## 12 delicious fresh bean coffees, easier than ever

### LatteGo, the fastest to clean milk system ever\*

Easily make aromatic coffee varieties like Espresso, Coffee, Cappuccino and Latte Macchiato at the touch of a button. LatteGo tops milk varieties with silky smooth froth, is easy to set up and can be cleaned in as little as 15 seconds\*

#### A variety of coffees customised to your taste

- Silky-smooth cappuccino; freshly brewed by yourself at home.
- Easy selection of your coffee with the intuitive display
- Adjust aroma and volume with the coffee customiser
- Your perfect cup, every time, thanks to 4 user profiles
- Enjoy 12 coffees at your fingertips, including café au lait

#### High-quality coffee from fresh beans

- 20,000 cups of finest coffee with durable ceramic grinders
- The perfect temperature, aroma and crema cup after cup\*\*
- Easily adjust to your taste with 12-step grinder levels
- Even more flavour thanks to the extra shot function

#### Effortless use and cleaning for everyday enjoyment

- Easy cleaning thanks to the fully removable brew group
- Up to 5000 cups\*\*\* without descaling thanks to AquaClean
- Premium machine, elegantly designed for your kitchen

# PHILIPS

# Highlights

## Removable brew group

The brew group is the heart of every bean to cup coffee machine and should be cleaned regularly. The removable brew group allows you to clean it thoroughly just by rinsing it under the tap.

## 100% ceramic grinders

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures that they last for at least 20.000 cups, from coarse to ultra-fine.

## LatteGo milk system

Enjoy silky-smooth cappuccino, even with your favourite plant-based milk alternatives. Thanks to the cyclonic frothing technology, LatteGo transforms various types of milk and plant-based alternatives with the right amount of fat and protein into the best possible dense layer of foam.

## AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups\*\*\*, while enjoying clear and purified water.

## Intuitive display

There's little standing between you and your next delicious cup of coffee with our easy to use display. In a few steps you can customise your fresh-bean flavour and flow smoothly from craving to cup.

## Coffee customiser

Make any coffee your own with the coffee customiser's easily adjustable settings for intensity, coffee and milk length.

## Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

## 12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

## Extra shot function

Boost your drink's intensity with the coffee customiser's extra-shot feature, which adds powerful flavour without the bitterness.

# Specifications

## Country of origin

- Designed in: Italy
- Made in: Romania

## Customisation

- Aroma Strength Settings: 5
- Coffee and Milk Length: Adjustable
- Grinder Settings: 12
