inputs, updating software and monitoring display status — whether you're in charge of one TV or more.

## **CMND and Create**

Take control of your content with CMND and Create. A drag-and-drop interface makes it simple to publish your own content, whether it's a daily specials board or branded corporate information. Preloaded templates and integrated widgets ensure that your stills, text and video will be up and running in no time.

# Specifications

## Picture/Display

**Diagonal screen size (inch):** 32 inch

**Diagonal screen size (metric):** 80 cm

**Display:** D-LED, LED HD TV

**Panel resolution:** 1366 x 768p
